Many Mansions

This collection examines the historically and geographically specific form of

economic organization of the overseas Chinese in Southeast Asia and how it has adapted to the different historical and socio-political contexts of Southeast Asian countries. Moving beyond cultural explanations and traits to focus on the process of evolution and dynamism of situated practices, it argues that Chinese Capitalism is rapidly becoming a form of 'hybrid capitalism' and embodies the interdependent of culturally and institutionally specific dynamics at local and regional level, evolving and adapting to different institutional contexts and politico-economic conditions in the host Asian economies. This text also explores the social organization and political economy of the so-called overseas Chinese by examining the changing dynamism of Chinese capitalism in relation to forces of globalization. Focusing on key actors, primarily Chinese entrepreneurs in their business practices, and situated practices as well as cultural, political, social and economic factors under globalizing conditions, it provides providing a broad understanding without fixating or homogenizing Chinese capitalism, contributing to the understanding of the contexts that give rise to the emergence and transformation of Chinese Capitalism in Southeast Asia.

Doi Moi

Vietnam and the Rule of Law

Following the disastrous economic downturn of some years ago, the economies of East Asia have struggled to regain stability and equilibrium. As the sequel to *East Asia: The Road to Recovery*, this book offers both an examination of the state of the East Asian economy and analysis of opportunities in the future. With the crisis stage passed, where does East Asia truly stand, and can one be optimistic about its future prospects? *East Asia: Recovery and Beyond* offers answers to anyone concerned with the East Asian economies.

Hell in An Loc

Poems of the Late T'ang

In this historical reassessment of southern Vietnam and its distinct culture, Li Tana illuminates the resourceful qualities of the Dong Trong pioneers, develops a meticulous analysis of the Nguyen trade and taxation systems, and, in the process, redefines the chief cause of the Tay Son rebellion. Li Tana's study focuses on the socio-economics of Nguyen Cochinchina, such as: the role of foreign merchants, the region's trading economy, demographic influences, religious and cultural values, how Nguyen rule affected Vietnamese settlers, relationships with uplanders, and processes of localization and identity formation.

Awaken The Giant Within

A spectacular New York Times and Washington Post bestseller, *My FBI* is the definitive account of American law enforcement during the Clinton years and in the run-up to September 11. Louis Freeh is clear eyed, frank, the ultimate realist, and he offers resolute vision for the struggles ahead. Bill Clinton called Freeh a "law enforcement legend" when he nominated him as the Federal Bureau of Investigation Director. The good feelings would not last. Going toe-to-toe with his boss during the scandal-plagued '90s, Freeh fought hard to defend his agency from political interference and to protect America from the growing threat of international terrorism. When Clinton later called that appointment the worst one he had made as president, Freeh considered it "a badge of honor." This is Freeh's entire story, from his Catholic upbringing in New Jersey to law school, the FBI training academy, his career as a US District attorney and as a federal judge, and finally his eight years as the nation's top cop. This is the definitive account of American law enforcement in the run-up to September 11. Freeh is clear-eyed, frank, the ultimate realist, and he offers resolute vision for the struggles ahead. "[Freeh] comes off as the real deal, an honorable, hard-working man, a devoted public servant and father, a gifted lawyer and onetime federal prosecutor."---The New York Times

"Why did Vietnam invade and occupy Cambodia in 1978? And why did it eventually change its approach, shifting from military confrontation to economic reform and reconciliation with China in the late 1980s? Drawing on rarely accessed archival documents, Kosal Path explores this major change in Vietnamese leaders' objectives and strategies. Unlike most studies, which attribute the invasion to political elites' paranoia and imperial ambition over Indochina, Path argues that Hanoi's move was rational and strategic, intended to resolve its economic crisis and counter imminent threats posed by the Sino-Cambodian alliance by cementing its own alliance with the Soviet Union. As these costly efforts failed in the 1980s, Vietnamese thinking shifted from the doctrinal Marxist-Leninist ideology that had prevailed during the last decade of the Cold War to the approach that would come to characterize the post-Cold War era. Path traces the moving target of Vietnam's changing priorities: first from military victory to Socialist economic reconstruction in 1975-76; then to military confrontation in 1978-1984; and finally, in 1985-86, to the broad reforms dubbed Doi Moi ("renovation"), meant to create a peaceful regional environment for Vietnam's integration into the global economy. Path's sources include internally circulated reports from provincial authorities, ministries, and ad hoc Party committees--materials that have been largely masked by the Vietnamese nationalist history of Vietnam's selfless assistance to Cambodia's revolution and glossed over by the Cambodian nationalist narrative of Vietnam's

longstanding imperial ambition in Cambodia"--

Chinese Capitalism in Southeast Asia

While most historians of the Vietnam War focus on the origins of U.S. involvement

and the Americanization of the conflict, Lien-Hang T. Nguyen examines the international context in which North Vietnamese leaders pursued the war and American intervention ended. This riveting narrative takes the reader from the marshy swamps of the Mekong Delta to the bomb-saturated Red River Delta, from the corridors of power in Hanoi and Saigon to the Nixon White House, and from the peace negotiations in Paris to high-level meetings in Beijing and Moscow, all to reveal that peace never had a chance in Vietnam. Hanoi's War renders transparent the internal workings of America's most elusive enemy during the Cold War and shows that the war fought during the peace negotiations was bloodier and much more wide ranging than it had been previously. Using never-before-seen archival materials from the Vietnam Ministry of Foreign Affairs, as well as materials from other archives around the world, Nguyen explores the politics of war-making and peace-making not only from the North Vietnamese perspective but also from that of South Vietnam, the Soviet Union, China, and the United States, presenting a uniquely international portrait.

