Be Your Own Boss! Used Car Dealership Business Startup A Detail Step By Step Guide to Starting a Successful Preowned Car Lot Business for All 50 States Have you ever wanted to be your own boss? Are you looking for a rewarding career? Do you consider yourself a master salesman, or maybe want to become one? Are you looking to start a business that really matters? Car dealership owners provide a much-needed service to our communities, and this service is with a personal touch that cannot be achieved via an online-only buying experience. Sometimes it appears that there are more cars on the road than people already, how could you possibly make any money in this industry? The market has never been better for individuals who are striving to begin their own used car dealership. Used car dealerships are a recession sturdy business model. With my 30 years of hands-on experience in the automobile dealership industry, this book fulfills my need to give something back. I share all of my wisdom and time-honored advice for venturing into your dream career! My family memories involve selling baseball cards at the local flea market and traveling to auto auctions with my father and Uncle Sam. I was an adult at the time of my first auction, but I felt like a kid on his way to the circus. I became captivated by all of the action happening between the auctioneer and the people with the paddles. My Uncle Sam's voice cut through the bidding to yell the winning bid for a beat-up and rusted yet supposedly reliable pick-up truck. Three weeks and two paint jobs later, I was able to watch him sell it for a \$3,500 profit. I was immediately hooked. Ever since then, I knew I desperately wanted to sell used cars, but not just for the insane profits. I once sold a gently used Volvo in great condition to an elderly couple who were completely thrilled to have it. They wanted it for safety reasons and of course its record of reliability. That made me proud. Moments like these make it all worth it. Car salesmen have to be therapists, educators, and extended family all rolled into one. The entire experience can be very rewarding! If you have a passion for cars, helping others, and making lots of money, you cannot go wrong with starting your own car dealership. In this "Be Your Own Boss! Used Car Dealership Business Startup" book, I show you everything you need to know, from start to finish of how to run a used car dealership. You can even start from the comfort of your own home! You'll learn the basics like: What impact the car industry has Why you should start a used car dealership NOW How to complete market research What the pros and cons are of starting a used car lot How & Where to buy your inventory How to Navigate through the two big Auction Houses How to

price your stock How to market yourself Most importantly, I give you some cold, hard facts. What your initial startup costs will be How to finance The legal requirements What licenses you'll need Answers to some difficult issues you'll face What legal issues you need to consider Licensing requirements & Fees for all 50 states All of this is sprinkled with my time-tested advice and experience. I yearn to give back and mentor some up-and-coming entrepreneurs!
