### **Arisen**

What determines whether complex life will arise on a planet, or even any life at all? Questions such as these are investigated in this groundbreaking book. In doing so, the authors synthesize information from astronomy, biology, and paleontology, and apply it to what we know about the rise of life on Earth and to what could possibly happen elsewhere in the universe. Everyone who has been thrilled by the recent discoveries of extrasolar planets and the indications of life on Mars and the Jovian moon Europa will be fascinated by Rare Earth, and its implications for those who look to the heavens for companionship.

### **Darwin's Doubt**

ARISEN Hope Never Dies. With over 175,000 copies sold, the world's most thrilling and best-loved military ZA series returns to the fall of man - and the war after the fall. ARISEN : NEMESIS is now an Amazon #1 bestseller in Post-Apocalyptic Science Fiction and #1 in Dystopian. Can be read as a standalone novel, an intro to the series, or at any point alongside the main series. Readers call the ARISEN series: "the wildest and best rollercoaster I've ever been on" "Pulse-pounding action at a relentless pace" "THE ABSOLUTE BEST FREAKING SERIES IN THIS GENRE" "the most unputdownable military zombie apocalypse arc ever" "for adrenaline junkies only" "A full-on express elevator to hell!!!" "A one-of-a-kind ZA opus. The indomitable warrior spirit shines through from start to finish" "the best I have ever read in apocalypse fiction of any kind" "Riveting. Full of horror and beauty" "These guys are the juggernauts of their genre" "the best of the best! Sweeping, epic, engaging, and thrilling" "keeps on delivering action, thrills & destruction at every turn" "Just one more page, I say, then it's 2am again" "Another literary heart attack" Africa Wasn't Ready. Between the fall of man and the arrival of the JFK, the Horn of Africa is a battleground. Salvation. Vengeance. Vanity. NEMESIS

### **The Crock of Gold**

This volume is one of the greatest works ever written on the messianic prophecies of the Old Testament. Full of profound scholarship, it confirms students in the deep

truths of their faith. An indispensable reference work both for scholarship and Bible students. This study is a masterful example of scholarly research based on the integrity and authenticity of the Holy Scriptures. Christ is presented as the centre of OT revelation, both in type and in extensive and scholarly work on the subject. It is a brilliant abridgment according to Walter C. Kaiser, Jr.

## **Signature in the Cell**

A bold exploration of modern psychedelic culture, its history, and future • Examines 3 modern psy-culture architects: chemist Alexander “Sasha” Shulgin, mycologist-philosopher Terence McKenna, and visionary artist Alex Grey • Investigates the use of microdosing in extreme sports, the psy-trance festival experience, and the relationship between the ego, entheogens, and toxicity • Presents a “History of Visionary Art,” from its roots in prehistory, to Ernst Fuchs and the Vienna School of the Fantastic, to contemporary psychedelic art After the dismantling of a major acid laboratory in 2001 dramatically reduced the world supply of LSD, the psychedelic revolution of the 1960s appeared to have finally run its course. But the opposite has actually proven to be true, and a psychedelic renaissance is rapidly emerging with the rise in popularity of transformational festivals like Burning Man and BOOM!, the return to positive media coverage of the potential benefits of entheogens, and the growing number of celebrities willing to admit the benefits of their own personal use. Along with the return of university research, the revival of psychedelic philosophy, and the increasing popularity of visionary art, these new developments signify the beginning of a worldwide psychedelic cultural revolution more integrated into the mainstream than the counterculture uprising of the 1960s. In his latest book, James Oroc defines the borders of 21st-century psychedelic culture through the influence of its three main architects-- chemist Alexander Shulgin, mycologist Terence McKenna, and visionary artist Alex Grey--before illustrating a number of facets of this “Second Psychedelic Revolution,” including the use of microdosing in extreme sports, the tech-savvy psychedelic community that has arisen around transformational festivals, and the relationship between the ego, entheogens, and toxicity. This volume also presents for the first time a “History of Visionary Art” that explains its importance to the emergence of visionary culture. Exploring the practical role of entheogens in our selfish and fast-paced modern world, the author explains how psychedelics are powerful tools to examine the ego and the shadow via the transpersonal experience. Asserting that a cultural adoption of the entheogenic perspective is the best chance that our society has to survive, he then proposes that our ongoing psychedelic revolution--now a century old since the first synthesis of a psychedelic in 1918--offers the potential for the birth of a new Visionary Age.

