Robert Michael Pyle trekked into the Dark Divide, where he discovered a giant fossil footprint; searched out Indians who told him of an outcast tribe that had not fully evolved into humans; and attended the convocation in British Columbia called Sasquatch Daze, where he realized that "these guys don't want to find Bigfoot-they want to be Bigfoot." Ultimately Pyle discovers a few things about Bigfoot - and a lot about the human need for something to believe in and the need for wilderness in our lives.

New York Times Bestseller *Living in New York City* for five years as a transplant from Ohio, illustrator and T-shirt designer Nathan Pyle was fascinated by the unique habits and unspoken customs New Yorkers follow to make life bearable in a city with 8 million people (and seemingly twice the number of tourists). In *NYC Basic Tips and Etiquette*, Pyle reveals the secrets and unwritten rules for living in and visiting New York including the answers to such burning questions as, how do I hail a cab? What is a bodega? Which way is Uptown? Why are there so many doors in the sidewalk? How do I walk on an escalator? Do we need be touching right now? Where should I inhale or exhale while passing sidewalk garbage? How long should I honk my horn? If New York were a game show, how would I win? What happens when I stand in the bike lane? Who should get the empty subway seats? How do I stay safe during a trash tornado? Each tip is a little story illustrated in simple black and white drawings.

Where were you tonight? How did that meeting go? Are you seeing someone else? What qualifies you for this job? These are just a few of the usual questions we might answer in a day. A typical answer to the last question would include a series of “whats”: what experience you have, what you studied in school, and what you do well. In *Control the Conversation*, the authors guide you in crafting a response to a question, not just an answer. A response should be multi-dimensional and

The Battle of Pyle's Defeat was the bloodiest ten minutes of all Alamance County history. On February 24, 1781, a few hundred yards of Alamance County (then Orange County) were stained red with the blood of a few hundred local citizens. Nearly 100 Tory soldiers were killed, with another 100 taken prisoner, wounded, or unaccounted. For generations historians have pondered what really happened at this killing field without any real depth of rationality. Some have just simply replaced fact with convenient speculation of where the hacking actually took place. Our answer to these contemporaries, and their agendas, is the comprehensive presentation in this work, of the letters, memoirs, and field notes of the men who participated. Besides the insight gained from these writings, we provide the reader the proper locations and mileage by plotting the actual routes. It was not our wish when we started this project to revise history, but to correct the myths that have been perpetuated since 1849.
