Management Secrets of the New England Patriots

While most goal-setting books focus on helping people achieve their goals, only Your Goal Guide starts with that first, crucial step: helping professionals figure out what it is they actually want. In this book, author Debra Eckerling take readers through The D*E*B Method, her brainstorming and task-based system. It's a roadmap for setting goals, and then creating a plan to achieve them. D*E*B stands for: Determine Your Mission, Explore Your Options, Brainstorm Your Path. Numerous factors stop people from accomplishing their goals. They don't give their goals enough thought, jump in head-first, and waste a lot of time. They spend too much time

overthinking their goals, and, even, if they manage to get started, they abandon the project midway, since it was taking way too long. They try to figure out their goals in their head and get nowhere; they have no plan. People are constantly re-evaluating their professional - and personal - situation. Then, they get to the point where they must take action, whether it's due to circumstance (their job is being eliminated, they're in an unhealthy work environment, they have to move), choice (they want to start or grow their own business, it's time for a career change), or both (they want and need to increase their income). But how? The challenge is to figure out how to set and reach your goals, while the rest of the world - and the rest of your life - is business as usual. Your Goal Guide, by Debra Eckerling, is a roadmap that combines writing exercises with systems to help individuals set, plan, and achieve their professional and personal goals.

Three Your Life

"Don't go around measurin' yourself by other people's rulers. 'Cause you'll never measure up." For most people, life is kind of like feeling around in the dark, stumbling into things and hoping they get what they think they want from what's around them. And if they don't get it, they just keep at it the same old way, but hoping for something different. But what if you could learn about life before making mistakes? In Oak Park, Virginia, where the story takes place, life is both familiar and unpredictable, "just like any other place on earth with smart and simple people, pretty and ugly people, uppity and lowly folks. Somebody is

Goal Setting

Are you looking for happiness? Happiness results when you practice living authentically, maintain balance, and enjoy the moment. Just like learning to ride a bike, it takes some effort and practice, but not a lot. Remember the first day you actually could ride your bike? That moment was filled with joy and happiness. Your entire life can be filled with that same magicthe moment you invite happiness into your world. How did you learn to ride a bike? Answer: By riding a bike. Trial and error. Stops and starts until eventually you master the skill of bike riding---this is a difficult skill that once learned, is never lost. How

does one learn to live a happy life? Answer: By living. Trial and error. Experience and practice until you become a master of happiness. Once you master the skill of living, it is yours. Happiness wants you! - invite it into your life. Successful lives are not dependent on goal-setting, financial independence, the discovery of secrets, or following a guru. Life is for living. Your life is a gift from the universe to you. This gift is waiting to be opened, activated, understood, utilized, maintained, and appreciated. Once you take responsibility for your life, monitor and guide its course, you can avoid pain and experience all the joys of living. Like piloting your first bike, living without pain gives you the freedom to be you. "Happiness Wants You" will reawaken the truth that you already know. You are a perfect human being, perfectly positioned to assume the creation of your destiny. But, just like learning to ride a bike, this is a do-it-yourself project. Start now. Invite happiness into your life. It's never too early - or too late. Once you learn how to ride your new bicycle of life - point it in the right direction - stay on the path - avoid the potholes - and enjoy the journey. You can ride anywhere you desire. There is no hurry to get to the finish line. ---19 Illustrations by A.T. Olsen

Traditional beliefs about meeting goals are fundamentally flawed. Goal setting tactics assume goals are measurable, achieved, and final-all attributes that describe objectives, not goals. Unlike objectives, which are by their very nature self-contained, goals are immeasurable. A goal is realized, not achieved, and must be maintained to remain successful. What good is the goal of losing weight if you don't keep the weight off? Losing twenty pounds is an objective. Keeping that twenty pounds from returning is a goal, which must be maintained to remain a success. In *Three Your Life*, entrepreneur and accidental expatriate David R. Sanders applies this important distinction between goals and objectives. Beginning with attitude, outlook, and perception, Sanders builds a solid foundation on which to effect major life changes. Learn to differentiate between needs, wants, and desires-and discover how focusing on desires causes everything else to fall into place. To realize desires, Sanders reevaluates conventional thinking on prioritizing tasks, using a three-part daily structure that ensures you're working toward a productive and fulfilling life. A fresh new approach to goal setting, *Three Your Life* offers the opportunity to realize your goals, achieve your objectives, and understand the difference between the two.