## **Personal Knowledge**

To save the lives of his children, and rejoin Alpha team and the fight to save humanity, Homer will have to journey across a thousand miles of undead North America with Sarah Cameron, battling heavily armed bands of marauders who shoot first and ask questions never, and ultimately face down the remains of the world's last surviving SEAL team - now led by a malevolent and piratical monster.

## **A Book for All Readers**

When Charles Darwin finished *The Origin of Species*, he thought that he had explained every clue, but one. Though his theory could explain many facts, Darwin knew that there was a significant event in the history of life that his theory did not explain. During this event, the “Cambrian explosion,” many animals suddenly appeared in the fossil record without apparent ancestors in earlier layers of rock. In *Darwin’s Doubt*, Stephen C. Meyer tells the story of the mystery surrounding this explosion of animal life—a mystery that has intensified, not only because the expected ancestors of these animals have not been found, but because scientists have learned more about what it takes to construct an animal. During the last half century, biologists have come to appreciate the central importance of biological information—stored in DNA and elsewhere in cells—to building animal forms. Expanding on the compelling case he presented in his last book, *Signature in the Cell*, Meyer argues that the origin of this information, as well as other mysterious features of the Cambrian event, are best explained by intelligent design, rather than purely undirected evolutionary processes.

## **All that is Solid Melts Into Air**

### **Arisen, Book Five - EXODUS**

#### **Pandora's Sisters**

This study, first published in 1958, offers Michael Polanyi's epistemological insights. Polanyi, originally a chemist and chemical physicist, is widely acclaimed for his epistemology which opposes the prevailing positivist approaches. His discussion of tacit knowledge has proved to be influential in many fields from theology to artificial intelligence. This text represents a contribution to 20th-century thought, and continues to make valuable insights to our understanding of how knowledge functions.

#### **D-Boys**

A study in the collision between Western medicine and the beliefs of a traditional culture focuses on a hospitalized child of Laotian immigrants whose belief that illness is a spiritual matter comes into conflict with doctors' methods.

#### **The Biological Mind**

Readers call the ARISEN series: "absolute masterpieces" "The best book I have ever read! Apart from the other eleven. We are privileged to read this series" "No one comes out of this book the same" "You have to remind yourself to breathe" "I keep repeating myself, but this is the best series of books of any genre I've ever read" "I DON'T KNOW WHAT TO SAY ANYMORE!!! I JUST DON'T - This is the best military fiction series ever written! Hands down" "If you haven't read these you need to reevaluate your life" "JUST WHEN YOU THINK THIS SERIES CAN'T GET ANY

BETTER, IT DOES" "continues to blow my mind" "Just sheer unstoppable awesomeness" "beyond intense" "painfully good" "spellbinding" "insanely well written" "A work of art - a beautiful, smart, tension-filled experience that will leave you both exhausted and grateful, filled with such astonishing richness and depth" "HOLY SH!! HOOLLY SH!!!!!!!!!!!!!! What a ride!!! explosive! thrilling! Words fail me" This Is It. ALPHA TEAM GOES ONCE MORE INTO THE BREACH On what will be their final missions ever in the Zulu Alpha - and the fight of their lives - Homer & Ali, and Predator & Juice, launch out into the terminal post-Apocalypse, as London is overrun by the very last rush of death covering the entire planet. Neither mission can fail, but can all four teammates survive? Or will some go down safeguarding the lives of those they love more than life itself? HANDON FIGHTS HIS WAY BACK FROM THE DEAD As reinforcements flood into CentCom, ahead of the onslaught of the undead world, one man lies in a coma at the heart of humanity's final fallback position. But will the ghosts of all those who've fallen before, and the love of those who yet remain, be enough to bring him back to life, and back to the fight, in time to lead the final battle? THE LAST SURVIVORS MAN THE ALAMO OF THE ALAMO As CentCom is overrun, and it all collapses and the screen goes black, the last heroes of humanity have one final chance to save the world. But as they cling to one another in their shrinking circle of life, will they be able pull it off in the final seconds, from the mast of the last sinking ship in a world submerged in a sea of death? Love. Death. The End Of The Line. ENDGAME

