Generalist Case Management: A Method of Human Service Delivery

An alternate version of Criminology, Fifth Edition (West, 1995) without Chapters 15-18 on the criminal justice system.

An Introduction to Criminological Theory

Covering a range of fundamental topics essential to modern forensic investigation, the fifth edition of the landmark text *Forensic Science: An Introduction to Scientific and Investigative Techniques* presents contributions and case studies from the personal files of experts in the field. In the fully updated 5th edition, Bell combines these testimonies into an accurate and engrossing account of cutting edge of forensic science across many different areas. Designed for a single-term course at the undergraduate level, the book begins by discussing the intersection of law and forensic science, how things become evidence, and how courts decide if an item or testimony is admissible. The text invites students to follow evidence all the way from the crime scene into laboratory analysis and even onto the autopsy table. *Forensic Science* offers the fullest breadth of subject matter of any forensic text available, including forensic anthropology, death investigation (including entomology), bloodstain pattern analysis, firearms, tool marks, and forensic analysis of questioned documents. Going beyond theory to application, this text incorporates the wisdom of forensic practitioners who discuss the real cases they have investigated. Textboxes in each chapter provide case studies, current events, and advice for career advancement. A brand-new feature, *Myths in Forensic Science*, highlights the differences between true forensics and popular media fictions. Each chapter begins with an overview and ends with a summary, and key terms, review questions, and up-to-date references. Appropriate for any sensibility, more than 350 full-color photos from real cases give students a true-to-life learning experience. *Access to identical eBook version included Features Showcases contributions from high-profile experts in the field Highlights real-life case studies from experts' personal files, along with stunning full-color photographs Organizes chapters into topics most popular for coursework Covers of all forms of evidence, from bloodstain patterns to questioned documents Includes textboxes with historical notes, myths in forensic science, and advice for career advancement Provides chapter summaries, key terms, review questions, and further reading Includes access to an identical eBook version Ancillaries for Instructors: PowerPoint® lecture slides for every chapter A full Instructor's Manual with hundreds of questions and answers—including multiple choice Additional chapters from previous editions Two extra in-depth case studies on firearms and arson (photos included) Further readings on entomological evidence and animal scavenging (photos included)

Siegel Criminology

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Taking a sociological perspective, *CRIMINOLOGY: A SOCIOLOGICAL UNDERSTANDING*, 5/e offers award-winning coverage of criminology and highlights issues of race, ethnicity, gender and social class throughout. Designed in a four-color format, this edition includes a new chapter on classical and neoclassical theories, over 160 recent references and unique chapters on political crime and public opinion, crime and the media. Moving beyond simple “get tough” approaches, the book emphasizes the need to understand social causes of criminal behavior in order to significantly reduce it.

Criminology: The Core

This practical text equips students with the fundamental information and skills needed to be effective case managers, covering such central issues as the responsibilities of case management, competencies needed for ethical and multicultural case management, participation in interdisciplinary and interorganizational teams, and engagement in advocacy and leadership. The first-person experience of a client and her case managers draws students into the text. To ensure that the book offers current and accurate information, the authors interviewed human service case managers nationwide about their jobs, skills, challenges, and clients. These interviews, combined with current research and numerous case studies, make *GENERALIST CASE MANAGEMENT: A METHOD OF HUMAN SERVICE DELIVERY*, 5th Edition, realistic and relevant. The text also aligns with NASW case management standards and helps to prepare students for earning C-SWMC certification and the HS-BCP credential. Visualizing Human Biology

Visualizing Human Biology is a visual exploration of the major concepts of biology using the human body as the context. Students are engaged in scientific exploration and critical thinking in this product specially designed for non-science majors. Topics covered include an overview of human anatomy and physiology, nutrition, immunity and disease, cancer biology, and genetics. The aim of Visualizing Human Biology is a greater understanding, appreciation and working knowledge of biology as well as an enhanced ability to make healthy choices and informed healthcare decisions.

A Guide to Writing as an Engineer

Ideal for use in either crime theory or race and crime courses, this is the only text to look at the array of explanations for crime as they relate to racial and ethnic populations. Each chapter begins with a historical review of each theoretical

perspective and how its original formulation and more recent derivatives account for racial/ethnic differences. The theoretical perspectives include those based on religion, biology, social disorganization/strain, subculture, labeling, conflict, social control, colonial, and feminism. The author considers which perspectives have shown the most promise in the area of race/ethnicity and crime.

Restoring Justice

Students, beginning and seasoned mental health professionals will be better prepared for diversity practice by this accessible, timely, provocative, and critical work, *The Convergence of Race, Ethnicity and Gender: Multiple Identities in Counseling, Fifth Edition*. Author Tracy Robinson-Wood demonstrates, through both the time honored tradition of storytelling and clinically-focused case studies, the process of patient and therapist transformation. This insightful, practical resource offers behavioral health professionals a nuanced view of diversity beyond race, culture, and ethnicity to include and interrogate intersectionality among race, culture, gender, sexuality, age, class, nationality, religion, and disability. With a keen focus on quality patient care, this important text aims to help professionals better serve patients across sources of diversity. Readers will recognize their roles and responsibilities as social justice agents of change, while identifying the ways in which dominant cultural beliefs and values furnish and perpetuate clients' feelings of stuckness and inadequacy, in both the therapeutic alliance and within the larger society. This remarkable text reveres the lifelong commitment of using knowledge and skills as power for good to make a meaningful difference in people's lives.

