### **Refuge for Masterminds**

This volume investigates environmental and political crises that occurred in Europe during the late Middle Ages and the early Modern Period, and considers their effects on people's lives. At this time, the fragile human existence was imagined as a 'Dance of Death', where anyone, regardless of social status or age, could perish unexpectedly. This book covers events ranging from cooling temperatures and the onset of the Little Ice Age, to the frequent occurrence of epidemic disease, pest infestations, food shortages and famines. Covering the mid-fourteenth to mid-seventeenth centuries, this collection of essays considers a range of countries between Iceland (to the north), Italy (to the south), France (to the west) and the westernmost parts of Russia (to the east). This wide-reaching volume considers how deeply climate variability and changes affected and changed society in the late medieval to early modern period, and asks what factors, other than climate, interfered in the development of environmental stress and socio-economic crises. This book will be of great interest to students and scholars of Environmental and Climate History, Environmental Humanities, Medieval and Early Modern History and Historical Geography, as well as Climate Change and Environmental Sciences.

## **Upsy Daisy**

Ecuador, 1969: An American expatriate, Fay Fern, sits in the corner of a restaurant, she and her young son Wright turned away from the television where Vincent Kahn becomes the first man to walk on the moon. Years earlier, Fay and Vincent meet at a pilots' bar in the Mojave Desert. Both seemed poised for reinvention—the married test pilot, Vincent, as an astronaut; the spurned child of privilege, Fay, as an activist. Their casual affair ends quickly, but its consequences linger. Though their lives split, their senses of purpose deepen in tandem, each becoming heroes to different sides of the political spectrum of the 1960s and 70s: Vincent an icon with no plan beyond the mission for which he has single-mindedly trained, Fay a leader of a violent leftist group whose anti-Vietnam actions make her one of the FBI's most wanted. With her last public appearance, a demonstration that frames the Apollo program as a vehicle for distracting the American public from its country's atrocities, Fay leaves Wright to contend with her legacy, his own growing apathy, and the misdeeds of both his mother and his country. An immense, vivid reimagining of the Cold War era, *America Was Hard to Find* traces the fallout of the cultural revolution that divided the country and explores the meaning of individual lives in times of upheaval. It also confirms Kathleen Alcott's reputation as a fearless and vital voice in fiction.

For as long as she can remember, Lady Adriana Sutton has adored Colton Wyndham, to whom she has been promised by an agreement of courtship and betrothal since childhood. As a young girl, she was wounded by Colton's stubborn refusal to comply with his father's wishes and by his angry departure. He was too proud and too stubborn to accept a future not of his own choosing. Rather than submit, he fled from his ancestral home for a life of adventure and danger as an officer in the British army. The years have been immensely kind to Lady Adriana. No longer the plain, thin tomboy Colton had spurned, she has blossomed into an uncommon beauty desired by nearly every eligible bachelor in the land. Yet the only man she desires is the decorated hero who has finally come home to claim his rightful title. Arrogant, unmoved, and seductive as ever, he remains averse to the idea of their betrothal in spite of his growing desire for her. To demonstrate his belief that love cannot be forced, Colton agrees to court Lady Adriana for ninety days, after which time he will be allowed to keep his precious freedom if he so wishes. But much has changed since he balked at his father's plans. Forced into a courtship with this stunning, spirited woman, who is as different today from the young chit he left behind as spring is to winter, the heroic heart that was once closed to Adriana is moved by her charm, her grace, and her sensuality and begins to yield. But a secret from Colton's past may doom their burgeoning love even as the treacherous schemes of a sinister rival threaten to steal the remarkable lady from his arms forever. A lush and spellbinding story of passion and betrayal that grandly sweeps the reader into the magnificent ballrooms and intimate boudoirs of Regency England, *The Reluctant Suitor* is romance as only the incomparable Kathleen Woodiwiss can deliver it -- a love story that will dwell in the reader's heart and memory forever and stand proudly as one of the author's very best.

Napoleon has escaped his imprisonment on Elba. Britain is at war on four fronts. And at Stranje House, a School for Unusual Girls, five young ladies are secretly being trained for a world of spies, diplomacy, and war. Napoleon's invasion of England is underway and someone at Stranje House is sneaking information to his spies. Lady Jane Moore is determined to find out who it is. If anyone can discover the traitor, it is Jane—for, according to headmistress Emma Stranje, Lady Jane is a mastermind. Jane doesn't consider

## **Ballistic Kiss**

Perfect for fans of Jane Austen, this engrossing debut novel offers an unusual twist on the legacy of one of the world's most celebrated and beloved authors: two researchers from the future are sent back in time to meet Jane and recover a suspected unpublished novel. *London, 1815: Two travelers—Rachel Katzman and Liam Finucane—arrive in a field in rural England, disheveled and weighed down with hidden money. Turned away at a nearby inn, they are forced to travel by coach all night to London. They are not what they seem, but rather colleagues who have come back in time from a technologically advanced future, posing as wealthy West Indies planters—a doctor and his spinster sister. While Rachel and Liam aren't the first team from the future to "go back," their mission is by far the most audacious: meet, befriend, and steal from Jane Austen herself. Carefully selected and rigorously trained by The Royal Institute for Special Topics in Physics, disaster-relief doctor Rachel and actor-turned-scholar Liam have little in common besides the extraordinary circumstances they find themselves in. Circumstances that call for Rachel to stifle her independent nature and let Liam take the lead as they infiltrate Austen's circle via her favorite brother, Henry. But diagnosing Jane's fatal illness and obtaining an unpublished novel hinted at in her letters pose enough of a challenge without the continuous convolutions of living a lie. While her friendship with Jane deepens and her relationship with Liam grows complicated, Rachel fights to reconcile the woman she is with the proper lady nineteenth-century society expects her to be. As their portal to the future prepares to close, Rachel and Liam struggle with their directive to leave history intact and exactly as they found it...however heartbreaking that may prove.*