## **The Christian Hymn Book**

### **Arisen, Book One - Fortress Britain**

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

### **Encyclopedia of Insects**

Forming a twenty-first-century statement on Darwinian evolution, one shorn of "religious and political dogma," Edward O. Wilson offers a bold work of scientific thought and synthesis. Asserting that religious creeds and philosophical questions can be reduced to purely genetic and evolutionary components, and that the human body and mind have a physical base obedient to the laws of physics and chemistry, Genesis demonstrates that the only way for us to fully understand human behavior is to study the evolutionary histories of nonhuman species. Of these, Wilson demonstrates that at least seventeen—among them the African naked mole rat and the sponge-dwelling shrimp—have been found to have advanced societies based on altruism and cooperation. Whether writing about midges who "dance about like acrobats" or schools of anchovies who protectively huddle "to appear like a gigantic fish," or proposing that human society owes a debt of gratitude to "postmenopausal grandmothers" and "childless homosexuals," Genesis is a pithy yet path-breaking work of evolutionary theory, braiding twenty-first-century scientific theory with the lyrical biological and humanistic

observations for which Wilson is known.

## **The New Psychedelic Revolution**

Awarded Best Reference by the New York Public Library (2004), Outstanding Academic Title by CHOICE (2003), and AAP/PSP 2003 Best Single Volume Reference/Sciences by Association of American Publishers' Professional Scholarly Publishing Division, the first edition of Encyclopedia of Insects was acclaimed as the most comprehensive work devoted to insects. Covering all aspects of insect anatomy, physiology, evolution, behavior, reproduction, ecology, and disease, as well as issues of exploitation, conservation, and management, this book sets the standard in entomology. The second edition of this reference will continue the tradition by providing the most comprehensive, useful, and up-to-date resource for professionals. Expanded sections in forensic entomology, biotechnology and Drosophila, reflect the full update of over 300 topics. Articles contributed by over 260 high profile and internationally recognized entomologists provide definitive facts regarding all insects from ants, beetles, and butterflies to yellow jackets, zoraptera, and zygentoma. \* 66% NEW and revised content by over 200 international experts \* New chapters on Bedbugs, Ekbom Syndrome, Human History, Genomics, Vinegaroons \* Expanded sections on insect-human interactions, genomics, biotechnology, and ecology \* Each of the 273 articles updated to reflect the advances which have taken place in entomology research since the previous edition \* Features 1,000 full-color photographs, figures and tables \* A full glossary, 1,700 cross-references, 3,000 bibliographic entries, and online access save research time \* Updated with online access

## **Salt Sugar Fat**

ARISEN Hope Never Dies. With over 175,000 copies sold, the world's most thrilling and best-loved military zombie-apocalypse series returns, powering toward its epic and cataclysmic conclusion. Readers call the ARISEN series: "As well written and conceived as any book I have ever read" "Wall to wall adrenaline - edge of your seat unputdownable until the very last page" "utterly compelling" "Blows World War Z out of the water" "THE BOSS of the zombie apocalypse genre" "The pace and action are breathtaking" "the most amazing and intense battle scenes you've ever experienced" "Holy crap!! Nail-biting, pucker-factor 11, non-stop, badass, blow-by-blow action from the get-go to the very end" "Just WOW. Five Stars just doesn't cover this one. WOW" "rolls along like an out of control freight train" "well written, sophisticated, witty, compelling, exciting, well-researched, and supremely enjoyable" "I cannot believe how great this series is" "a knock down drag out kick ass read - the best ZA book series around, period" "six stars nothing less - I thought this series could not get any better, how wrong I was" "insane propulsive storytelling"

## **Hereditary Genius**

## **Arisen, Book Ten - The Flood**

This book is appropriate for any standalone Computers and Society or Computer Ethics course offered by a computer science, business, or philosophy department, as well as special modules in any advanced CS course. In an era where information technology changes constantly, a thoughtful response to these rapid changes requires a basic understanding of IT history, an awareness of current issues, and a familiarity with ethics. Ethics for the Information Age is unique in its balanced coverage of ethical theories used to analyze problems encountered by computer professionals in today's environment. By presenting provocative issues such as social networking, government surveillance, and intellectual property from all points of view, this market-leading text challenges students to think critically and draw their own conclusions, which ultimately prepares them to become responsible, ethical users of future technologies. Teaching and Learning Experience This program presents a better teaching and learning experience—for you and your students. It will help: Encourage Critical Thinking: A balanced, impartial approach to ethical issues avoids biased arguments, encouraging students to consider and analyze issues for themselves. Keep Your Course Current and Relevant: A thoughtful response to information technology requires an awareness of current information-technology-related issues. Support Learning: Resources are available to expand on the topics presented in the text.

