Therapeutic Interviewing

Collecting Simpsons!

Pastoral theologians from Congo, Ghana, Kenya, South Africa, and Zimbabwe address, in this book, the issues of leadership, Ubuntu (community), gender-based violence, political violence, healing, and deliverance faced by pastors and ministers in African contexts today. Drawing on biblical, theological, social scientific, and cultural contextual perspectives, these African Christians offer much needed insights to assist in the care and counseling of persons towards healing, health, and well-being.

Practice Tests for Use with Psychology : an Introduction, 8th Ed

This book focuses on an organization, the U.S. Army Nurse Corps, which the author has been privileged to be affiliated with - in one way or another - for the greatest

part of her adult life. As an active duty officer, the author had first-hand knowledge about the Army Nurse Corps inner workings and spent the last years of her Army career (from 1992) researching and writing the Corps history. One of her goals in researching and writing this history was to intrigue and provide a sense of gratification for the reader. After the conclusion of the Vietnam War, several wide-ranging and significant changes exerted myriad effects on the Army Nurse Corps. The most influential of these phenomena included the dismantling of the Selective Service System, the reorganization of the Army, the launch of the Health Services Command (HSC), the opening of the Academy of Health Sciences, the transformation of the Office of the Army Surgeon General, the inauguration of improvements in the Army Reserve and National Guard, and the evolution in the roles and status of women.

HIV/AIDS in Africa

Geographical listing of residential treatment centers. Information was obtained by responses to questionnaires. Miscellaneous indexes.

Measures of Family Functioning for Research and Practice

Master interviewing skills with INTENTIONAL INTERVIEWING AND COUNSELING:

FACILITATING CLIENT DEVELOPMENT IN A MULTICULTURAL SOCIETY, 8th Edition. This book gives you the tools to adapt your skills to address both individual and multicultural uniqueness, conduct interviews using five different theoretical approaches, and begin developing a personalized style and theory of interviewing and counseling that matches your own aptitudes and affinities. Case studies, sample interviews, and a Portfolio of Competencies are just a few of the many tools that will help you master the material and become a better listener. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Program Plans for Children and Their Families

Global Perspectives in Family Therapy: Development, Practice, Trends provides an overview of the development of the family and the issues and concerns they are faced with in different cultural contexts. Contributions from experts in the field expand on the different aspects on the historical beginnings, current developments, training issues, theoretical variations, future trends, and research potential in family therapy throughout 14 countries. It explores the diverse cultural approach to family therapy and suggests various clinical interventions that are helpful to clinicians dealing with families from different countries, including case studies, vignettes and research outcomes of family therapy overseas.

Cumulative Subject Index to Psychological Abstracts

Social Work Intervention in Schools

This current, engaging, and practice-oriented text is your complete resource for mastering the many facets of family therapy. In this eighth edition, the authors provide practice-oriented content that will help you become an empathic and effective family therapist. The new edition includes the latest references and contemporary thinking on central issues such as family resiliency, alternative forms of family life today, gender, culture, and ethnic considerations. A new feature, Thinking like a Clinician, helps students to reflect on practice issues related to each chapter. This edition also contains the American Association for Marriage and Family Therapy Code of Ethics--a great reference that will help you understand the importance of ethical practices. A Contemporary History of the U.S. Army Nurse Corps

The fully revised follow-up to Training Media Review's "BEST2BUY" Winner If every person is unique, why do coaches use the same worn-out methods for everyone? Employees seeking performance improvement require a coaching approach tailored to meet their specific needs and preferences. In Adaptive Coaching, Second Edition, executive development experts Terry Bacon and Laurie Voss draw from over 2,000 case studies of Fortune 500 employees to show how people prefer to be coached - and the powerful results coaches can achieve by being adaptable. This essential handbook offers the key tools and techniques that coaches require to identify clients' real needs, negotiate expectations, adapt to different working styles, and help clients change. Bacon and Voss also include numerous examples of coaching dialogues that illustrate how to initiate coaching sessions, build rapport, ask probing questions, give feedback, challenge clients, and effectively

close coaching sessions. With four new chapters, Adaptive Coaching, Second Edition explores new coaching techniques for encouraging transformative change in your clients. It is the perfect companion to your creative, unique coaching sessions, teaching you to master the on-going and ever changing dialogue between coach and client.

