### **The Well-Trained Mind: A Guide to Classical Education at Home (Fourth Edition)**

Designed for middle school teachers and students in California. Offer teachers and students a method to focus on the written and oral language convention required by the standards--to provide an effective way to teach and learn grammar, usage, and mechanics skills.

### **English Composition and Grammar**

### **Liberte**

"Fundamentals of Sport Marketing" has long been the premier textbook in its field, and this updated, expanded fourth edition once again delivers superior content for aspiring sport marketers. As the most contemporary, comprehensive text of its kind, Fundamentals of Sport Marketing, 4th Edition, is a must-have resource for current data, trends, and concepts critical to success in the ever-changing world of

sport. Students just beginning to explore their options in the sporting industry will gain a firm foundational understanding of sport marketing principles and strategies. As they explore the text, they will encounter a broad range of topics, including in-depth analyses of marketing mix components, media relations in sport, and use of licensing and logos in the sport industry. A brand-new chapter covers social media and its increasing impact on sport marketing. The authors, Dr Brenda Pitts and Dr David K Stotlar are internationally well-known experts in the sport industry. Their extensive experience both consulting and working in the field allows them to share their unique insights with the newest generation of sport marketers.

### **Elements of Language, Grade 8 Developmental Language Skills**

Is your child getting lost in the system, becoming bored, losing his or her natural eagerness to learn? If so, it may be time to take charge of your child's education—by doing it yourself. The Well-Trained Mind will instruct you, step by step, on how to give your child an academically rigorous, comprehensive education from preschool through high school—one that will train him or her to read, to think,

to understand, to be well-rounded and curious about learning. Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium, which organizes learning around the maturing capacity of the child's mind and comprises three stages: the elementary school "grammar stage," when the building blocks of information are absorbed through memorization and rules; the middle school "logic stage," in which the student begins to think more analytically; and the high-school "rhetoric stage," where the student learns to write and speak with force and originality. Using this theory as your model, you'll be able to instruct your child—whether full-time or as a supplement to classroom education—in all levels of reading, writing, history, geography, mathematics, science, foreign languages, rhetoric, logic, art, and music, regardless of your own aptitude in those subjects. Thousands of parents and teachers have already used the detailed book lists and methods described in *The Well-Trained Mind* to create a truly superior education for the children in their care. This extensively revised fourth edition contains completely updated curricula and book lists, links to an entirely new set of online resources, new material on teaching children with learning challenges, cutting-edge math and sciences recommendations, answers to common questions about home education, and advice on practical matters such as standardized testing, working with your local school board, designing a high-school program, preparing transcripts, and applying to colleges. You do have control over what and how your child learns. *The Well-Trained Mind* will give you the tools you'll need to teach your child with confidence

and success.