Criminal Investigation

For courses in Criminology This text is part of the Justice Series Brief. Affordable. Visual. Criminology, Third Edition provides an affordable, thought-provoking look at criminology that uses clear writing and eye-catching visuals to get your students straight to the important concepts. By focusing on these core concepts, students will gain true understanding of the material, without becoming overwhelmed with unnecessary information. With an approach that focuses on social problems versus social responsibility, students will learn to think critically about the causes of crime and see the link between crime theories and crime policies. The book's conversation-starting pedagogy encourages active participation in learning, moving students beyond memorization by engaging them in the latest research findings and current events shaping the field.

Statistics for People Who (Think They) Hate Statistics

"This is a comprehensive introduction to the study of crime and criminological theory for criminology courses. The authors take a critical sociological approach, which emphasizes the relationship between gender, class, race, age, and crime. Definitions of crime and the measurement of crime are subjected to a critical analysis that focusses on the social construction of crime and crime rates. The book addresses historical, feminist, and comparative perspectives highlighting the major types of crime and victimization patterns. It is of most interest to those who teach criminology out of a sociology department, those who are sociologists teaching the course out of CJ, or any instructor for whom a critical approach is key"--

Derived from his bestselling text *Statistics for People Who (Think They) Hate Statistics*, author Neil J. Salkind presents readers with *The Excel Edition!* Using the same personable and clear style that made previous editions so successful, this new edition teaches students how they can use Excel to learn the basics of statistics. This is not a text on how to use Excel, rather it illustrates how this program can make the statistics learning experience a better one.

The Convergence of Race, Ethnicity, and Gender

"Written in an engaging manner that challenges critical thinking throughout, the text is very readable and balances providing facts grounded in research with case examples." —Minna Cirino, Shenandoah University Now with SAGE Publishing, *The Will to Kill: Making Sense of Senseless Murder* explores extraordinary and seemingly inexplicable cases of homicide—not to sensationalize them—but to educate students about these crimes. Authored by renowned experts, the Fifth Edition places recent crimes in context by reviewing current homicide laws, introducing the latest theories that seek to explain murder, and presenting up-to-date statistical data that identify homicide patterns and trends. Students develop a foundational understanding of a variety of topics, for example, domestic and workplace homicide, cult and hate killings, murders committed by juveniles, and serial slayings. Students also examine various criminal justice responses to homicide, including the strategies and tactics employed to apprehend, prosecute, and punish killers. New to the Fifth Edition Up-to-date research and data offers students the latest statistics on homicide patterns and trends in recent years. New illustrative cases cover various forms of homicide, focusing on crimes that drew significant interest from the public and policymakers alike and provide students with unique insights into violent behavior. Updated coverage of recent controversies, legislative changes, and Supreme Court decisions includes heightened concern over mass shootings, hate-motivated homicide and terrorism; new laws, shifting policies, and Supreme Court rulings pertaining to gun rights, juvenile offenders and the death penalty; and advances in surveillance technology, computer-aided investigation, and DNA forensic testing. Early introduction of theories helps students to understand the definition of homicide/homicide laws before developing a theoretical framework to explain violence. Criminology

A practical and applied introduction to criminal justice *Introduction to Criminal Justice: Practice and Process* shows you how to think practically about the criminal justice system by offering you a proven, problem-based approach to learning. Bestselling authors Kenneth J. Peak and Tamara D. Madensen draw on their many years of combined practitioner and academic experience to explain the importance of criminal justice and show how key trends, emerging issues, historical background, and practical lessons can be applied in the field. New to the Third Edition: An emphasis on constitutional policing, legitimacy, and procedural justice stresses the importance for police to develop a “guardian” mindset over a “soldier” mindset. New discussions of contemporary criminological theories—such as social structure theories, social process theories, social conflict theories, feminist theories, and environmental criminology theories—provide you with a concise explanation on why people commit crimes and how to prevent them in the modern world. An in-depth view of three particularly challenging problems and policy issues—terrorism, the mentally ill population, and illegal immigration—demonstrate how today’s society and the criminal justice system are affected by these issues and what can be done to address the problems. New examples and case studies of ethical dilemmas illustrate today’s climate of distrust, dissension, and dysfunction to encourage you to think critically about what is considered “ethical”. New video interviews with criminal justice professionals offer you career advice, provide you with insights into a variety of career paths, and discuss challenges and misconceptions of each profession.

Class, Race, Gender, and Crime

Crime and Justice: a Guide to Criminology has been for many years a leading Australian textbook for undergraduate and postgraduate students approaching this subject for the first time. The contributors are well known research active academics in Australia who contribute to the criminological debate at national and

international level. Fully revised and updated, this 5th edition offers a comprehensive guide in criminal justice and criminology that is well suited to a dual-semester approach. It covers a wide range of topics including: different forms of crimes .. from street crime to state crime and international crimes; who commits crimes and who are the victims of crimes; and how society responds to crime. This book offers a balance between critical and administrative criminological traditions to add to the discourse of crime and justice in the twenty-first century.

This will help finance professionals apply basic econometric tools to modeling, estimation, inference, and forecasting through real world problems.

Criminological Perspectives on Race and Crime

This Fourth Edition of George Ritzer's Introduction to Sociology shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the "McDonaldization" of society. With examples on every page from current events and contemporary research, and stories about "public" sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world, and the diversity of questions that sociologists seek to answer. New to this Edition New "Trending" boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter, and feature such authors as: Michelle Alexander (The New Jim Crow) Elizabeth Armstrong and Laura Hamilton (Paying for the Party) Randol Contreras (The Stick-Up Kids) Matthew Desmond (Evicted) Kimberly Hoang (Dealing in Desire) Arlie Hochschild (Strangers in Their Own Land) Eric Klinenberg (Going Solo) C.J. Pascoe (Dude, You're a Fag) Lori Peek and Alice Fothergill (Children of Katrina) Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change President Trump's proposed Mexican border wall further segmentation of wealthy Americans in the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism
