Department 19 still stands against the darkness. But for how much longer? Book 4

in the explosive series from bestselling author, Will Hill.

### **Green Mansions: A Romance of the Tropical Forest**

A portrait in words and photographs of the interwar Navy, this book examines the twenty-year period that saw the U.S. fleet shrink under the pressure of arms limitation treaties and government economy and then grow again to a world-class force. The authors trace the Navy's evolution from a fleet centered around slow battleships to one that deployed most of the warship types that proved so essential in World War II, including fast aircraft carriers, heavy and light cruisers, sleek destroyers, powerful battleships, and deadly submarines. Both the older battleships and these newer ships are captured in stunning period photographs that have never before been published. An authoritative yet lively text explains how and why the newer ships and aircraft came to be. Thomas Hone and Trent Hone describe how a Navy desperately short funds and men nevertheless pioneered carrier aviation, shipboard electronics, code-breaking, and (with the Marines) amphibious warfare - elements that made America's later victory in the Pacific possible. Based on years of study of official Navy department records, their book presents a comprehensive view of the foundations of a navy that would become the world's largest and most formidable. At the same time, the heart of the book draws on memoirs, novels, and oral histories to reveal the work and the skills of sailors and officers that contributed to successes in World War II. From

their service on such battleships as West Virginia to their efforts ashore to develop and procure the most effective aircraft, electronics, and ships, from their adventures on Yangtze River gunboats to carrier landings on the converted battle cruisers Saratoga and Lexington, the men are profiled along with their ships. This combination of popular history with archival history will appeal to a general audience of naval enthusiasts.

### **Satan's Gambit**

From an Edgar Award-winning author: A suspenseful tale of murder and espionage in wartime England. David Garth has been off in America, giving speeches on behalf of Britain's Ministry of Propaganda. Upon his return, he's surprised to receive an unsigned invitation to an address in Wimbledon . . . and even more surprised when he's approached by two agents of Department Z. Mark and Mike Errol, agents of British intelligence's secret detective squad, request Garth's assistance on a mission that has already taken the life of one of their friends. Desperate for vengeance, the Errols are out to catch the cold-blooded killer known as "Frankenstein." After finding his flat burgled and a body lying on the floor, Garth is willing to help the agents in hopes of clearing his own name. But this manhunt unearths a plot with international ramifications: to halt America's assistance in World War II.

## **Project Battle**

The crowd went wild, cheering, clapping Satan's Gambit--more fact than fiction--explains what caused this transformation in America. Dr. Gene Conti's story takes place on an imaginary college campus in the near future where Dr. Lucci leads his charges. The students experience a fresh realization of what has occurred in the United States and why. From radical jihadist terrorism to total governmental control, Conti's compelling and thought-provoking novel exposes the new dystopian Orwellian future that is being thrust upon all of us. ## **The Department 19 Files: the Secret History of a Teenage Vampire (Department 19)**

## **The ONE Thing**

Dracula is on the verge of coming into his full power. Department 19 is on the back foot. Ladies and gentlemen: welcome to war. The stakes? Mankind's very survival. As the clock ticks remorselessly towards Zero Hour and the return of Dracula, the devastated remnants of Department 19 try to hold back the rising darkness. Jamie Carpenter is training new recruits, trying to prepare them for a fight that appears increasingly futile. Kate Randall is pouring her grief into trying to plug the Department's final leaks, as Matt Browning races against time to find a cure for vampirism. And on the other side of the world, Larissa Kinley has found a place she feels at home, yet where she makes a startling discovery. Uneasy truces are struck, new dangers emerge on all sides, and relationships are pushed to breaking point. And in the midst of it all, Department 19 faces a new and potentially deadly threat, born out of one of the darkest moments of its own long and bloody history. Zero Hour is coming. And the Battle Lines have been drawn.

### **Darkest Night (Department 19, Book 5)**

Jamie Carpenter's father is dead, his mother is missing, and he was just rescued by an enormous creature named Frankenstein. Now Jamie is pulled into a secret organization responsible for policing the supernatural, founded more than a century ago by Abraham Van Helsing. . . . Department Nineteen takes us through history, across Europe, and beyond - from the cobbled streets of Victorian London to prohibition-era New York, from the icy wastes of Arctic Russia to the treacherous

mountains of Transylvania. Part modern thriller, part classic horror, it's packed with mystery, mayhem, and a level of suspense that makes a Darren Shan novel look like a romantic comedy.

