Sixteen-year-old Max and 10-year-old Tessa were fully prepared for another horrible summer vacation. While they always hoped to go somewhere fun like Disney World or Universal Studios, they usually went somewhere weird and cheap that their father, former boy bander Don Masters, found in an ad in a truck stop coupon magazine. But this year was different. Where they went couldn't be found on any map or in any truck stop coupon book. They passed through a portal to a place called Turtle Island, an alternate version of America that diverged from our history before the pilgrims landed at Plymouth Rock. It was there where they met world famous action movie star Jordie Paine -- star of such films as I Plan to Kill You Now and the sequel, I Plan to Kill You Now, Too, the ninja film, Chuck Butcher: Sword Wielding Jackal, as well as the light-hearted romp, Harry Hinklehoffer and the Giant Dancing Toad of East Nebraska -- who would be their guide in this strange new world. Jordie, they later learned, brought the Masters family to Turtle Island for a very specific reason. Because they look just like the ruthless first family

of Turtle Island, the Masters are pawns in a coup to overthrow the dictator. But things don't go as planned and the Masters wind up in the Survival Games, Turtle Island's national pastime/system of justice where criminals competitors, or crimpetitors, compete for their freedom. In this scifi comedy, the stakes are very simple -- if they win, they rule, if they lose, they must suffer the consequences.

Aaron Robertson's Sycamore

Thomas Jefferson was an avid book-collector, a voracious reader, and a gifted writer--a man who prided himself on his knowledge of classical and modern languages and whose marginal annotations include quotations from Euripides, Herodotus, and Milton. And yet there has never been a literary life of our most literary president. In *The Road to Monticello*, Kevin J. Hayes fills this important gap by offering a lively account of Jefferson's spiritual and intellectual development, focusing on the books and ideas that exerted the most profound influence on him. Moving chronologically through Jefferson's life, Hayes reveals the full range and depth of Jefferson's literary passions, from the popular "small books" sold by traveling chapmen, such as *The History of Tom Thumb*, which enthralled him as a child; to his lifelong love of Aesop's Fables and *Robinson Crusoe*; his engagement with Horace, Ovid, Virgil and other writers of classical antiquity; and his deep affinity with the melancholy verse of Ossian, the legendary third-century Gaelic warrior-poet. Drawing on Jefferson's letters, journals, and commonplace books,

Hayes offers a wealth of new scholarship on the print culture of colonial America, reveals an intimate portrait of Jefferson's activities beyond the political chamber, and reconstructs the president's investigations in such different fields of knowledge as law, history, philosophy and natural science. Most importantly, Hayes uncovers the ideas and exchanges which informed the thinking of America's first great intellectual and shows how his lifelong pursuit of knowledge culminated in the formation of a public offering, the "academic village" which became UVA, and his more private retreat at Monticello. Gracefully written and painstakingly researched, *The Road to Monticello* provides an invaluable look at Jefferson's intellectual and literary life, uncovering the roots of some of the most important--and influential--ideas that have informed American history.

Long Story Short

With a supernatural undercurrent, *The Fourth Marker* is the story of an elderly man, Gabriel Townsend, whose spirit is being crushed between the metaphoric anvil of his pragmatic views and the falling hammer of his wife's pending death. The story revolves around a family, the Townsends, whose heritage is partly Native American. The United States' Indian Removal Act of 1830, which resulted in the Trail of Tears episode in American history, required all indigenous people, with few exceptions, to leave their tribal lands in the southeast and east, along the eastern seaboard. Some Lenape (Delaware) tribal members on the Delmarva Peninsula as well as other areas in the east, defied the government and remained on their

ancestral lands, hiding from authorities in the Great Pocomoke Forest, outlying islands, and swamps on the southern peninsula. A conscious decision to "hide in plain sight" or not, they eventually intermarried and bred with local whites, African-Americans, and mulattoes. Many families whose ties to Delmarva date back a hundred years or more share a heritage with those aboriginal people; however, the prejudice and racial bias of a bygone era caused many to ignore - even deny - their lineage. In the story, while a child on the family farm during the Great Depression, Gabe Townsend rejected legends of his Native American ancestors and ignored miraculous cures of family members. Gabe's half-breed grandfather, Noopah, tried to teach him tribal legends and the old ways, explaining that, after most Indians had been killed or driven from their lands by the Army and settlers, tribal elders returned to their lands in spirit form after their deaths. They dwelled at a sacred hill on the family's land and protected their descendants from early death and white man's diseases. During those years, three family members were cured of life-threatening diseases, but Gabe's mother blindly credited their recoveries to the nascent field of modern medicine. After each recovery, a person of evil character and not of tribal blood disappeared, followed by the mysterious appearance of a wood marker on the sacred tribal hill. Yet, despite those events and Noopah's words, Gabe adhered to his mother's intractable views. Now facing the loss of his wife, he relives his childhood memories, guided by the spirit of his grandfather from beyond - well beyond - the grave. Finally understanding the truth of long ago, he decides to beg the tribal spirits to take his life in exchange for his wife's, aware

