Note: The third edition of this book is now available ISBN: 978-1936754106 in both paperback and eBook formats Beyond the Force.com documentation - Second

edition Advanced Apex Programming for Salesforce.com and Force.com is neither a tutorial nor a book for beginners. Intended for developers who are already familiar with the Apex language, and experienced Java and C# developers who are moving to Apex, this book starts where the Force.com documentation leaves off. Instead of trying to cover all of the features of the platform, Advanced Apex programming focuses entirely on the Apex language and core design patterns. You'll learn how to truly think in Apex - to embrace limits and bulk patterns. You'll see how to develop architectures for efficient and reliable trigger handling, and for asynchronous operations. You'll discover that best practices differ radically depending on whether you are building software for a specific organization or for a managed package. And you'll find approaches for incorporating testing and diagnostic code that can dramatically improve the reliability and deployment of Apex software, and reduce your lifecycle and support costs. Based on his experience as a consultant, Force.com MVP and architect of a major AppExchange package, Dan Appleman focuses on the real-world problems and issues that are faced by Apex developers every day, along with the obscure problems and surprises that can sneak up on you if you are unprepared. This second edition contains updates through Winter 14 (API 29) along with significant new content on triggers, asynchronous design patterns, concurrency and more

On February 17, 2009, analog television broadcasting in the United States will end. As of that date, all television stations will switch to digital TV broadcasts -- effectively making obsolete every analog television set in the country. What do you need to do to keep watching television after the switch to digital? Do you need to buy a new television set? If so, what kind of set? Do you need a fancy high definition TV? Or is there a way to make your old TV still work with the new digital broadcasts? Should you switch to cable or satellite television? And what is digital television, anyway? These are just a few of the questions people are asking as the switch to digital TV approaches. All of these questions and more are answered in this short book. Don't be one of the tens of millions of people who are confused about the switch to digital TV and may lose their broadcast signal on February 17! Buy this book and take the guesswork out of the switch to digital TV! What you can learn in this book - o What is the difference is between Digital TV and HDTV o How to switch your analog antenna reception to digital o What you need to do if you are a cable, DSL or satellite subscriber o How to connect a digital converter box o Tips on shopping for a new digital TV o Great solutions to your digital TV problems

Author of the epic Star Force Origin series, Aer-ki Jyr's impressive galactic world-building is on full display in this stand-alone space opera adventure reminiscent of Ryk Brown, Christopher Nuttall, B.V. Larson, and Evan Currie. A new dawn is coming. It's been eons since Humans controlled the universe. Defeated by a mysterious enemy, the downfall of Humanity brought about a virtual dark age. Culture and technology stagnated in their absence. But now, trade is once again flourishing as Human artifacts resurface throughout the galaxy, resurrecting long forgotten advancements. And one such discovery might very well alter the course of the future forever. An epic space adventure, Aer-ki Jyr's APEX is a breathless race to the ultimate prize, with the very fate of the stars hanging in the balance.

This new edition also incorporates the new application page creation process, which differs from the previous version. You'll cover other new areas, such as the updated UI elements

and properties, and the interactive grid. Besides the development of a full application that you can deploy in your organization, the book teaches many new techniques to further enhance your APEX development skills. What You Will Learn Discover new development techniques for APEX developers Develop cloud-based ERP applications Build a cloud-based application on Oracle APEX Integrate the free JasperReports server and report designing tool with Oracle APEX Who This Book Is For Web developers who possess some working knowledge of Oracle Application Express, and developers who have been using Oracle Forms and now wish to use their existing SQL and PL/SQL expertise.

Cloud Computing Using Oracle Application Express

Developing data-centric web applications can be a real challenge as it is a multi-disciplinary process. There are many technologies involved in the client side (HTML, CSS, JavaScript, and so on); the interaction with the database, on the server side; the typeless nature of the web environment; and above all, the need to put it all together. This needs to be done in a manner that will allow the end users to do their job in the simplest and most efficient way, while enriching their user experience. How often have you wished that developing such applications could be uncomplicated and straightforward? This book will show you that it's possible, and teaches you how to do it, using Oracle Application Express (APEX). With this practical guide to APEX, you'll learn how to easily develop data-centric

web applications for the Oracle environment. The book covers the development cycle of an APEX application, reviewing the major APEX principles and building blocks chapter by chapter. It starts with the basic skills you need to get going when developing with APEX. Later, you will learn advanced issues, such as how to build tailor-made forms and reports, using APEX APIs, AJAX, and so on. It not only deals with the "How" but also with the "Why", and before long you will be able to understand APEX concepts, and use them to expand and enhance the built-in features, wizards, and tools. The book starts with the design phase, including building the necessary database objects infrastructure; continues with ways to implement the application logic (on the server side) and the User Interface (on the client side), whilst showing you how to enhance your applications' features and functionality according to your specific needs; and it ends with application deployment. The book emphasizes and clearly documents areas such as Globalization, Localization, and developing multi-lingual applications, and includes a special discussion about Right-To-Left (RTL) support for APEX applications, documented here for the first time. Throughout the book, there are many screenshots and snippets of code, taken from working APEX applications. The book is accompanied by demo APEX applications that you can download and install in your APEX environment, thoroughly analyze, and learn from as you read the book.

