Christian Home Educators' Curriculum

Manual

Praised by teachers for many years, this format is now easier to manage. Passages are carefully controlled to use only vocabulary and syntax already taught and tested. Reading-skills instruction and translation help prepare students for second-year Latin. Twenty lessons formerly in Level I are now at the beginning of Level II, thereby providing better overall pacing.

Ecce Romani 3

This textbook is endorsed by OCR and supports the specifications for AS and A-Level Classical Civilisation (first teaching September 2017). It covers all three options for Component 11: World of the Hero (Homer's Iliad, Homer's Odyssey and Virgil's Aeneid). Why does the Trojan War continue to fascinate us? What makes Odysseus a hero? What links can be drawn between the Aeneid and today's global politics? This book guides AS and A-Level students to a greater understanding of the epics of Homer and Virgil, setting the poems in their cultural context and drawing on the scholarship of leading academics to explore the poetry, characters and underlying philosophies. The colour illustrations, from the Cyclops on a Greek pot to a photograph of protesting Yazidi women, reflect the universal impact and continuing relevance of these classical epics. The ideal preparation for the final examinations, all content is presented by an expert and experienced teacher in a clear and accessible narrative. Ancient

literary sources are described and analysed. Helpful student features include study questions, quotations from contemporary scholars, further reading, and boxes focusing in on key people, events and terms. Practice questions and exam guidance prepare students for assessment. A Companion Website is available at www.bloomsbury.com/class-civ-as-a-level.

Caesar's Gallic War

Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to

encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

Third Year Latin

Helps to Latin Translation at Sight Edmund Luce The aim of the present book is to help boys to translate at sight. Of the many books of unseen translation in general use few exhibit continuity of plan as regards the subject-matter, or give any help beyond a short heading. The average boy, unequal to the task before him, is forced to draw largely upon his own invention, and the master, in correcting written unseens, has

seldom leisure to do more than mark mistakes—a method of correction almost useless to the boy, unless accompanied by full and careful explanation when the written work is given back. Now that less time is available for Latin and Greek, new methods of teaching them must be adopted if they are to hold their own in our public schools. When Lord Dufferin could say, 'I am quite determined, so far as care and forethought can prevent it, that the ten best years of my boy's life shall not be spent (as mine were) in nominally learning two dead languages without being able to translate an ordinary paragraph from either without the aid of a dictionary;' and Dr. Reid could write, 'It is not too much to say that a large number of boys pass through our schools without ever dreaming that an ancient writer could pen three consecutive sentences with a connected meaning: chaos is felt to be natural to ancient literature: no search is made for sense, and the Latin or Greek book is looked upon as a more or less fortuitous concourse of words;' when Dr. Rouse can assert, 'The public schoolboy at nineteen is unable to read a simple Latin or Greek book with ease, or to express a simple series of thoughts without atrocious blunders: he has learnt from his classics neither accuracy nor love of beauty and truth'-it is obvious that, for the average boy, the system of perfunctorily prepared set-books and dashed-off unseens is a failure. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of

literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

Latin

In Book IV of Virgil's "Aeneid", one of the most studied books of that epic poem, Dido, queen of Carthage, is inflamed by love for Aeneas. The goddesses Juno and Venus plot to unite them, and their 'marriage' is consummated in a cave during a hunt. However, Jupiter sends Mercury to remind Aeneas of his duty, and the hero departs despite Dido's passionate pleas. At the end of the book, Dido commits suicide. This classic edition of the Latin text of Book IV replaces the long-serving edition by Gould and Whiteley, making this book more accessible to today's students and taking account of the most recent scholarship and critical approaches to Virgil. It includes a substantial introduction, annotation to explain language and content, and a comprehensive vocabulary.

The Story of Æneas

Two major Jewish risings against Rome took place in the years following the destruction of Jerusalem - the first during Trajan's Parthian war, and the second, led by Bar Kokhba, under Hadrian's principate. The impact of these risings not only on Judaea, but also on Cyrene, Egypt, Cyprus and Mesopotamia, is shown by accounts in both ancient Jewish and non-Jewish literature. More recently discovered sources include letters and documents from fighters and refugees, and inscriptions attesting war and restoration. Historical evaluation has veered between regret for a pointless bloodbath and admiration for sustained resistance. William Horbury offers a new history of these risings, presenting a fresh review of sources and interpretations. He explores the period of Jewish war under Trajan and Hadrian not just as the end of an era, but also as a time of continuity in Jewish life and development in Jewish and Christian origins.

Examining a wide array of ancient writings, Brent Nongbri dispels the commonly held idea that there is such a thing as ancient religion. Nongbri shows how misleading it is to speak as though religion was a concept native to pre-modern cultures.