Money Secrets of the Rich

Have you ever wondered why some people are living

in mansions while others struggle to pay the rent on a bedsit apartment? Why some have no trouble getting a job and shooting up the corporate ladder while others stay stuck in boring low paying jobs? Why some people travel the world first class while others ride the Greyhound bus? I did, and when I was twenty-seven years old, I decided to change things once and for all and make sure I was the guy with the house the cars and the retirement program. My life changed after listening to a series of audiotapes, lent to me by a friend about how to get more from life. I was so simple and empowering I was hooked at once. I started goal setting and developing plans for my life instead of aimlessly hoping that something would just come along. The results were fast and staggering, I went from living in a one-bedroom apartment, with not one bit of furniture, somehow surviving on \$7,800 a year to a to \$128,000 in just 12 months! The following year I moved to a beautiful 3-story home in a gate guarded golf community and joined the club! The most amazing thing is anyone could have done what I did. There was no magic wand, no new job, no inheritance or angel investor. I did not go back to school it was just me and a focused plan of goals and action backed by the motivation of knowing that the outcome was a forgone conclusion if I saw it through. The truth is most people spend more time planning their vacation than they do planning their life! What a shame that is for there is so much more you could see, do, own and experience if only you devoted a little time to getting your life map right! * If you are going to work five days a week any why not get paid six figures? * If you are going to go on vacation why not see Paris, London, Rome, New York and all the

great cities of the world? * If you are passionate about a sport why not see the game live from a skybox, instead of on TV? * If you have to drive to work why not drive in style? * Heck let's forget work and figure out how to retire at 40 or 50, it can be done! But of course, success is not just about what you can do for yourself it also about what you can do for others? * A private school or college education for your kids * A nurse for your aging parents * Help your church build a school or mission * Start your own foundation or charity * When you maximize your time and talents your multiple your options exponentially Success Does Not Care Who You Are! Young or old, black or white, Christian or atheist, American or Zambian. Success does not care who you are, where you are from or even what you have done in the past. You don't need a college degree, heck I didn't even finish high school, what you need is a life plan, a step by step map of exactly what you must do to get from where you are now to the life, love and things you always dreamed of Are you ready to design a power roadmap to maximize your full potential because if so, I am ready to help lead the way Let's get started!

all-stars * What all-star selectors are really looking for * 7 tried and true methods of getting better at baseball * But more importantly, little known ways to get the people picking the team to notice you * And how to beat the "politics" that seem to get in the way

Year after year kids sit in the stands crying after the all-star teams are announced and they weren't one of the players that were chosen. At the same time the students I've trained do make these same all-star teams. It was then I realized I had the information that the kids in the stands and their parents and coaches were looking for. Wherever there are kids around the world that play youth baseball, there are kids that long to make the league's all-star team. Every year it's the same, kids that desperately want to have their name called out (or see it announced on the list) don't make it, and a little bit of them is hurting deep inside; and they don't know why they were not picked. Little did they know that they could have fairly accurately predicted their chances almost from day one of when the season started. And if they knew what you're about the find out, they could improve enough in skill in the eyes of the all-star selectors as to be a better player or even make the all-star team. The good news is that in this book, there is a way to learn how to make the all-star team for the next upcoming season; and if not then, the following year (if you're willing to listen and follow the advice I give). While I have written this for parents and coaches to learn how this process works and how they can help these youngsters achieve their dreams, this is mostly a book written for the kid who wants to make all-stars, not a book for the parent who wants their kid to make all-stars (there is a difference). And

it will be in that voice that this book will be written.

Success Secrets of the Social Media Marketing Superstars

It's no secret that these hard times have been even harder for the Black community. Approximately 35 percent of African Americans had no measurable assets in 2009, and 24 percent of these same households had only a motor vehicle. Dennis Kimbro, observing how the weight of the continuing housing and credit crises disproportionately impacts the African-American community, takes a sharp look at a carefully cultivated group of individuals who've scaled the heights of success and how others can emulate them. Based on a seven year study of 1,000 of the wealthiest African Americans, *The Wealth Choice* offers a trove of sound and surprising advice about climbing the economic ladder, even when the odds seem stacked against you. Readers will learn about how business leaders, entrepreneurs, and celebrities like Bob Johnson, Spike Lee, L. A. Reid, Herman Cain, T. D. Jakes and Tyrese Gibson found their paths to wealth; what they did or didn't learn about money early on; what they had to sacrifice to get to the top; and the role of discipline in managing their success. Through these stories, which include men and women at every stage of life and in every industry, Dennis Kimbro shows readers how to:

- Develop a wealth-generating mindset and habits
- Commit to lifelong learning
- Craft goals that match your passion
- Make short-term sacrifices for long-term gain
- Take calculated risks when opportunity presents itself