Working with Anger

Classical Chinese poetry reached its pinnacle during the T'ang Dynasty (618-907 A.D.), and the poets of the late T'ang-a period of growing political turmoil and violence-are especially notable for combining striking formal innovation with raw emotional intensity. A. C. Graham's slim but indispensable anthology of late T'ang

poetry begins with Tu Fu, commonly recognized as the greatest Chinese poet of all, whose final poems and sequences lament the pains of exile in images of crystalline strangeness. It continues with the work of six other masters, including the “cold poet” Meng Chiao, who wrote of retreat from civilization to the remoteness of the high mountains; the troubled and haunting Li Ho, who, as Graham writes, cultivated a “wholly personal imagery of ghosts, blood, dying animals, weeping statues, whirlwinds, the will-o'-the-wisp”; and the shimmeringly strange poems of illicit love and Taoist initiation of the enigmatic Li Shang-yin. Offering the largest selection of these poets’ work available in English in a translation that is a classic in its own right, *Poems of the Late T’ang* also includes Graham’s searching essay “The Translation of Chinese Poetry” as well as helpful notes on each of the poets and on many of the individual poems.

China is now the world's fourth largest economy and growing very fast. India's economic salience is also on the rise. Together these two countries will profoundly influence the pace and nature of global economic change. Drawing upon the latest

research, this volume analyzes the influences on the rapid future development of these two countries and examines how their growth is likely to impinge upon other countries. It considers international trade, industrialization, foreign investment and capital flows, and the implications of their broadening environmental footprints. It also discusses how the two countries have tackled poverty, inequality and governance issues and whether progress in these areas will be a key to rapid and stable growth.

Outwitting the Devil

A major new novel from the most important Vietnamese author writing today Duong Thu Huong has won acclaim for her exceptional lyricism and psychological acumen, as well as for her unflinching portraits of modern Vietnam and its culture and people. In this monumental new novel she offers an intimate, imagined account of the final months in the life of President Ho Chi Minh at an isolated mountaintop compound where he is imprisoned both physically and emotionally, weaving his story in with those of his wife's brother-in-law, an elder in a small village town, and a close friend and political ally, to explore how we reconcile the struggles of the human heart with the external world. These narratives portray the thirst for absolute power, both political and otherwise, and the tragic consequences on family, community, and nationhood that can occur when jealousy is coupled with greed or mixed with a lust for power. The Zenith illuminates and captures the

moral conscience of Vietnamese leaders in the 1950s and 1960s as no other book ever has, as well as bringing out the souls of ordinary Vietnamese living through those tumultuous times.

Resolving Land Disputes in East Asia

Vietnamese Tradition on Trial, 1920-1945

This book is the first systematic investigation into the problem of timber trafficking in Vietnam, providing a detailed understanding of the typology of, victimization from, and key factors driving this crime. The book first reveals a multifaceted pattern of timber trafficking in Vietnam, comprising five different components: harvesting, transporting, trading, supporting, and processing. It then assesses the crime's victimization from timber trafficking. Thanks to the employment of a broad conceptual framework of human security, Cao reveals that timber trafficking has substantial harmful impacts on all seven elements of human security: economic, food, health, environmental, personal, community, and political; whilst being closely interconnected, they vary between different groups of victims. Cao concludes by offering five solutions to better control of timber trafficking in the context of Vietnam, which crucially involve refining the current policy framework of

forest governance and improving the efficiency of law enforcement. A wide-ranging and timely study, this book will hold particular appeal for scholars of green criminology and environmental harm.

Last Night I Dreamed of Peace

Vietnam from Cease-Fire to Capitulation

This first historical dictionary in English of the Indochina War provides the most comprehensive account to date of one of the most important conflicts of the twentieth century. Over 1,600 entries offer in-depth, expert coverage of the war in all its dimensions. Christopher Goscha adopts a path-breaking dual international and interdisciplinary approach. Thus readers will not only find information on politics and military campaigns; they will also discover the remarkable impact this war had on intellectual, social, cultural, economic, and artistic domains in France, Indochina, and elsewhere. Indeed, rather than limiting the dictionary to the French and their Vietnamese adversaries, Goscha explores the internationalization of this conflict from its beginning in September 1945 at Ba Dinh square in Hanoi to its end around the Cold War conference table in Geneva in July 1954, also making it clear that a myriad of non-communist Vietnamese, Lao, and Cambodian nationalists were deeply involved in this war and its outcome. In addition to its 1,600 entries, the dictionary contains a succinct historical introduction, selected bibliography, maps, illustrations, and tables. A massive work of outstanding scholarly quality and lasting value, this is a reference tool that will be invaluable for researchers,

students, and anyone else hoping to understand the complexity of this tragic conflict.

