THE COUNTRY CHILD is a semi-autobiographical story about a girl growing up in the country. Alison Uttley has drawn on her own youth to produce memories so vivid and nostalgic that you can almost smell the honeysuckle and hear the owls calling at dusk. She writes about the small intense joys and sorrows of life on a small farm: the fun of haymaking, the sadness of favourite animals being slaughtered, and the close sweetness of Christmas celebrations in the farmhouse kitchen. Also in A Puffin Book: A Traveller in Time by Alison Uttley

The toxic costs of anger are well understood: sabotaged careers, alienated family and friends, and even physical damage to a point where illness or an early death can result. Unlike previous models of anger control that began by combating anger-provoking trigger thoughts at a relatively low level of anger, The Anger Control Workbook introduces you to a streamlined new approach that allows you to exercise control at a higher level of anger so that fewer steps are involved in managing all of your problem anger expressions. Throughout, the book offers techniques in a clear, step-by-step format, arranged to make it easy to tailor a program to your own personal obstacles and triggering events

The First World War saw many changes to Derbyshire that helped shape what the

county is today. This book details the human experiences, thoughts, concerns, fears and hopes of the county during one the most important periods of its history. All aspects of civilian life are featured, including the run up to war and the reaction to its outbreak; the recruitment of men to the forces and the eventual conscription; the efforts of those who could not fight; industry and the munitions factories, where workers built the weapons and tools that helped win the war; the impact on agriculture and the role of farmers in feeding the nation; food shortages and rationing; the role of women; the role of the county in helping wounded servicemen and providing comforts and funds for those overseas; Belgian refugees; conscientious objectors and an alleged plot to kill the Prime Minister; anti-German feeling, hostility to Germans living in the county, and prisoners of war; civil defence and a Zeppelin raid that brought destruction and fear. For the first time in its history, the people of Derbyshire realised that the horrors of war were not confined to overseas battles but they could be witnessed and experienced in their own neighbourhoods.

The Secret Science is the study of the human condition and the foundations of life: Desire, Sex, God, Mind, Spirit, and the Search for Happiness. It says that the physical and spiritual transformation of Man is achievable through the living of life, not by detaching oneself from it. The Secret Science is intended for the reader who is driven by a spiritual inquietude and an inner yearning to deepen his personal knowledge of himself at a practical and tangible level. Also available in Spanish, Latvian, Bulgarian, Russian, German, Portuguese and Italian.

Manual on Drilling, Sampling, and Analysis of Coal

LEGOified: Building Blocks as Media offers a multi-faceted exploration of LEGO fandom, addressing a blindspot in current accounts of LEGO and an emerging area of interest to media scholars: namely, the role of hobbyist enthusiasts and content producers in LEGO's emergence as a ubiquitous transmedia franchise. This book examines a range of LEGO hobbyism and their attendant forms of mediated self-expression and identity (their "technicities"): artists, aspiring Master Builders, collectors, and entrepreneurs who refashion LEGO bricks into new commodities (sets, tchotchkes, and minifigures). The practices and perspectives that constitute this diverse scene lie at the intersection of multiple transformations in contemporary culture, including the shifting relationships between culture industries and the audiences that form their most ardent consumer base, but also the emerging forms of entrepreneurialism, professionalization, and globalization that characterize the burgeoning DIY movement. The major aim of this edited volume, and what makes it a compelling project for media scholars, is its rigorous, multi-dimensional articulation of how LEGO functions not just as toy, as cultural icon, or as transmedia franchise, but as a media platform. LEGOified is centered around their shared experiences, qualitative observations, and semi-structured interviews at a number of LEGO hobbyist conventions. Working outwards from these conventions, each chapter of the book engages additional modes of inquiry -- media archaeology, aesthetics, posthumanist philosophy, feminist media studies,

and science and technology studies -- to explore the origins, permutations and implications of different aspects of the contemporary LEGO fandom scene.

The Home Front

African traditional religion is a spiritual lifestyle followed by millions of people around the world. Some scholars argue it is related to the religion practiced by the African Egyptians during the Dynastic period. The Yoruba, Dagara, and Ibo cultures, particularly as they relate to cosmology, symbolism, and ritual, are fundamental to the traditional religious system. This study examines the nature of African traditional religion in an effort to determine the common attributes of the religion of the continent, focusing on the West African experience. This study analyzes concepts in African traditional religion by isolating key elements in the

Yoruba, Dagara, and Ibo cultures. Principal elements isolated include sacrifice, salvation, revelation and divination, as well as African resilience in the face of invasions, colonization and various outside religious assaults. The study also considers the influence of Christianity and Islam.