that a fourth marker would signify his own life – and death. As Gabe's father noted, "some understand only what they see; others see only what they understand." The Fourth Marker highlights this most human of vices against the backdrop of Native American legends with ample helpings of farm life during the Great Depression.

Almost nothing is known about Louis Charles, whose abandoned handwritten manuscripts were found discovered by Sidewalk Labs in an ornate jewelry box. None of the five manuscripts were dated, but they appear to be late 19th or early 20th century. In the first of these newly discovered classics, a little boy named Aaron travels through a tree in a nonsense fantasy in the style of The Wizard of Oz, Alice in Wonderland, and The Phantom Tollbooth. His dreams and wonders take him through a magical land of creatures - Feathers, Shells, Fins, and others - as he

seeks out the dread Magistrate, who seems to be the keeper of the land.

As the world collapsed around her, Akara finally grasped the last piece of the Gia Stone. Once whole, the stone sent its magic into the very fabric of the planet, saving all of Casden. After using the stone to heal the world, a strange power emerges from the gem, giving Akara the ability to feel and use the energy in water. But with this new power comes greater responsibility, and Akara has no desire to do more than she already has for a world that has made it very clear she doesn't belong. With Akara doing her best to ignore the gift she's been given, and the world no longer in danger of ending, Rydan struggles to understand his purpose. At one time he'd been the prince of a people, respected and admired for his abilities. Now he finds himself hiding in a village, feared by all. He can't live like this forever. But unbeknownst to him, there are those in Casden who seek the Gia Stone, desiring its rumored powers for themselves. And Rydan's wish for a purpose will be answered in the most dreadful way possible. By saving Akara from those who will do anything to discover the secrets of her stone.

The Seriously Silly ABC Book

José Martí (1853-1895) is the most renowned political and literary figure in the history of Cuba. A poet, essayist, orator, statesman, abolitionist, and the martyred revolutionary leader of Cuba's fight for independence from Spain, Martí lived in exile in New York for most of his adult life, earning his living as a foreign correspondent. Throughout the 1880s and early 1890s, Martí's were the eyes through which much of Latin America saw the United States. His impassioned, kaleidoscopic evocations of that period in U.S. history, the assassination of James Garfield, the opening of the Brooklyn Bridge, the execution of the Chicago anarchists, the lynching of the Italians in New Orleans, and much more, bring it rushing back to life. Organized chronologically, this collection begins with his early writings, including a thundering account of his political imprisonment in Cuba at age sixteen. The middle section focuses on his journalism, which offers an image of the United States in the nineteenth century, its way of life and system of government, that rivals anything written by de Tocqueville, Dickens, Trollope, or any other European commentator. Including generous selections of his poetry and private notebooks, the book concludes with his astonishing, hallucinatory final masterpiece, "War Diaries", never before translated into English. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as

well as up-to-date translations by award-winning translators.

'Sedaris is the premier observer of our world and its weirdnesses' Adam Kay, author of *This is Going to Hurt* 'He's like an American Alan Bennett' Guardian A New York Times Notable Book of 2018 'Entrancing . . . This book allows us to observed not just the nimble-mouthed elf of his previous work, but a man in his seventh decade expunging his darker secrets and contemplating mortality . . . The brilliance of David Sedaris's writing is that his very essence, his aura, seeps through the pages of his books like an intoxicating cloud, mesmerising us so that his logic becomes ours' Alan Cumming, Scotsman If you've ever laughed your way through David Sedaris's cheerfully misanthropic stories, you might think you know what you're getting with *Calypso*. You'd be wrong. When he buys a beach house on the Carolina coast, Sedaris envisions long, relaxing vacations spent playing board games and lounging in the sun with those he loves most. And life at the Sea Section, as he names the vacation home, is exactly as idyllic as he imagined, except for one tiny, vexing realization: it's impossible to take a vacation from yourself. With *Calypso*, Sedaris sets his formidable powers of observation toward middle age and mortality. Make no mistake: these stories are very, very funny - it's a book that can make you laugh 'til you snort, the way only family can. Sedaris's writing has never been sharper, and his ability to shock readers into laughter

unparalleled. But much of the comedy here is born out of that vertiginous moment when your own body betrays you and you realize that the story of your life is made up of more past than future. This is beach reading for people who detest beaches, required reading for those who loathe small talk and love a good tumour joke. Calypso is simultaneously Sedaris's darkest and warmest book yet - and it just might be his very best.