Early Photography in Vietnam is a fascinating and outstanding pictorial record of photography in Vietnam during the century of French rule. In more than 500 photographs, many published here for the first time, the volume records Vietnam's capture and occupation by the French, the wide-ranging ethnicities and cultures of Vietnam, the country's fierce resistance to foreign rule, leading to the reassertion of its own identity and subsequent independence. This benchmark volume also includes a chronology of photography (1845-1954), an index of more than 240 photographers and studios in the same period, appendixes focusing on postcards, royal photographic portraits, Cartes de Visite and Cabinet Cards, as well as a select bibliography and list of illustrations.

The Vietnam War and American Culture

The immense process of economic and social transformation currently underway in China and Vietnam is well known and extensively documented. However, less attention has been devoted to the process of Chinese and Vietnamese legal change which is nonetheless critical for the future politics, society and economy of these two countries. In a unique comparative approach that brings together indigenous and international experts, *Asian Socialism and Legal Change* analyzes recent developments in the legal sphere in China and Vietnam. This book presents the diversity and dynamism of this process in China and Vietnam-the impact of socialism, constitutionalism and Confucianism on legal development; responses to change among enterprises and educational and legal institutions; conflicts between change led centrally and locally; and international influences on domestic legal institutions. Core socialist ideas continue to shape society, but have been adapted to local contexts and needs, in some areas more radically than in others. This book is the first systematic analysis of legal change in transitional economies.

Historical Dictionary of the Indochina War (1945-1954)

"Three days before Easter last spring, the North Vietnamese struck South Vietnam with a fury unknown to the Vietnam war since the Tet offensive four years earlier. They poured south across the DMZ, smashed into the central highland from Laos, crossed the border from Cambodia and, with an army of 36,000 men and 100 Russian-made tanks, raced toward Saigon, boasting that they'd be in the city by

May 19, Ho Chi Minh's birthday. From one end of the country to the other, bases and villages fell before the savagery of their onslaught. By April 5, all that blocked them from Saigon was a ragtag band of 6,800 South Vietnamese regulars and militiamen and a handful of American advisors holed up in An Loc, a once-prosperous rubber-plantation town of 15,000 astride Highway 13, which led to the capital, 60 miles to the south. In Thi's opinion, reporting the victory of An Loc would contradict the U.S. media's basic premise that the war could not be won because ARVN was a corrupt and ineffective force. Subsequent published studies of the conflict provide a wealth of details about the use of U.S. airpower and the role of the U.S. advisors, but they fail to provide equal coverage to the activities and performance of ARVN units participating in the siege. Thi believes that it is time to set the record straight. Without denying the tremendous contribution of the U.S. advisors and pilots to the success of An Loc, this book is written primarily to tell the South Vietnamese side of the story and, more importantly, to render justice to the South Vietnamese soldier who withstood ninety-four days of horror and prevailed"--Publisher's website.

This is a study of Vietnam's socialist transition and state transformation, generally

known as *đổi mới*. It examines the drivers of socialist-regime change, the nature of the *đổi mới* state, and the basis of regime legitimacy in Vietnam. The Element argues that despite its 'one-party rule' label, the party-state apparatus that channels said rule has become fragmented. State-building during the *đổi mới* period involved negotiations and bargaining that redefine authority and power relations within the state apparatus. The party-state's accountability projects are designed to target the specific self-aggrandizing tendencies of the state apparatus, its policies, and abuse of state power. At the leadership level, patterns of resource allocation underlying the *đổi mới* growth model as well as the VCP's cadre rotation approach have accommodated central and sub-national state elites across sectors and levels, helping shore up the legitimacy of the *đổi mới* state in the eyes of the state elite. The combination of sustained economic growth, expansion of political space, accountability, and tolerance of small-scale public protests have been factors in strengthening regime-society legitimization.

Vietnam's Strategic Thinking During the Third Indochina War

“Inspiring and humble in its approach,” this book applies Buddhist philosophy to overcoming and preventing anger in our lives (Sharon Salzberg, author of Lovingkindness) Anger plagues all of us on a personal, national, and international level. Yet we see people, such as the Dalai Lama, who have faced circumstances far worse than many of us have faced—including exile, persecution, and the loss of many loved ones—but who do not burn with rage or seek revenge. How do they do it? Working with Anger presents a variety of Buddhist methods for subduing and preventing anger not by changing what is happening, but by framing it differently. No matter what our religion, learning to work with our anger is effective for everyone seeking personal happiness as well as world peace.