## **The Works of Voltaire**

In Critique of Black Reason eminent critic Achille Mbembe offers a capacious genealogy of the category of Blackness—from the Atlantic slave trade to the present—to critically reevaluate history, racism, and the future of humanity. Mbembe teases out the intellectual consequences of the reality that Europe is no longer the world's center of gravity while mapping the relations among colonialism, slavery, and contemporary financial and extractive capital. Tracing the conjunction of Blackness with the biological fiction of race, he theorizes Black reason as the collection of discourses and practices that equated Blackness with the nonhuman in order to uphold forms of oppression. Mbembe powerfully argues that this equation of Blackness with the nonhuman will serve as the template for all new forms of exclusion. With Critique of Black Reason, Mbembe offers nothing less than a map of the world as it has been constituted through colonialism and racial thinking while providing the first glimpses of a more just future.

## **Arisen, Book Fourteen - Endgame**

Readers call the D-BOYS series: "a high-octane adrenaline-fueled action thrill-ride" "pure action" "one of the best action thrillers of this year (or any year for that matter)" "a riveting, fast paced classic!!" "The Best Techno Military Thriller I have read!" "Up there with Clancy and W.E.B. Griffin" "Awesome!" "Gripping" "Edge of your seat action" "What a wild ride!!! I simply could not put this book down" "has a real humanity and philosophical side as well" "spectacular in so many ways" "hi-tech and action in one well-rounded explosive thriller" "The world's most elite counter-terrorist operators A cyber-security guru suddenly getting shot at and blown up rather more than usual And nuclear-armed terrorists rolling with impunity through a lawless and brutal virtual world The year is now. Islamist terrorists hack into America's most sensitive defense networks, launch chemical weapons attacks on Western cities, and stage a raid on the vulnerable nuclear weapons storage

facilities in Pakistan. They are using a massively-multiplayer online video game (or "virtual world") as a platform for planning and rehearsing their attacks - forcing a squad of supremely elite Delta Force operators (reinforced by an info-security expert from the Department of Homeland Security) to go inside the game to fight them. But the fight only begins there. Get ready for breath-stealing action in every known battlespace - clockwork urban safehouse takedowns, combat helicopter assaults, brutal ambushes in the trackless mountains, waterborne SEAL team ops, precision close-quarters battle sequences, and CheyTac Intervention sniper rifle systems that can kill you from a mile and a half away. These weapons, tactics, tech, and 21st-century warriors will be unlike anything you've ever read.

## **Beautiful Losers**

A compelling new case for intelligent design based on revolutionary discoveries in science

## **Fine Books**

THE KENNEDY STARES INTO THE ABYSS The world's last floating nuclear supercarrier looks into the face of oblivion - as her thinned, exhausted, and beleaguered crew face the largest herd of dead ever recorded. Soon, the ship's five-acre flight deck will become the scene of a furious and desperate set-piece battle - like no combat any modern army has seen since Stalingrad. The ranks of the dead are infinite, and those of the living tiny, depleted, and running out of time and of hope. THE ABANDONED RUN AHEAD OF THE STORM Surrounded, cut off, and left for dead, Wesley's band of sailors and survivors race ahead of the city-devouring swarm, desperate for a way off the land. Air strikes and shore bombardment threaten to vaporize them at any instant, the inlet onto which they flee is surrounded on all sides and filling up fast, and the least hesitation will get them all killed, infected, devoured - or all three at once. THE OPERATORS JUMP INTO MOUTH OF HELL Having already dodged a hundred deaths by inches, the operators of Alpha team and MARSOC now fly into two converging storms of unspeakable violence, and must parachute in and reinforce the Alamo - the hopeless and doomed defense of the carrier. A thousand things must go right for them to have a prayer of survival. But it's the job of the operators to succeed even when a million things go wrong Ride the human spirit to its utmost limit - in the most terrifying and thrilling ARISEN book yet: ARISEN, BOOK FIVE - EXODUS.

