It covers the syllabus of economic thought of major Indian universities.

The Essay Connection

An Historical Essay on Contingent and Executory Interests in Land in English Law

THE ESSAY CONNECTION is a provocative, timely collection of rhetorically arranged essays by professional and student writers. It stimulates critical thinking on ethical, social, and political issues, enabling users to make connections and write with an informed viewpoint. Essays range from the personal to the scientific and cover a variety of modes--narration, process analysis, comparison and contrast, and persuasion--to prompt users' interest in different disciplines and genres. Professionally written essays (by scientists, economists, and journalists, among others) as well as user essays inspire and motivate readers. Unlike excerpts found in other readers, most essays are printed in their entirety, thus serving as better models for user writing. Throughout the text, Bloom offers practical, clear advice on writing that complements the essays. Rich visuals, fiction, poetry, and creative nonfiction provide a full set of models to bolster critical thinking, reading, and writing skills. The tenth edition offers 22 new selections to stimulate the readers' interest. An expanded argument casebook

as well as new visuals, poems, and works of creative nonfiction and fiction build on the strengths of previous editions. New material on the Book Companion Website strengthens the readers' writing and reading comprehension skills.

A History of Economic Thought, 10th Edition

This rhetorical reader is designed to help individuals improve their abilities to think, read, and write on progressively more sophisticated levels. It features a collection of 56 provocative, interesting, rhetorically organized essays accompanied by clear, well-developed rhetorical introductions, sample essays, and carefully sequenced prereading and prewriting questions, comprehension questions, and writing projects. Contains essays representing the four main purposes of writing — description, narration, exposition, persuasion. Organizes essays to reflect progressively more sophisticated levels of thinking, reading, and writing. The essays cover a broad range of contemporary topics and portray the universality of human experience as expressed through the viewpoints of men and women, many different ethnic and racial groups, and a variety of ages and social classes. Presents biographical information about the authors — explaining the real experiences from which the essay emerged poses provocative prereading questions that help readers focus on the purpose, audience, and subject of the essay. Provides complete sample essays illustrating each rhetorical pattern, accompanied by the writer's own thorough analysis of the writing experience — explaining the most enjoyable, exasperating, or noteworthy aspects of writing that particular essay. For anyone interested in refining their basic composition skills.

Children's Books in Print, 2007

Rereading America has remained the most widely adopted book of its kind because of its unique approach to the issue of cultural diversity. Unlike other multicultural composition readers that settle for representing the plurality of American voices and cultures, Rereading America encourages students to grapple with the real differences in perspectives that arise in our complex society. With extensive editorial apparatus that puts readings from the mainstream into conversation with readings from the margins, Rereading America provokes students to explore the foundations and contradictions of our dominant cultural myths.

Essays in Social Value Theory: A Neoinstitutionalist Contribution

A major influence on the development of American scientific culture, Swiss-born Louis Agassiz (1807–73) was one of the great scientists of his day. A student of anatomist Georges Cuvier, Agassiz adapted his teacher's pioneering techniques of comparative anatomy to paleontology, and he rose to prominence as a distinguished systematist, paleontologist, and educator. Agassiz introduced science to ordinary citizens to an unprecedented degree; people around the world read his books, sent him specimens, and consulted his opinion. Agassiz was also a staunch opponent of the theory of evolution, and he was among the last of the reputable scientists who continued to reject the concept after the publication of *The Origin of the Species*. All of nature bore testimony to a divine plan, Agassiz believed, and he could not reconcile himself to a theory that did not invoke God's design. Ironically, his 1851 *Essay on Classification* provided Darwin and other evolutionists with evidence from the fossil record to support the theory of natural selection. A treasure of historically valuable insights that contributed to the development of evolutionary biology, this volume introduced the landmark contention that paleontology, embryology, ecology, and biogeography are inextricably linked in classifications that reveal the true relationships between organisms. Its emphasis on advanced and original work gave major impetus to the study of science directly from nature, and it remains a classic of American scientific literature.
