This up-to-date, reader-friendly presentation of the mass media helps instructors "use the media to teach the media" and explore its excitement, complexity, and impact on our lives. Widely praised for his ability to make learning interesting, Vivian excites students as they explore the ever-changing subject of mass communication. This updated edition retains the emphasis on the challenges of today's media while building on its extensive coverage of media history, effects, and culture. The coverage of media literacy, an underlying theme since the first edition, has been enhanced with a new feature. The three-part organization--the media, media messages, and media issues--has been strengthened by the addition of a totally new chapter on entertainment to balance the coverage of other types of media messages. New and Notable Features Updated content includes: coverage of the 2004 presidential election; recent changes in the national radio scene; new newspaper products; the emergence of blogging; and the gangsta lit genre. New chapter-opening vignettes now include Rupert Murdoch, Howard Stern, and, Jerry Bruckheimer. A new chapter, "Entertainment," in the Mass Messages section, explains how entertainment is an integral part of

today's mass messages conveyed through all the mass media A new feature, " Sharpening Your Media Skills, " provides critical thinking questions to encourage students to analyze media issues to help broaden their understanding of media literacy The text and photo program has been thoroughly updated with the latest examples and information on media trends, challenges, concepts, personalities, and issues. Praise for "The Media of MassCommunication" " This is one of the best mass communication text books ever published. I am impressed by the focus on history, comprehensive coverage of key terms, models, issues and trends. And I also enjoy the visual dimension of this textbook. It is readable for students who don't enjoy reading!" "Reed Markham, Salt Lake Community College" " This text's biggest strength continues to be its culture-orientated approach to mass media. The writing is clear and lively. The many short features boxes work well with students. The visual images are current even the pedagogy is excellent." "Linda J. Lumsden, Western Kentucky University" " Vivian's "Media of Mass Communication" is a solid textbook. It is current, thorough, accurate and well-written. It covers the essential topics in a readable style .I have used Vivian in the past and will continue to do so in the future." "Timothy Boudreau, Central Michigan University"

Written specifically for computer and Internet novices by a "computer guru" for the law enforcement community, this easy-to-read-and-use guide explains the basics involved in getting online from the law enforcement perspective. Discusses in detail what kind of computer is needed, how to configure the software, which company to use for online access, and what law enforcement resources (e.g., newsgroups, mailing lists, websites, etc.) are available on the Internet, and what can/cannot find/do in using those resources--e.g., addresses issues of privacy and security, gathering of intelligence, and developing investigative leads through online activities. Highlights Do's and Don'ts throughout and contains a comprehensive Online Resources Guide with annotated lists of hundreds of websites, mailing list locations, software download sites, and other online resources. For professional law enforcement officers.

The Job Finder's Guide

How the world's most powerful media mogul really thinks The third book in Portfolio's new series looks at Rupert Murdoch, the controversial chairman and CEO of News Corp. He is the subject of endless gossip, speculation, and criticism, but what really drives his bold (and usually successful) gambles? Based on comments from News Corp. executives and competitors, and interviews with Wall Street analysts, investors, and other media experts, Paul La Monica's book explores some of the most fascinating questions about Murdoch. For instance: How did he grow a small Australian newspaper company into a global media empire? Why did he challenge the TV establishment with the Fox Network and Fox News Channel—for profits or for deeper reasons? Did his obsession with The Wall Street Journal lead him to overpay for Dow Jones? How has he dealt with detractors and enemies, including Ted Turner and John Malone? Was he smart to acquire MySpace to launch his Internet strategy? Why does he still work so hard at age 77 with a net worth of \$8.8 billion and nothing to prove?

Four specific trends are driving the DVR industry: consumer content choice, consumer content control, personalization of content libraries, and the ability to transfer content from device-to-device and person-to-person. "Digital Video Recorders" features a macro and micro views of the already established yet still burgeoning DVR industry. As part of the NAB Executive Technology Briefing series, this book gives you a wealth of market knowledge, business models, case studies, and industry insights explained in a non-technical fashion. "Digital Video Recorders" discusses the impact of the technology across many different industries and platforms, explains hardware, software and technology of set-top boxes, DVR infrastructure, on-screen guides, planning and scheduling, content

security, and more. Whether you are an executive in the broadcast, telecommunications, consumer electronic, or advertising space, you will expand your knowledge on DVR impact, explore new business opportunities, and get a brief overview of the technical terms needed. You will also be able to accurately analyze and understand the trends, projections and other data, all of which will help lead to the expedited growth and development of DVR industry.
