Major Problems in the Civil War and Reconstruction: Documents and Essays

Michel de Montaigne was one of the most influential figures of the Renaissance, singlehandedly responsible for popularising the essay as a literary form. In 1572, Montaigne retired to his estates in order to devote himself to leisure, reading and reflection. There he wrote his constantly expanding 'essays', inspired by the ideas he found in books from his library and his own experience. He discusses subjects as diverse as war-horses and cannibals, poetry and politics, sex and religion, love and friendship, ecstasy and experience. Above all, Montaigne studied himself to find his own inner nature and that of humanity. The Essays are among the most idiosyncratic and personal works in all literature. An insight into a wise Renaissance mind, they continue to engage, enlighten and entertain modern readers. Born in 1533, Michel de Montaigne studied law and spent a number of years working as a counsellor before devoting his life to reading, writing and reflection.

He died in 1586.

Heavenly Essays

The idea for this book predates not only my trilogy on colonial rebellion but my decision to produce the Reconsidering Chartism series. Its gestation began in 2003 with an off-hand comment by a student during a session on European influences on Chartism in the 1840s. She asked: 'what impact did Chartism have on the rest of the world?' I have spent the years since trying to find an answer and this has taken me in directions I could not have anticipated when it all began. Although much has been written about Chartism in Britain, though considerably less on Ireland, when I started work on this problem I quickly found that, apart from articles considering European influences on Chartism and on Chartism in Australia and a book on Chartists in the United States, this was not a question that had been the subject of serious consideration. The opening chapters address this issue. The first examines the internationalism of Chartism something that was evident from the beginnings of the movement. Chapter 2 looks at the relationship between Chartism and events in Canada during the 1830s that led to the rebellions in the Canadas in 1837 and 1838 and the ways in which Scottish Chartism, in particular, had an impact on the politics of the Clear Grits of the early 1850s. This is followed by a chapter that explores Chartism and the Australian colonies especially NSW and Victoria during the 1840s and 1850s when, what were previously penal colonies, made the transition from rule by governors to democratic constitutions in which the People's Charter played an influential part. Chapter 4 draws this discussion together by asking just how far Chartism was a 'global force' in the mid-nineteenth century. The remainder of the book brings together issues that have been a frequent feature throughout the series. The ways in which historians have regarded Chartism have, since Gammage first wrote about it, been matters of disagreement and is considered in Chapters 5 and 6. There was persistent tension in working-class political movements in the first half of the nineteenth century over the relationship between familial and political concerns as ideas of masculinity and femininity shifted. The precise extent of women's participation in movements of protest is difficult to quantify and there is little sign of any formal involvement in politics before radical political reform revived, in London and provincial cities and in the northern textile districts after 1815. Women were not only part of the crowd but from the Queen Caroline affair in 1820 through to the 1850s had a particular role in radical politics, the subject of Chapter 7. Many of those who have commented on Chartism have pointed to leadership, or rather lack of it, as one of the reasons why it ultimately failed. Chapter 8 considers the nature of Chartist leadership and suggests that the traditional view of its ineffectiveness reflects an O'Connor focussed view and fails to consider the importance of local leadership or recognise the different sorts of 'leader' within the movement. Chapter 9 is an extensive revision of a paper on Chartism and the State originally composed in 2003. Chartists had little political muscle and, despite their mass support, were powerless when faced by the coercive power of the local and national states. The final chapter looks at how Chartism has been remembered and memorialised. For radicals, monuments were often less about consensus and more about building permanent symbols of defiance and opposition.

The Essays of "George Eliot."

From the New York Times–bestselling author of *The Color Purple*: A “moving, tender” novel of a Deep South tenant farmer’s quest for a new life (Publishers Weekly). Grange Copeland, a deeply conflicted and struggling tenant farmer in the Deep South of the 1930s, leaves his family and everything he’s ever known to find happiness and respect in the cold cities of the North. This misadventure, his “second life,” proves a dismal failure that sends him back where he came from to confront his now-grown-up son’s disastrous relationships with his own family, including Grange’s granddaughter, Ruth Copeland, a child that Grange grows to love. Love becomes the substance of his third and final life. He spends it in devotion to Ruth, teaching and protecting her—though the cost of doing so is almost more than he can bear. From a Pulitzer Prize and National Book Award winner, this is an “honest sensitive tale . . . leavened by those moments of humor and warmth that have enabled men and women to endure so much tragedy” (Chicago Daily News). This ebook features an illustrated biography of Alice Walker including rare photos from the author’s personal collection.

In this bold book, Samuel Cohen asserts the literary and historical importance of the period between the fall of the Berlin wall and that of the Twin Towers in New York. With refreshing clarity, he examines six 1990s novels and two post-9/11 novels that explore the impact of the end of the Cold War: Pynchon's *Mason & Dixon*, Roth's *American Pastoral*, Morrison's *Paradise*, O'Brien's *In the Lake of the Woods*, Didion's *The Last Thing He Wanted*, Eugenides's *Middlesex*, Lethem's *Fortress of Solitude*, and DeLillo's *Underworld*. Cohen emphasizes how these works reconnect the past to a present that is ironically keen on denying that connection. Exploring the ways ideas about paradise and pastoral, difference and exclusion, innocence and righteousness, triumph and trauma deform the stories Americans tell themselves about their nation's past, *After the End of History* challenges us to reconsider these works in a new light, offering fresh, insightful readings of what are destined to be classic works of literature. At the same time, Cohen enters into the theoretical discussion about postmodern historical understanding. Throwing his hat in the ring with force and style, he confronts not only Francis Fukuyama's triumphalist response to the fall of the Soviet Union but also the other literary and political "end of history" claims put forth by such theorists as Fredric Jameson and Walter Benn Michaels. In a straightforward, affecting style, *After the End of History* offers us a new vision for the capabilities and confines of contemporary fiction.

Analyses of sources as disparate as the Batman films, Broadway musicals and Nigerian home movies reveal how definitions of mental illness, mental health, and of psychology itself intersect with discourses on race, gender, law, capitalism, and globalization.