The Apex Book of World SF, edited by Lavie Tidhar, features award-winning science fiction and fantasy short stories from Asia, Eastern Europe and around the world. The world of speculative fiction is expansive; it covers more than one country, one continent, one culture. Collected here are sixteen stories penned by authors from Thailand, the Philippines, China, Israel, Pakistan, Serbia, Croatia, Malaysia, and other countries across the globe. Each one tells a tale breathtakingly vast and varied, whether caught in the ghosts of the past or entangled in a postmodern age. Among the spirits, technology, and deep recesses of the human mind, stories abound. Kites sail to the stars, technology transcends physics, and wheels cry out in the night. Memories come and go like fading echoes and a train carries its passengers through more than simple space and time. Dark and bright, beautiful and haunting, the stories herein represent speculative fiction from a sampling of the finest authors from around the world. Table of Contents: S.P. Somtow (Thailand) — "The Bird Catcher" Jetse de Vries (Netherlands) — "Transcendence Express" Guy Hasson (Israel) — "The Levantine Experiments" Han Song (China) — "The Wheel of Samsara" Kaaron Warren (Australia/Fiji) — "Ghost Jail" Yang Ping (China) — "Wizard World" Dean Francis Alfar (Philippines) — "L'Aquilone du Estrellas (The Kite of Stars)" Nir Yaniv (Israel) — "Cinderers" Jamil Nasir (Palestine) — "The Allah Stairs" Tunku Halim (Malaysia) — "Biggest Baddest Bomoh" Aliette de Bodard (France) — "The Lost Xuyan Bride" Kristin Mandigma (Philippines) — "Excerpt from a Letter by a Social-realist Aswang" Aleksandar Žiljak (Croatia) — "An Evening in the City Coffehouse, With Lydia on My Mind" Anil Menon (India) —

"Into the Night" Mélanie Fazi (France, translated by Christopher Priest) — "Elegy" Zoran Živković (Serbia, translated by Alice Copple-Tošić) — "Compartments" Cover art and design by Sarah Anne Langton. Reviews: "From S.P. Somtow's World Fantasy Award-winning "The Bird Catcher," a restrained horror tale of a young boy's friendship with Thailand's most infamous human "monster," to "Wizard World," Galaxy Award winner Yang Ping's story of high-tech gamers, this extraordinary anthology of 16 tales introduces English-speaking readers to some of the world's best writers of sf, horror, fantasy, and metafiction. Contributors include Jamil Nasir (Palestine), Aleksandar Ziljak (Croatia), Guy Hasson (Israel), Kaaron Warren (Australia/Fiji), and Jetse de Vries (Netherlands). VERDICT This literary window into the international world of imaginative fiction, the first in a new series, is sure to appeal to adventurous sf fans and readers of fiction in translation." —Library Journal "The great thing about Tidhar's collection is that it is full of such masterpieces. You do have to get used to having your mind warped as if by some powerful psychedelic. You'll definitely feel that way after Zoran Zivkovic and his Godot-like explorations. Or after Guy Hassan's thought experiment about the nature of mind and thought. But once you get used to the idea, you can settle in and enjoy the ride." —42SciFi-Fantasy.com, Randy Lazarus "These stories deserve to be heard!" —Frederik Pohl

Apex Legends: Combat

A future winter November 2018. Th e Eye of Heaven—a prototype Chinese satellite with next generation technology falls and is lost in the polar icecap. Th e race begins when two superpowers face off , one to learn secrets, the other to keep them. And they will send their greatest weapons wielded by their fi ercest warriors to reach the prize. Special Agent Greg Cole, a man of lethal skill, pathological appetites, and a Machiavellian intellect, who engineered the theft of the satellite. For him, retrieving its secrets would be a career-making coup and nothing; no one was going to stand in his way—friend, foe, or innocent bystander. SEAL Command Master Chief Carter Bohem—an aging warrior given one fi nal chance to prove he can still run with the wolves, never questioned his orders or his purpose . . . until this mission. Until his orders called for murder. Colonel Xiang Lai Peng of the People's Republic of China—Tasked by his government to retrieve the satellite at all costs, this elite unit commander will lead his men into an unimaginable nightmare where the price of success will be all too high. Captain Marcus Cartaneo USN—Commander of the USS Seawolf, a submarine bristling with a frightening array of weaponry and the combined technological might of a superpower. Yet, its weakness lies in the tragedy haunted crew on the verge of mutiny against a commanding offi cer who has lost their trust. But natural enemies are the least of their worries for as the Arctic winter storms close in; something else has awakened deep within the ice. An elder force that once roamed ancient seas with impunity,

now consigned to the realm of myth and legend has returned. Th e stories speak of its savagery; pure, insatiable and untainted by conscience or reason yet possessing immense power and fearsome intelligence. In this cold, unforgiving wasteland, man and machine will come face to face with a malevolent, unrelenting entity who will hunt them across ice, across oceans to the very doorstep of their homes. Only the survivor, only the triumphant will be the Apex Predator.

Being a member of the Elite Hunter Command imperils Joy in more ways than one. In their latest clash with Othersiders, the army of monsters nearly wiped them out. Apex City is safefor now. But within the city barriers, Joy must wage a different

kind of war. The corrupt and powerful PsiCorps is determined to usurp the Hunters as chief defenders of Apex City and Joy is now squarely in their crosshairs. Unused to playing political games, she has very few people she can truly trust—not even Josh, her first friend in Apex City, who broke up with her when it became too dangerous for a Psimon to be dating a Hunter. Then Josh comes to Joy for help. He fears that Abigail Drift, the head of PsiCorps, will soon use him in her twisted experiments designed to empower PsiCorps and render Hunters superfluous--a scheme that's already killed off dozens of Psimons. Joy manages to smuggle Josh to safety, but he cannot evade Drift forever As Joy faces ever more powerful Othersiders, she is helped by the most surprising ally imaginable---the same Folk Mage she once met in battle on the train to Apex City. But can Joy trust the most cunning and treacherous of all Othersiders? In the thrilling finale to Mercedes Lackey's #1 New York Times bestselling trilogy, Joy must risk everything to end a brutal warbefore she loses all she's ever loved.
