Introduction to Maternity & Pediatric Nursing - E-Book

The remarkable life of Paul Robeson, quintessential Harlem Renaissance man: scholar, all-American, actor, activist, and firebrand Born the son of an ex-slave in New Jersey in 1898, Paul Robeson, endowed with multiple gifts, seemed destined for fame. In his youth, he was as tenacious in the classroom as he was on the football field. After graduating from Rutgers with high honors, he went on to earn a law degree at Columbia. Soon after, he began a stage and film career that made him one of the country's most celebrated figures. But it was not to last. Robeson became increasingly vocal about defending black civil rights and criticizing Western imperialism, and his radical views ran counter to the country's evermore conservative posture. During the McCarthy period, Robeson's passport was lifted, he was denounced as a traitor, and his career was destroyed. Yet he refused to bow. His powerful and tragic story is emblematic of the major themes of twentieth-century history. Martin Duberman's exhaustive biography is the result of years of research and interviews, and paints a portrait worthy of its incredible subject and his improbable story. Duberman uses primary documents to take us deep into Robeson's life, giving Robeson the due that he so richly deserves.

The Oxford Handbook of American Political Parties and Interest Groups is a major new volume that will help scholars assess the current state of scholarship on parties and interest groups and the directions in which it needs to move. Never before has the academic literature on political parties received such an extended treatment. Twenty nine chapters critically assess both the major contributions to the literature and the ways in which it has developed. With contributions from most of the leading scholars in the field, the volume provides a definitive point of reference for all those working in and around the area. Equally important, the authors also identify areas of new and interesting research. These chapters offer a distinctive point of view, an argument about the successes and failures of past scholarship, and a set of recommendations about how future work ought to develop. This volume will help set the agenda for research on political parties and interest groups for the next decade. The Oxford Handbooks of American Politics

are a set of reference books offering authoritative and engaging critical overviews of the state of scholarship on American politics. Each volume focuses on a particular aspect of the field. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. The organization and pedagogical features were developed and vetted with feedback from American government instructors dedicated to the project.

Right and Reason

This is a story like no other story you ever read. Jim Hart was a great baseball pitcher, entertainer, dancer, singer, and businessman. Above all Jim was a patriot like the founding fathers. Jim was jealous of his country's history and worked tirelessly to expose the corrupt government officials and turn the country back to Constitutional government. Jim married the beautiful Arabian Princess Shalimar, and received a 50 billion dollar dowry from her father Sheik Abdulla, the Emir of his

giant oil producing country. Jim soon became famous for his skills as a pitcher, and began to speak out against the corrupt government. He built his own town where he defied the federal government at every turn, beating them in court. His hospital treated patients with un-approved treatments, by passing the FDA. The powers that be decided that he must die as an example to others that might follow him, and to break up his movement. Jim survived the ambush more determined than ever to win the battle. When he finally made it to the White House, he set out to dismantle the government, and return the country to a Constitutional Republic.

The New American Government and Its Work

The new edition of this leading reader for courses in American foreign policy offers students an up-to-date, highly accessible introduction to the broad array of domestic factors influencing U.S. policymakers. Editor James M. McCormick has carefully selected two dozen current insightful and sometimes controversial essays by a distinguished group of leading experts scholars, journalists and public officials including 11 new and 7 updated contributions. In his introduction, McCormick evaluates the challenges facing U.S. foreign policy makers in recent years and assesses the Obama Administration's successes and failures in its efforts to pursue a new direction in American foreign policy. The volume is then divided into three major parts with an opening essay by the editor to place each part in context and then a selection of essays that analyzes the topic in that part in more detail. Part I, "The Societal Environment," contains a series of articles on the position of interest groups, the impact of military experience, the effect of public opinion, and the role of elections and political parties on foreign policy. Part II, "The Institutional Setting," examines how various political institutions, such as Congress, the presidency, and various bureaucracies (e.g., the National Security Council, the intelligence community) shape American foreign policy. Part III, "Decision makers and Their Policymaking Positions," provides various case analyses over several administrations to illustrate how individuals and bureaucracies affect the foreign policy decision making at the highest levels of government."

Consent Withdrawn

The world has entered the new Millennium, and in the United States there are two forces on a collision course. The first is a political party with a grand plan to gain complete control of the country. The second force is New America, Inc, a secretive organization that sees the country headed toward a moral and financial crash, and seeks to accelerate that process while the American people are strong enough to recover. Caught between these two forces is George Grayhorse, Junior Congressman from Arizona. Appointed to fill out his father's term when his father is murdered, George is wooed by party leaders with offers of power and prestige. He is also recruited by New America, Inc to help them with their plan to give the country a fresh start. George rejects both offers to focus on continuing his father's work and finding his father's killer. When his search makes him a target of his father's killers, George takes refuge with New America, Inc. As the collision occurs, the American people erupt in outrage and George is forced to choose between saving the US congress from an angry mob and stepping aside and allowing the mob to take their revenge.
