Mindstorms

This series is for the Cambridge International AS History syllabus (9489) for examination from 2021. Written by an experienced author team that includes examiners, a practising teacher and trainer, this coursebook supports the Cambridge International AS History syllabus. With increased depth of coverage, this coursebook helps build confidence and understanding in language, essay-writing and evaluation skills. It develops students' conceptual understanding of history with the five new 'Key concepts', for example exploring similarity and difference in the aims/achievements of Witte and Stolypin. In addition, it encourages individuals to make substantiated judgments and reflect on their learning. Students can consolidate their skills though exam-style questions with source material and sample responses.

Cambridge ICT Starters: Next Steps, Stage 2

The Cambridge Checkpoint English suite provides a comprehensive, structured resource which covers the Secondary 1 framework for English and seamlessly progresses into the next key stage (covered by our Cambridge IGCSE® First Language English series). This lively stage 8 Coursebook contains 12 themed units

providing comprehensive coverage of the revised Cambridge Secondary 1 syllabus. As the core component in this suite, this title includes coverage of the five content areas (Phonics, Spelling and Vocabulary, Grammar and Punctuation, Reading, Writing, and Speaking and Listening). Additional features include rigorous language practice and teaching of key concepts, engaging activities to develop reading and writing skills, integrated speaking and listening tasks and a wide range of fiction and non-fiction texts from around the world. A skill-building, write-in workbook and a Teacher's Resource CD-ROM are available separately.

Penpals for Handwriting Year 1 Practice Book

The only endorsed resources for the Cambridge International AS Level English General Paper syllabus. Through exploration of a wide array of topics, from celebrity culture to poetry in the modern world, this book focuses on strengthening communication, evaluation, analysis, application and understanding skills. Helping students improve their written responses, use of English and comprehension, this coursebook looks at discussion points relevant to the globally-minded classroom. With frequent practice questions and sample answers, students have plenty of opportunities to build their confidence answering questions. Answers to coursebook questions are in the teacher's resource.

Ten Strategies of a World-Class Cybersecurity Operations Center

Help your students learn essential ICT skills, from Microsoft Office® basics to animations and websites. This series brings a fresh approach to ICT for students from 5 to 14 years old, mapped to the Cambridge ICT Starters syllabus for examination from 2019. In Next Steps, learners develop their understanding of email and programming. The resource also introduces them to working with multimedia. Students will create a book cover and use programming to design a shop sign. Each activity is clearly introduced, with step-by-step guidance to help learners master new skills. Key words and visual examples support students' understanding. Download source files for the activities from our website.

Complete Pure Mathematics 2 & 3 for Cambridge International AS & A Level

This volume outlines the general principles of Learning Oriented Assessment (LOA), placing it in the context of European language learning policy. The authors pose three key questions central to LOA: 'What is learning?' , 'What is to be learned?' and 'What is to be assessed?'. It focuses on the use of evidence, and how it can be collected and used to feed back into learning, overviews large-scale assessment as practised by Cambridge English and learning-oriented classroom assessment practices, and concludes with a look at implementing LOA in practice. With fresh insights into the role of assessment in supporting learning, this volume will be of considerable interest to assessment practitioners, teachers and academics, educational policy-makers and examination board personnel.

Complete ICT for Cambridge IGCSE

The Cambridge IGCSE® Combined and Co-ordinated Sciences series is tailored to the 0653 and 0654 syllabuses for first examination in 2019, and all components of the series are endorsed by Cambridge International Examinations. This Biology Workbook is tailored to the Cambridge IGCSE® Combined Science 0653 and Co-ordinated Sciences 0654 syllabuses for first examination in 2019 and is endorsed for learner support by Cambridge International Examinations. Covering both the Core and the Supplement material, this workbook contains exercises arranged in the same order as the coursebook and are clearly marked according to the syllabus they cover. Developing students' scientific skills, these exercises are complemented by self-assessment checklists to help them evaluate their work as they go. Answers are provided at the back of the book.