## **Genesis: The Deep Origin of Societies**

Readers call the ARISEN series: "by far the best damn series of books ever written" "the master class of this genre" "Fast moving and exciting as hell with a ton of humanity to make you tear up" "Absolute thrill ride. Best in this genre by far" "Blows World War Z out of the water" "a knock down drag out kick ass read - the best ZA book series around, period" "terrifying, heroic, and tragic" "totally stunning in its originality" "thoroughly engrossing, taking you on a wild ride through utter devastation" "the best I have ever read in apocalypse fiction of any kind" "Riveting. Full of horror and beauty" "a jet-pack-strapped-to-your-back thrilling journey of the most epic proportions" "The only downside is that each book is not 10,000 pages."

ARISEN, Book Ten - The Flood is now an Amazon Top 100 overall bestseller (#62) as well as #1 in War and Military and #2 in Dystopian. ARISEN Hope Never Dies LONDON UNDER SIEGE With the tide of dead lapping at the walls of London, Major Jameson must decide whether to roll the dice and lead One Troop on a desperate mission into the fallen Russian Empire, to retrieve a designer pathogen so lethal it even kills the dead CHAOS ON SHORE Miles over his head and on the precipice of failure and extinction, Wesley must lead an overmatched and under-equipped shore team through biblical fire and flood, to salvage any hope of completing the vaccine in time to save humanity AFRICA DEVOURS On their final mission, a unified Alpha team fights for the ultimate fate of the world - and for their very survival, trapped at ground zero of the fall of Man, inundated by a deluge of never-before-imagined threats, and knowing that failure in their mission means extinction for the species Desperation. Heroism. Survival. THE FLOOD

## **English as a Global Language**

Readers call the ARISEN series: "thoroughly engrossing, taking you on a wild ride through utter devastation" "Wall to wall adrenaline - edge of your seat unputdownable until the very last page" "a once in a lifetime experience. Nothing else matches it" "the most amazing and intense battle scenes you've ever experienced" "rolls along like an out of control freight train" "They grab you on the first page and kick your ass through the entire series" "You feel like the explosions are going off beside your head" "Every time I think it cannot get any better, BAM!" "Blows World War Z out of the water" "The Game of Thrones of the Zombie Apocalypse" "roars out of the gate at 200mph and just keeps going" "dials the volume to the point of annihilating the sound system" "The most complex, character-driven series I've ever read regardless of genre" "quite simply, the most exciting and intense series of books I have ever read. Nothing comes close" "A superb ending to an absolutely mesmerizing and phenomenal series. This was an experience I'll never forget." "One platoon of Rangers from a legendary regiment. An isolated combat outpost in the Spin Ghar mountains. 150 Taliban survivors - armed with Tier-1 weapons And all the rampaging dead guys in central Asia. B Company, 3rd Bat, 75th Ranger Regiment - a unit that's fought in every U.S. engagement from D-Day to Black Hawk Down. They are the last American boots on the ground in the entire Syrian civil war on the last day before the Fall of human civilization. When they are tasked with stopping a unit of Spetsnaz operators from inserting under the chaos, an advanced Russian Navy frigate becomes the last place left on Earth for the Rangers to find refuge. Now, after six months held captive as scavenging mercenaries for Spetsnaz, to earn their freedom they will have to take on the most hazardous shore mission in the entire history of the ZA. Welcome to the Zulu Alpha Devastation. Devotion. Sacrifice. LAST STAND ARISEN Hope Never Dies.

## **Christology of the Old Testament**

Reproduction of the original: What I Saw in Kaffir-Land by Stephen Lakeman

## **Rare Earth**

## **National Security and Double Government**

One of the best-known experimental novels of the 1960s, *Beautiful Losers* is Leonard Cohen's most defiant and uninhibited work. As imagined by Cohen, hell is an apartment in Montreal, where a bereaved and lust-tormented narrator reconstructs his relations with the dead. In that hell two men and a woman twine impossibly and betray one another again and again. Memory blurs into blasphemous sexual fantasy--and redemption takes the form of an Iroquois saint and virgin who has been dead for 300 years but still has the power to save even the most degraded of her suitors. First published in 1966, *Beautiful Losers* demonstrates that its author is not only a superb songwriter but also a novelist of visionary power. Funny, harrowing, and fiercely moving, it is a classic erotic tragedy, incandescent in its prose and exhilarating for its risky union of sexuality and faith.