On the Law of War and Peace

This book contains over fifty passages of Latin from 200 BC to AD 900, each with translation and linguistic commentary. It is not intended as an elementary reader (though suitable for university courses), but as an illustrative history of Latin covering more than a millennium, with almost every century represented. Conventional histories cite constructions out of context, whereas this work gives a sense of the period, genre, stylistic aims and idiosyncrasies of specific passages. 'Informal' texts, particularly if they portray talk, reflect linguistic variety and change better than texts adhering to classicising norms. Some of the texts are recent discoveries or little known. Writing tablets are well represented, as are literary and technical texts down to the early medieval period, when striking changes appear. The commentaries identify innovations, discontinuities and phenomena of long duration. Readers will learn

much about the diversity and development of Latin.

Fundamental Greek Grammar

Cicero composed his incendiary Philippics only a few months after Rome was rocked by the brutal assassination of Julius Caesar. In the tumultuous aftermath of Caesar's death, Cicero and Mark Antony found themselves on opposing sides of an increasingly bitter and dangerous battle for control. Philippic 2 was a weapon in that war. Conceived as Cicero's response to a verbal attack from Antony in the Senate, Philippic 2 is a rhetorical firework that ranges from abusive references to Antony's supposedly sordid sex life to a sustained critique of what Cicero saw as Antony's tyrannical ambitions. Vituperatively brilliant and politically committed, it is both a carefully crafted literary artefact and an explosive example of crisis rhetoric. It ultimately led

to Cicero's own gruesome death. This course book offers a portion of the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Cicero, his oratory, the politics of late-republican Rome, and the transhistorical import of Cicero's politics of verbal (and physical) violence.

Ecce Romani

For hundreds of years John Calvin's Commentaries have been admired and relied upon for their deep insights into Scripture. Charles Spurgeon told his students, "It would not be possible for me too earnestly to press upon you the importance of reading the expositions of that prince among men, John Calvin! Of all commentators I believe John Calvin to be the most candid. He was no trimmer and pruner of texts. He gave their meaning as far as he knew it. His honest intention was to translate the Hebrew and the Greek originals as accurately as he possibly could, and then to give the meaning which would naturally be conveyed by such Greek and Hebrew words: he laboured, in fact, to declare, not his own mind upon the Spirit's words, but the mind of the Spirit as couched in those words." And even Arminius himself admitted, "Next to the perusal of the Scriptures, which I earnestly inculcate, I exhort my pupils to peruse Calvin's commentaries, for I affirm that he excels beyond comparison in the interpretation of Scripture, and that his commentaries ought to be more highly valued than all that is handed down to us by the Library of the Fathers; so that I acknowledge him to have possessed above most others, or rather above all other men, what may be called an eminent gift of prophecy."

Aeneid

This collection investigates the culture and history of the Low Countries in the sixteenth and seventeenth centuries from both international and interdisciplinary perspectives. The period was one of extraordinary

upheaval and change, as the combined impact of Renaissance, Reformation and Revolt resulted in the radically new conditions – political, economic and intellectual – of the Dutch Republic in its Golden Age. While many aspects of this rich and nuanced era have been studied before, the emphasis of this volume is on a series of interactions and interrelations: between communities and their varying but often cognate languages; between different but overlapping spheres of human activity; between culture and history. The chapters are written by historians, linguists, bibliographers, art historians and literary scholars based in the Netherlands, Belgium, Great Britain and the United States. In continually crossing disciplinary, linguistic and national boundaries, while keeping the culture and history of the Low Countries in the Renaissance and Golden Age in focus, this book opens up new and often surprising perspectives on a region all the more intriguing for the very complexity of its entanglements.

Commentary on Genesis

The Book of the Secrets of Enoch

The enemy were overpowered and took to flight. The Romans pursued as far as their strength enabled them to run' Between 58 and 50 BC Julius Caesar conquered most of the area now covered by France,

Belgium and Switzerland, and invaded Britain twice, and The Conquest of Gaul is his record of these campaigns. Caesar's narrative offers insights into his military strategy and paints a fascinating picture of his encounters with the inhabitants of Gaul and Britain, as well as lively portraits of the rebel leader Vercingetorix and other Gallic chieftains. The Conquest of Gaul can also be read as a piece of political propaganda, as Caesar sets down his version of events for the Roman public, knowing he faces civil war on his return to Rome. Revised and updated by Jane Gardner, S. A. Handford's translation brings Caesar's lucid and exciting account to life for modern readers. This volume includes a glossary of persons and places, maps, appendices and suggestions for further reading.
