"Sea Wife is a gripping tale of survival at sea—but that's just the beginning. Amity Gaige also manages, before she's done, to probe the underpinnings of romantic love, marriage, literary ambition, political inclinations in the Trump age, parenthood, and finally, the nature of survival itself in our broken world. Gaige is thrillingly talented, and her novel enchants." —Jennifer Egan "Sea Wife brilliantly breathes life not only into the perils of living at sea, but also into the fraught and hidden dangers of domesticity, motherhood, and marriage. What a smart, swift, and thrilling novel." —Lauren Groff From the highly acclaimed author of Schroder, a smart, sophisticated page literary page-turner about a young family who escape suburbia for a yearlong sailing trip that upends all of their lives. Juliet is failing to juggle motherhood and her stalled-out dissertation on confessional poetry when her husband, Michael, informs her that he wants to leave his job and buy a sailboat. With their two kids—Sybil, age seven, and George, age two—Juliet and Michael set off for Panama, where their forty-four foot sailboat awaits them. The initial result is transformative; the marriage is given a gust of energy, Juliet emerges from her depression, and the children quickly embrace the joys of being feral children at sea. Despite the stresses of being novice sailors, the family learns to crew the boat together on the ever-changing sea. The vast horizons and isolated islands offer Juliet and Michael reprieve - until they are tested by the unforeseen. Sea Wife is told in gripping dual perspectives: Juliet's first person narration, after the journey, as she struggles to come to terms with the life-changing events that unfolded at sea, and Michael's captain's log, which provides a riveting, slow-motion account of these same inexorable events, a dialogue that reveals the fault lines created by personal history and political divisions. Sea Wife is a transporting novel about marriage, family and love in a time of unprecedented turmoil. It is unforgettable in its power and astonishingly perceptive in its portrayal of optimism, disillusionment, and survival.

This book addresses for the first time four major rock art areas of West Papua: the Berau Gulf, Bitsyari Bay, Triton Bay and the Baliem Valley. Together, they form one of the richest regions of rock art and include many newly discovered sites. These sites, located along the South Coast and in the Baliem Highlands, contain thousands of paintings. This book presents, for the first time, hundreds of original photographs including hand stencils, matutuo, faces, and abstract motifs found in West Papua. It also compiles existing hypotheses on the antiquity and origins of rock art in the region and tries to offer a stimulus for further research

"Intriguing [and] enjoyable." —Ian McGuire, New York Times Book Review
Ice Ghosts weaves together the epic story of the lost Franklin Expedition of 1845—whose two ships, HMS Erebus and HMS Terror, and their crew of 129 were lost to the Arctic ice—with the modern tale of the scientists, divers, and local Inuit behind the recent incredible discoveries of the wrecks. Paul Watson, a Pulitzer Prize-winning journalist who was on the icebreaker that led one of the discovery expeditions, tells a fast-paced historical adventure story and reveals how a combination of faith in Inuit knowledge and the latest science yielded a discovery for the ages.

The Snellius-II Expedition

This narrative gives the background to the building of the Discovery in Dundee, examining links between whaling, polar ships, marine engineering, and polar ice rescues. It recounts the exploits of Dundee's ice master, Captain Harry McKay, whose experience of rescuing ships locked in pack ice with the aid of his new explosive techniques made him the Admiralty's choice to free Captain Scott aboard Discovery from this fate in the Antarctic in 1904. The author's research in Dundee, New Zealand and Australia has uncovered unpublished material including photographs and diaries from the two rescue ships and reveals for the first time how Merchant Navy Captains - McKay of the Terra Nova and Colbeck of the Morning - blasted 18 miles of ice to free Scott. The book has a darker side and tells how Discovery's inexperienced leader consigned the two superbly experienced and competent captains, McKay and Colbeck, to oblivion and became a national hero in their stead.