## **What I Saw in Kaffir-Land**

So says a woman with an axe pressed to her neck, and the solution to the entire mystery of human existence clutched between her palms. Two weeks earlier, Kate Quinlan was just your average British expat with a PhD, working in Silicon Valley as an artificial-intelligence designer for ultra-violent video games, spending the evenings hanging out with her pet chimp – and wondering how something as weird as human consciousness could have evolved through mere Darwinian selection. But when a disconcertingly attractive behavioural geneticist and a hotshot cryptologist stroll into her life, she begins looking for answers in the backwaters of the human genome – the 97% written off as 'junk DNA'. And when men in strange hats come looking for her hard drive, shooting first and never really asking any questions, she finds herself on the run – pursued by multiple squads of heavily-armed religious zealots, the Feds, and worse. All seek to obtain, or to suppress forever, the key to the revelatory stretch of DNA known as the Pandora Sequence. The outcome of their race to control this explosive secret will forever alter how humanity regards itself – that is, if anyone lives long enough to tell the tale.

## **Arisen**

A pioneering neuroscientist argues that we are more than our brains. To many, the brain is the seat of personal identity and autonomy. But the way we talk about the brain is often rooted more in mystical conceptions of the soul than in scientific fact. This blinds us to the physical realities of mental function. We ignore bodily influences on our psychology, from chemicals in the blood to bacteria in the gut, and overlook the ways that the environment affects our behavior, via factors varying from subconscious sights and sounds to the weather. As a result, we alternately overestimate our capacity for free will or equate brains to inorganic machines like computers. But a brain is neither a soul nor an electrical network: it is a bodily organ, and it cannot be separated from its surroundings. Our selves aren't just inside our heads--they're spread throughout our bodies and beyond. Only once we come to terms with this can we grasp the true nature of our humanity.

## **The Story of the Seer of Patmos**

### **Ethics for the Information Age, Global Edition**

#### **Arisen**

Readers call the ARISEN series: "Wall to wall adrenaline - edge of your seat unputdownable until the very last page" "staggeringly good - the most consistently excellent franchise in zombie literature" "the best post-apocalyptic military fiction there is" "one badass unstoppable bullet train ride" "moves like an avalanche" "edge of the seat, nail biting, page turning mayhem" "had me holding my breath more times than I could count" "THE BOSS of the zombie apocalypse genre" "The pace and action are breathtaking" "the most amazing and intense battle scenes you've ever experienced" "rolls along like an out of control freight train" "insane propulsive storytelling" "left me shaking at the last page" "They grab you on the first page and kick your ass through the entire series" Come back in time with the first ARISEN prequel and live through the beginning of the end of the world (Can be read as a stand-alone novel, an introduction to the series, or at any point while reading the main series.) Tucked away in a high-tech Tactical Operations Center, inside an isolated safehouse in the Horn of Africa, sits Agency analyst Zack Altringham. He is Kenyan-born, Princeton-educated, badly burnt-out - and condemned by his language and cultural skills to a lifetime of fighting America's shadow counter-terror wars. But when another mystery epidemic breaks out, terrifying quickly it reaches a tipping point and chaos descends - and Zack and his team (including two former Team Six SEALs) are trapped between the millstones of the sick and the dying on one side, and heavily armed militias on the other. Soon their "safe" house is in flames, and their only remaining option is to get in their up-armored SUV and try to escape the imploding gravity well of the city, to the safety of the American military base in Djibouti. But by then, will there be anywhere safe left on Earth to escape to?

#### **The Spirit Catches You and You Fall Down**

From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. Salt Sugar Fat is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). Salt Sugar Fat is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, "Enough already."

## **Arisen**

The experience of modernization -- the dizzying social changes that swept millions of people into the capitalist world -- and modernism in art, literature and architecture are brilliantly integrated in this account.

### **A Book of Prefaces**

A world fallen - under a plague of seven billion walking dead A tiny island nation - the last refuge of the living One team - of the world's most elite special operators The dead, these heroes, humanity's last hope, all have ARISEN Book One - Fortress Britain When the Zombie Apocalypse came, one country had shut down its borders in response to a major terrorist attack. Now Fortress Britain is the last bastion of the living - with 50 million beleaguered survivors facing down a world of 7 billion animated corpses. And when civilization fell, one international team of supremely elite special operators was being assembled for a nearly impossible mission, deployed out of the SAS barracks at Hereford. Supremely trained and armed, always the most skilled, resolved, and unstoppable amongst us, now the commandos of Alpha team are humanity's last best hope for survival. Searching through the detritus of fallen Europe, scavenging pharmaceutical labs for clues to a vaccine that might bring humanity back from the brink, now they are tasked with one last desperate operation. They must cross the Atlantic aboard the world's only remaining supercarrier, insert by air into the very middle of a dead continent, and then fight their way on foot through a city of 3 million ravaging dead guys. But these Zulus will not be like any zombies they have ever fought before