The American Journal of Occupational Therapy

This book is a comprehensive reference on both the structure and content of the clinical interview and its authors present the strategies and fundamental knowledge required to conduct the clinical interview with different kinds of patients and for specific psychopathologies. It provides a thorough overview on clinical and diagnostic interviewing with state-of-the-art presentations of significant theoretical orientations (psychoanalytic, behavioral, humanistic/existential, and family systems) as well as information on frequently encountered psychopathologies. The book stresses the idea that the clinical interview is controlled by the therapist and develops in a phase-sequenced progression along predictable lines. Clinical interviews flow from a theoretical stance on the part of the clinician, are usually semi-structured to the extent that areas are probed consistent with official diagnostic criteria and with known aspects of suspected psychopathologies, including co-morbidities, and include an understanding of the patient's personality and possible personality disorders that may complicate treatment of Axis I

disorders or which may be the focus of treatment itself. This book elucidates this process and may serve as a primary source for practitioners who want to know more about the process of clinical interviewing as well as a useful text for those students who are in the process of learning clinical interviewing.

APAIS, Australian Public Affairs Information Service

Women's Recovery Programs

The fourth edition of this established text for students, supervisors, and practitioners in marriage and family therapy emphasizes the multicultural context for intervention efforts. Additionally, the text features an examination of the impact of personal, professional, and institutional layers of values upon both the practitioner and the client/system. Emphasis is retained for classic ethical, legal, and professional concerns along with exploration of contemporary issues such as HIPAA (Health Insurance Portability and Accountability Act), technology, and managed mental health care. Each section of the text concludes with case study examples that focus on applied considerations related to ethical, legal, and professional issues.

Journal of Social Work Education

American Scientific Books

"Nationwide directory of residential treatment facilities for children with emotional disturbances and behavioral disorders as their primary diagnosis." Source of information was comprehensive questionnaire with descriptive written materials. Geographical arrangement according to states. Entries give such information as type of placement, setting and background information, children served, tuition and fees, social and rehabilitative services, educational and vocational services, and referral information. Miscellaneous indexes.

Psychological Abstracts

In recognition of the interdisciplinary nature of the study of the family, the measures described are derived from the disciplines of nursing psychiatry, psychology, social work, and sociology.

Adaptive Coaching

This updated edition features increased coverage of positive psychology and evolutionary psychology. It also includes information of developmental changes in the brain, and their relations to changes in behaviour and mental processes. Powerweb gives students current articles, curriculum-based materials, weekly updates with assessment, informative and timely world news, refereed Web links, research tools, study tools and interactive exercises.

Critical Topics in Family Therapy

Ethical, Legal, and Professional Issues in the Practice of Marriage and Family Therapy

This unique text, intended for beginning students in counseling and psychotherapy, offers the foundational strategies, skills, and tools of therapeutic interviewing along with an understanding of the formats and settings in which these interviews occur. Reiter provides novice therapists with a basic understanding of interviewing and explores how they can develop the skills to become competent therapists.

Psychotherapy & Social Science Review

This Brief from the American Family Therapy Academy (AFTA) is a collection of chapters from the AFTA Monograph Series. The chapters specifically address responses to a wide range of contextual phenomena from a relational family therapy perspective. Chapters are grounded in family systems concepts and informed by postmodern perspectives including social justice. The collection provides cutting edge thinking and practices for a variety of experiences that strongly impact individuals and families. Authors address the treatment of couples and families oppressed by socio-contextual phenomena such as war and poverty, and of those marginalized by the insidious impact of dominant discourse on relationships and on the therapeutic context, for example, sexual/gender identity and sexual practices. Established practitioners and scholars with particular expertise in the areas addressed bring exceptional transparency and knowledge to the descriptions of their work. Researchers, clinicians, educators, and students of family and couples therapy will find this volume very useful.