### **Archaeology Behind the Battle Lines**

#### **Rest Stop**

The Crystals series - as you may already know - will hopefully be completed in a decalogy which will start from the creation of the universe, will transcend all human civilization, will come to the present and continue into the future, summarily showing the development of human civilization. In the first book, we saw the discovery of an object with strange properties, the study and finally the 'cosmic' journey in which we observed the Big Bang, the creation of galaxies and star systems. The 2nd book refers to the creation of the solar system, the creation and structure of the earth, the appearance of life on earth and its developmental

course. This whole period, which in fact was initiated about five billion years ago, is elaborated with mythological fights and dwells, fitting in reality to mythological forms as natural forces, and that is why they are named 'Supernatural'. Thus, we observe the drama of archetypal life on planet earth in the form of Supernatural Powers. The Titans with their leader, Cronos dominate the scene in the 2nd book. The structural upheavals on planet earth are presented in the form of epic battles and struggles, as well as the calamities and extinction of life but also the emergence of new life forms on earth. The 2nd Clash of the Titans brings us to about 50 million years ago with the final triumph of the Supernatural Powers in their fight against the Hypercosmic Powers followed by their slippage into the arrogance of power which will cause the 3rd Clash of the Titans. Continuing on this magic journey and keeping the White Crystal as the 'vehicle' of our transport, the reader of this and the other books in the series will observe the development of the human civilization from the creation of the universe to this day, through the use of myth, allegory and real events and scientific knowledge. The following 10 books will follow with the following proposed titles: 1st Battle of the Titans: Clash between Vacuum and the Hypercosmic (Creation) 2nd Battle of the Titans: Clash between Hypercosmic and the Supernatural (Celestial Battle) 3rd Battle of the Titans: Clash between Natural and the Supernatural (Zeus-Cronos) 4th Battle of the Titans: Clash between Natural and the Paranormal (Battle of Giants) 5th Battle of the Titans: Clash between Natural and the Metaphysical (Prometheus) 6th Battle of the Titans: Clash between the Good and the Evil (White-Dark Crystal) 7th Battle of

the Titans: Clash between the Sociopolitical and the Counter-sociopolitical (Early Civilizations) 8th Battle of the Titans: Clash between Humanism and Technocracy (Later Periods) 9th Battle of the Titans: Clash between Civilization and Barbarism (Current Times) 10th Battle of the Titans: Clash between Earthlings and Extraterrestrials (Intergalactic Travel)

### **Battle Lines**

During World War II a community called Manzanar was hastily created in the high mountain desert country of California, east of the Sierras. Its purpose was to house thousands of Japanese American internees. One of the first families to arrive was the Wakatsukis, who were ordered to leave their fishing business in Long Beach and take with them only the belongings they could carry. For Jeanne Wakatsuki, a

seven-year-old child, Manzanar became a way of life in which she struggled and adapted, observed and grew. For her father it was essentially the end of his life. At age thirty-seven, Jeanne Wakatsuki Houston recalls life at Manzanar through the eyes of the child she was. She tells of her fear, confusion, and bewilderment as well as the dignity and great resourcefulness of people in oppressive and demeaning circumstances. Written with her husband, Jeanne delivers a powerful first-person account that reveals her search for the meaning of Manzanar. Farewell to Manzanar has become a staple of curriculum in schools and on campuses across the country. Last year the San Francisco Chronicle named it one of the twentieth century's 100 best nonfiction books from west of the Rockies. First published in 1973, this new edition of the classic memoir of a devastating Japanese American experience includes an inspiring afterword by the authors.

### **To Lose a Battle**

This volume focuses on a formative period in the history and archaeology of northern Greece. The decade following 1912, when Thessaloniki became part of

Greece, was a period marked by an extraordinary internationalism as a result of the population movements caused by the shifting of national borders and the troop movements which accompanied the First World War. The papers collected here look primarily at the impact of the discoveries of the Army of the Orient on the archaeological study of the region of Macedonia. Resulting collections of antiquities are now held in Thessaloniki, London, Paris, Edinburgh and Oxford. Various specialists examine each of these collections, bringing the archaeological legacy of the Macedonian Campaign together in one volume for the first time. A key theme of the volume is the emerging dialogue between the archaeological remains of Macedonia and the politics of Hellenism. A number of authors consider how archaeological interpretation was shaped by the incorporation of Macedonia into Greece. Other authors describe how the politics of the Campaign, in which Greece was initially a neutral partner, had implications both for the administration of archaeological finds and their subsequent dispersal. A particular focus is the historical personalities who were involved and the sites they discovered. The role of the Greek Archaeological Service, particularly in the protection of antiquities, as well as promoting excavation in the aftermath of the 1917 Great Fire of Thessaloniki, is also considered.

