Stronge shows educators how to recreate this same excitement and enthusiasm in their own classrooms by describing the characteristics and skills of effective teachers. They address how to measure these processes, what effects they have on personal and academic development, how they manifest in both students and teachers and how teachers can best manage and optimize these critical elements at the classroom level. It is expected that by collecting, distilling, and highlighting the real-world applicability of research on underexplored educational topics (e.g., students' emotions other than anxiety, promoting student autonomy, preventing burnout and attrition in teachers) that empirical findings can be used to improve personal and academic development in students, while also preparing new teachers for the psychological challenges of classroom instruction.

The Handbook guides the teachers and parents through books A-F and Yellow Pages I-III, offering expert advice and methodological support to teaching in Colourstrings® method. The method makes use of colourful teaching materials and supports learning by appealing to many senses. and IKS. According to Géza Szilvay, the Colourstrings® method can make a violin player of almost anyone with motivation. The key to maintaining musical culture lies with the teacher. The Colourstrings® is a teaching method developed by Géza and Csaba Szilvay. The method is ideal for preschool beginners and can be used effectively in instrumental teaching throughout the school years. It creates an environment in which singing, playing games and instrument live side by side, for the happiness of the child. The Colourstrings® approach developed by the Szilvay brothers has gained an international reputation and is now taught all over the world.