Cambridge Global English Starters Learner's

Complete Economics for Cambridge IGCSE® and O Level

A complete ICT course for children from five years of age.

The TKT Course CLIL Module

In this revolutionary book, a renowned computer scientist explains the importance of teaching children the basics of computing and how it can prepare them to succeed in the ever-evolving tech world. Computers have completely changed the way we teach children. We have Mindstorms to thank for that. In this book, pioneering computer scientist Seymour Papert uses the invention of LOGO, the first child-friendly programming language, to make the case for the value of teaching children with computers. Papert argues that children are more than capable of mastering computers, and that teaching computational processes like de-bugging in the classroom can change the way we learn everything else. He also shows that schools saturated with technology can actually improve socialization and interaction among students and between students and teachers. Technology changes every day, but the basic ways that computers can help us learn remain. For thousands of teachers and parents who have sought creative ways to help children learn with computers, Mindstorms is their bible.

Cambridge ICT Starters: Next Steps, Stage 1

Schools that want to be world class are now paying attention to the findings from neuroscience and psychology that tell us we can build better brains. They are changing their mindset, expecting success for far more students and no longer being constrained by ideas of genetic potential. High Performance Learning provides readers with a ground-breaking and approachable model for achieving high levels of academic performance for all students and schools. It takes what is known about how people reach advanced cognitive performance and translates it into a practical and user-friendly framework, which can be used with all students to systematically build the cognitive thinking skills and learner behaviours that will deliver success in school, in the workplace and in later life. Flexible and adaptable, High Performance Learning can be used in any context, with any curriculum and at

any age. It does not require separate lessons but rather becomes the underpinning pedagogy of the school. Drawing on the author's 40 years of research into how the most able students think and learn, this book provides a framework that has been extensively trialled in schools in eleven countries. . Themes include: Creating world class schools The High Performance Learning environment The High Performance Learning framework Advanced Cognitive Performance characteristics (ACPs) Values, Attitudes and Attributes (VAAs) Creating and leading a High Performance Learning school The role of parents, universities and employers. This invaluable resource will help schools make the move from good to world class and will be essential reading for school leaders, teachers and those with an interest in outstanding academic performance.

Cambridge ICT Starters Next Steps Stage 1

A complete three-year lower secondary computing course that takes a real-life, project-based approach to teaching young learners the vital computing skills they will need for the digital world. Each unit builds towards the creation of a final project, with topics ranging from to programming simple games to creating web pages.

English Grammar in Use with Answers, Thai Edition

Cambridge ICT Starters: On Track, Stage 1

The Cambridge Core IGCSE English as a Second Language series helps Core level students perform to the best of their ability.

Cambridge IGCSE® Core English as a Second Language Teacher's Book

A fun course to get young children ready to learn in English. Themed units - from 'homes' to 'play time' - teach children letters, colours, numbers and more. Each book covers one term and includes three units. Every unit includes a story, from traditional tales such as Goldilocks, to stories in familiar settings like the classroom. Activities (including songs, stickers, games and matching) help children develop speaking, listening and motor skills alongside early comprehension, reading and writing skills. Each unit encourages learners to build vocabulary by relating content to their experiences - the first steps of critical thinking and active learning. Opportunities for differentiation allow learners to progress at their own pace.

High Performance Learning

Ten Strategies of a World-Class Cyber Security Operations Center conveys MITRE's accumulated expertise on enterprise-grade computer network defense. It covers ten key qualities of leading Cyber Security Operations Centers (CSOCs), ranging from their structure and organization, to processes that best enable smooth operations, to approaches that extract maximum value from key CSOC technology investments. This book offers perspective and context for key decision points in structuring a CSOC, such as what capabilities to offer, how to architect large-scale data collection and analysis, and how to prepare the CSOC team for agile, threat-based response. If you manage, work in, or are standing up a CSOC, this book is for you. It is also available on MITRE's website, www.mitre.org.
