Each month your energy levels wax and wane just as the Moon does, sometimes urging you to start new projects and other times easing you towards quiet and contemplation. Whether the Moon is making you feel adventurous and productive or dreamy and lethargic, you can use its energy to work for you instead of against you. In this enduring classic, bestselling author D.J. Conway explains how each of the 13 lunar months is directly connected to a different type of seasonal energy flow. With 79 modern Pagan rituals for tapping the Moon's energy and celebrating its phases, you'll improve your physical, emotional, and spiritual well-being when you align yourself with the natural strength of the Moon. Moon Magick features a treasury of practical lunar magick and lore: —Seasonal recipes, decorations, and crafts —Lunar meditations, spells, and lore —Moon mythology, correspondences, and symbols —Goddesses & Gods and ancient holidays Praise: "A great book. ESSENTIALS OF NEGOTIATION, 4e is a short paperback derivative from the main text, NEGOTIATION, 5e. It explores the major concepts and theories of the psychology of bargaining and negotiation, and the dynamics of interpersonal and inter-group conflict and its resolution. Fourteen of the 20 chapters from the main text have been included (about half have been shortened by about 1/3) for this volume. Chapters are shortened by removing more 'academic' material and some of the boxes. This effectively leaves the message and theories of negotiation intact.

## **Prime Imperative**

What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In *A House To Remember*, she explains why.

Don't pay to promote, publicize, and market your book. The quickest ways to get free publicity for your book are to work at a writing camp (a boot camp for creative writing) and query a magazine editor to ask whether you can get a go-ahead to write an article titled, "How to Write a Syllabus for Teaching a Course In \_\_\_\_." (Fill in

the topic of your how-to book). Use your credibility and experience to sell your books. Give three reasons why people should take you seriously and trust your credibility, commitment, and stability. Show honesty and charisma in your writing. Motivate readers by examples. Being serious and convincing, even in comedy, 'brands' your reputation with a familiar symbol, proverb, or slogan related to your skills, life experience, or expertise. Showing readers how to teach a skill or craft quickly attracts the attention of magazine and newspaper Editors. Write articles where you can mention your book. Ask "how-to" or research-based publications' editors whether you can write an article on how to solve a problem for readers of the particular specialty of the magazine. Free publicity is abundant when you solve problems or train groups with similar interests. Offer expertise in fields where instruction is welcome in research, repair, and lifestyles.

Fundamentals of Human Resource Management, by Noe, Hollenbeck, Gerhart and Wright is specifically written to provide a complete introduction to human resource management. While it doesn't cover the depths of human resource management theory, the book is rich with examples and engages students through application. Fundamentals differs from the hardback textbook by the same author team. Instead of a higher level of theory that's geared towards the HRM majors, this book focuses on the uses of human resources for the general business manager. Issues such as strategy are reduced to give a greater focus on how human resources management is used in the everyday work environment. It provides students with the background necessary to manage human resources effectively and to be able to distinguish good from poor human resource management practices and how they impact business. Instructors are provided with a robust ancillary package that includes a comprehensive instructor's manual, test bank, PowerPoint presentation and a complete Online Learning Center to make course preparation easy.

## **Public Administration in an Information Age**

The unforgettable story of a woman splintered by war and cultural mores, desperately struggling to hold her family together, THE FIG ORCHARD is a rich, compelling epic of love, heroism, family and empowerment. In an isolated, tradition-bound village high above the Jordan River, balancing delicately amidst age-old superstitions and religious orthodoxy, Nisrina Huniah, a fifteen-year-old girl, is torn between innocent imaginings and looming apprehensions as she marries a man she has never met, only to fall in love on the night they are wed. Her joy takes a heart-wrenching turn when the encroaching World War fiercely shatters her reality, propelling her on an unexpected journey where she develops friendships that ultimately alter her perception of herself and the world around her. Beautifully written, this sweeping epic of love and friendship, longing, and the hope of redemption is woven into a colorful tapestry that comes alive against the vibrant backdrop of life in early twentieth-century Middle East. With its haunting and deeply affecting ending, THE FIG ORCHARD will remain in the hearts and minds of its readers long after the last page is turned.

## **THINK Communication**

This book is a joint effort of researchers who have been involved in research-projects and programmes that have been trying to chart and reflect upon the implications of Information and Communication Technologies (ICTs) for Public Administration (Tilburg/Rotterdam, Kassel, Irvine, Nottingham/Glasgow). Since the fifties, computers had largely facilitated and the transformation of the minimal 'Night-Watch-state' into the modern 'Welfare-state', through their contribution to their effectivity, productivity and efficiency. In most Handbooks of Public Administration, computers are seen as neutral instruments and, most of the time, the role of computer technologies in the transformation of public administration is completely neglected. This 'deafening silence' is a great contrast with the way ICT's are actually changing public administration. The faster the developments in a field of study are, the more difficult it is to let the theories, related to that field of study, mature. In such circumstances, most statements will remain provisial and context-dependent. 25 years of research in Irvine (California) and Kassel (Germany) and more than 10 years of research in Tilburg/Rotterdam (The Netherlands) and about seven years of research in Glasgow/Nottingham (the United Kingdom) nonetheless enables the presentation of a modest image of public administration as it is entering the information age. Researchers in each of these groups have, nevertheless, not stopped trying to phrase theories about the implications of informatization for public administration with a more or less larges scope, that are robust in different contexts and over longer periods of time. These results and theories, covering a broad set of elements of the body of knowledge of public administration, are presented in this volume. As the authors try to demonstrate in this book, informatization developments in public administration do not only challenge the existing body of knowledge of the public administration discipline, but they are also opening up new perspectives and paradigms for the study of public administration.