I waited until the last two years of high school to take Spanish and am now one of only three seniors; Sam and Rob are the others. Every day we have to conjugate verbs and today, the teacher was in a rare mood. Amar: to love That's what I associated with Rob Holland, the newest student at Naylorville High who somehow has the power to make me blush, stammer and trip all at once. Molestar: to annoy That should be Sam Seeley's middle name. Since seventh grade he has annoyed me to the point where I should earn a gold medal for ignoring him. Matar: to kill This is what I want to do to the person putting black origami roses in my locker, writing hateful notes, rude emails and texts and throwing a rock at my bedroom

About how one friend's mental illness can have lasting effects. About love. About myself Lane Meyers.

Children Playing Before a Statue of Hercules

From the Farm to the Table Olives

What if dreams are more than dreams? This magical realism novel is the first in a trilogy that is historical fiction, love story and spiritual quest. It is about magic and mysticism, faith and initiation. It is about the soul of art. Woven through history is a love story of many parts, remembered and built upon through the centuries. A great love passes on through generations in some undeniable memory in the flesh, and also reappears in new lives from distant places. Mystical love calls to couples throughout time to bring them together again and again. This remembering travels both ways in time, existing in that place beyond time where love lives. There are vague memories, subtle warnings and obscure communications between individuals separated by centuries. Lives weave together throughout more than five hundred years, paralleling contemporary events. Religious intolerance, fear and greed generate the Spanish Inquisition and the religious wars in Europe that reach a decisive moment with the defeat of the Spanish Armada. Ninety-six years

earlier, in the same year that Ferdinand and Isabella sent the three ships that discovered the New World, Spain's power had begun to weaken with the expulsion of the Jews and Muslims. The wisdom and skills of the Islamic and Jewish citizens was what had helped make Spain what it was, but fear caused the end of that golden age. These two critical points in history and what follows are the setting for this novel, but other times are connected over many thousands of years. The story opens in Spain in the 15th Century, with Jewish, Islamic and Christian children playing together as innocents without prejudice or fear. Throughout the book, there is an underlying theme of Hope and Faith manifested in mystical ways. This faith lives in ancient Celtic traditions, as well as Jewish, Islamic and Christian forms, both Catholic and Protestant. Truth is truth, no matter what form it chooses to wrap itself inside. Love empowers many characters in various ways and transforms them into their best. The world of nature sometimes comes to their aid in miraculous ways, and enemies who are treated with love become allies. There are no greater mysteries than time and consciousness and the memories that connect us to the whole of our lives and beyond. The deja vu and vague precognitive experiences that all of us have felt to some degree are the tip of the iceberg of this mystery. The supernatural in our lives is often liberated by powerful emotions like love and fear. We all are familiar with stories about mothers who have sensed when their children are in danger or when a loved one is in crisis. There is an undeniable connection that doesn't fit neatly into our view of everyday physical life. There is a larger world we glimpse as we timidly awake. Editorial Review:

We are living in a time of the struggle. The struggle isn't just to keep you from enjoying what you have, but it's to keep you from what God has for you. You have to know your worth. God began to speak to me in an unusual way, about the struggle. He first asked me a few questions. Some, I assumed He already knew the answer to, but was testing me. The question was, "Are you my child?" I laughed and said, "Well, yes Lord, why should you ask such a question as this?" He led me to the word, "Train up a child in the way he should go, even when he is old he will not depart from it." Proverbs 22:6 Many of you thought this reflects what we should do as parents in our homes, but this is actually a lot deeper to me. God showed me in a vision of a man of authority. The man was dressed in armor. He stood with such authority. He walked with his shoulders back, head up and with so much confidence. Before him were little children playing. It seems as though it was in a park, because the kids seem to be so busy and excited there. The man walked over to the kids and they gathered around him. They sat before him. They listened to him. I began to see the influence that he had on them. Even with the amusement and noise around them, they sat, listened, and heard. Many of us are running around in the amusement park of life. We are running in confusion, searching for God and we have gotten caught up with the noise, in our ears.