### **Critique of Black Reason**

### **Arisen, Book Seven - Death of Empires**

The Crock of Gold (1912), one of three original novels by James Stephens, is a work only a master of fiction and folklore could imagine. Taking up the major philosophical and psychological concerns of the early-twentieth century—over a decade before works by T.S. Eliot, James Joyce, and Virginia Woolf, among others, would cement literary Modernism's place in history—Stephens' novel is a groundbreaking and important work. The text centers on the Philosopher and his wife, the Thin Woman, who undergo a series of journeys and harrowing trials. Faced with danger both human and divine, the two characters are forced to weather the winds of change in order to change themselves. Divided into six books, The Crock of Gold—no doubt inspired by the Irish oral tradition of storytelling—follows the Philosopher's quest to save the most beautiful woman in the world; his encounter with the gods who have captured her; his return home and arrest for murder (he has been framed by leprechauns incensed at the loss of their crock of gold); and finally, the Thin Woman's quest to find the fabled Three Infinites. James Stephens' The Crock of Gold is perhaps unparalleled in its ability to weave together ancient narrative techniques, mythological sources, and such dominant themes of its day as gender equality and humanity's quest for self-understanding beyond the traditional boundaries of faith and religion. It is also a

darkly comic novel, full of ironic political commentary and suspiciously human conversations situated within the animal world. Most popular of Stephens' works, *The Crock of Gold* conceals in its humorous, irreverent outlook a deeply serious, ultimately reverent love for the human soul—unsurprising for an author whose life was marked with difficulty from the very beginning. With a beautifully designed cover and professionally typeset manuscript, this new edition of James Stephens' *The Crock of Gold* is a classic of Irish literature reimagined for modern readers.

## **The Gospel According to Mark**

David Crystal's classic *English as a Global Language* considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

## **ARISEN : Fickisms**

"Stick a dick in your ear, and fuck what you heard. Over." They were in a genuine emergency. And the men needed him panicking like they needed magic marker dicks drawn on their faces. "Hey! I'm still fuckin' this monkey. She's just here to take pictures." Ever since Master Gunnery Sergeant Fick came blitzing out of nowhere in *ARISEN, Book Four - Maximum Violence*, he has emerged as the closest thing to a consensus fan favorite character for the series. He is best known and most beloved for his ribald, profane, merciless, and generally hilarious insults, quips, and bon mots, which are so characteristic that readers have affectionately dubbed them: Fickisms. Now, in response to popular demand, and collected here for the first time, are all the very best tidbits of Fick's wit and wisdom, from all fourteen main series books. And thrown in as an extra special bonus, you can also enjoy the most priceless lines from both *Predator*, and *Aliyev the Kazakh*. All initial proceeds from the sale of this book will go to benefit the Marine Raider Foundation. Wit. Wisdom. And Magic Marker Dicks. **FICKISMS ARISEN Fick Never Dies.**

## **Mary and I**

Why has U.S. security policy scarcely changed from the Bush to the Obama administration? *National Security and Double Government* offers a disquieting answer. Michael J. Glennon challenges the myth that U.S. security policy is still forged by America's visible, "Madisonian institutions" - the President, Congress, and the courts. Their roles, he argues, have become largely illusory. Presidential control is now nominal, congressional oversight is dysfunctional, and judicial review is negligible. The book details the dramatic shift in power that has occurred from the Madisonian institutions to a concealed "Trumanite network" - the several hundred managers of the military, intelligence, diplomatic, and law enforcement agencies who are responsible for protecting the nation and who have come to

operate largely immune from constitutional and electoral restraints. Reform efforts face daunting obstacles. Remedies within this new system of "double government" require the hollowed-out Madisonian institutions to exercise the very power that they lack. Meanwhile, reform initiatives from without confront the same pervasive political ignorance within the polity that has given rise to this duality. The book sounds a powerful warning about the need to resolve this dilemma-and the mortal threat posed to accountability, democracy, and personal freedom if double government persists. This paperback version features an Afterword that addresses the emerging danger posed by populist authoritarianism rejecting the notion that the security bureaucracy can or should be relied upon to block it.