### **Zero Hour (Department 19, Book 4)**

Synopsis Rest Stop is a 250 page realistic novel based on real characters I knew while I served my time in prison. It is about the convicts I lived with on a daily basis. The book starts off in prison and gives insight of the living conditions. It tells of the games that are needed in order to survive. It explains the brotherhood that forms between cell mates and the cliques you become part of, not by choice but out of necessity. Following a fight and a stabbing, the four inmates who are held responsible are being transported from a minimum security location to the main prison when they escape. The escape convicts come up with a plan to take over a rest-area on Interstate 15. It was just a few miles from Las Vegas. They figured that the people going to Vegas would have lots of cash on them. Their plan was to rob them and use the money to get out of the country. It is a long way from Oregon State Penitentiary to Las Vegas. A big part of the story takes place on the trip to get to the rest stop, with robbery, murder and rape along the way. The driving force behind the story is the dialog and vivid thought process, not only from the convicts but from the victims. Each chapter gives insight to the mind set and words of the escaped convicts, along with the Warden, the State Police and the Federal agent who is always just one step behind the inmates. The novel begins with a

thrilling, fast paced opening. It holds the excited pace up to an unforgettably tense conclusion. Each chapter ends in a poem I wrote while in prison and coincides with the story. The epilogue leaves room for a sequel for a second book. Ron Lemco PO Box 63 Sumner, WA. 98390 253-2284544 rlemco@aol.com

### **The Next Battle**

In 1940, the German army fought and won an extraordinary battle with France in six weeks of lightning warfare. With the subtlety and compulsion of a novel, Horne's narrative shifts from minor battlefield incidents to high military and political decisions, stepping far beyond the confines of military history to form a major contribution to our understanding of the crises of the Franco-German rivalry. To Lose a Battle is the third part of the trilogy beginning with The Fall of Paris and continuing with The Price of Glory (already available in Penguin).

Battle Cry is the riveting Marine epic by the bestselling author of such classics as Trinity and Exodus. Originally published in 1953, Leon Uris's Battle Cry is the raw and exciting story of men at war from a legendary American author. This is the story of enlisted men – Marines – at the beginning of World War II. They are a rough-and-ready tangle of guys from America's cities and farms and reservations. Led by a tough veteran sergeant, these soldiers band together to emerge as part of one of the most elite fighting forces in the world. With staggering realism and detail, we follow them into intense battles – Guadalcanal and Tarawa – and through exceptional moments of camaraderie and bravery. Battle Cry does not extol the glories of war, but proves itself to be one of the greatest war stories of all time.

## **After the Fire**

## **Overseas Environmental Baseline Guidance Document**

The Battle of Life: A Love Story is a novella by Charles Dickens, first published in

1846. It is the fourth of his five "Christmas Books", coming after *The Cricket on the Hearth* and followed by *The Haunted Man and the Ghost's Bargain*. The setting is an English village that stands on the site of an historic battle. Some characters refer to the battle as a metaphor for the struggles of life, hence the title. *Battle* is the only one of the five Christmas Books that has no supernatural or explicitly religious elements. (One scene takes place at Christmas time, but it is not the final scene.) The story bears some resemblance to *The Cricket on the Hearth* in two respects: it has a non-urban setting, and it is resolved with a romantic twist. It is even less of a social novel than is *Cricket*. As is typical with Dickens, the ending is a happy one. It is one of Dickens's lesser-known works and has never attained any high level of popularity - a trait it shares among the Christmas Books with *The Haunted Man*.

### **Special Operations: Wolf Squadron**

In this book I have written about some aspects of the war which, I believe, the world must know and remember, not only as a memorial of men's courage in tragic years, but as a warning of what will happen again--surely--if a heritage of evil and of folly is not cut out of the hearts of peoples. Here it is the reality of modern warfare not only as it appears to British soldiers, of whom I can tell, but to soldiers on all the fronts where conditions were the same.

## **Battle Line**

This is the amazing and inspiring true story of a Polish Jewish Partisan leader and Soviet captive during World War II. Joseph L. Zygielbaum fought the Nazis under the Polish and Soviet flags and alongside the American Office of Strategic Services. These memoirs reveal his heroism in the face of personal tragedy and place him squarely in the heart of Holocaust history. Zygielbaum, the son of the famed Polish martyr Szmul Zygielbaum, begins with a description of his childhood and then takes the reader through an odyssey spanning horrendous events from 1939 to 1945 and the battlefields of Eastern and Northern Europe. A reserve officer in the Polish army at 19 years old, Zygielbaum witnesses the German and Russian invasion of his homeland. He swiftly becomes a Partisan leader. After his wife and toddler son are murdered by the Nazis, he undertakes ever more risky missions and is captured by the Russians, narrowly escaping execution as a spy. He relates his many experiences in the USSR, culminating in his being impressed into the Red Army to fight the Germans. As a special forces fighter, he is deployed into many battle zones. Close to the end of the war, he escapes and returns to Poland, where he meets and marries his new love and emigrates with her to the United States. Zygielbaum's book was published after his death in 1995 by his sons, long after he had completed a noted career in the early American space program. The story relates many everyday aspects of life as a Partisan and as a Soviet soldier, amid the ever-present terror of the war and the tragedy all around.
