Harvest for Hope

Preserving food can be one of the most intimidating aspects of homesteading and cooking. Luckily, no one makes it as easy and as much fun as farm-girl-in-the-making Ann Acetta-Scott. For a beginner new to the world of preserving, the ideal tool is a detailed reference guide, and in *The Farm Girl's Guide to Preserving the Harvest*, Ann covers all the basics on canning, dehydrating, freezing, fermenting, curing, and smoking, including how to select and use the right tools for each method. This guide takes home preservers through the beginning, moderate, and advanced stages of preserving. Newcomers can start with a simple jam and jelly recipe using a hot water bath canner, while others may be advanced enough to have mastered the pressure canner and are ready to move onto curing and smoking meat and fish. With more than 30 delicious and healthy recipes and Ann's expertise and encouragement, the home preserver will build confidence in the most common methods of preserving.

Church Planting for a Greater Harvest

Grow Something to Eat Year-Round is a light, bright new gardening title with a big promise-it sets out to deliver home-grown food from the plot, pot, freezer, or pantry every day of the year. That's easy enough in the summer, when kitchen gardens and allotments are awash with peas, beans, leafy greens, and soft fruit, but not so straightforward in midwinter, when the ground may be frozen solid. Success lies in the planning, and this book is written as a continuum, with sowing, planting, and growing advice for each month to keep the crops coming. There are also features on harvesting, storing, freezing, and preserving crops to enjoy later in the winter months and the early-spring gap when little is ready to harvest. Advice is given on winter polytunnel and greenhouse crops, and indoor seed sprouting, citrus plants, and herbs in pots to help bring fresh tastes to the table in winter. The result is a year-round manual for productive kitchen gardeners, with plenty of growing projects for raised beds and pots to allow smaller-scale gardeners to take part.

The Complete Guide Book to Raising and Showing Indian Fantails

Equipped with the knowledge of when to harvest, how to harvest, and what supplies are needed to preserve your harvest, anyone can learn what it takes to create authentic, old-fashioned recipes in this age of supermarket dependence. Carla Emery's in-depth knowledge comes from her years spent with farmers and homesteaders who truly lived off the land. Culling from and expanding on sections in the famed Encyclopedia of Country Living, co-author Lorene Forkner offers a discussion of our changing motivation as food consumers, detailed explanations of the processes behind canning and preserving, and a wealth of recipes for fruits, vegetables, meats and fish, and herbs. From drying to pickling to freezing, Emery's preserving methods are as broad in scope as the recipes themselves. Do-it-yourselfers can welcome summer's arrival with Chunky Peach Jam and Oven-Dried Tomatoes, or host a fall harvest with fresh Herb Bouquets and Smoked Chicken. Step-by-step instructions, illustrations, charts, and informational sidebars make the process easy and enjoyable.

Daily Hope for Hurting Hearts

BARBARA RAMSEY knew from childhood on that she would someday write a book. As an avid reader all her life, years passed, and the main subject of that book kept evading her. Until . . . one defining day in June, 2010, when brain cancer rudely crashed into the middle of her normal existence, creating a jolting crisis of faith. Suddenly, the rug was jerked right from under her and her husband Jim's very strong, capable feet. Within a few days, they no longer had a secure job, home, or financial future. Their vocabulary quickly changed from farming terms and simple faith to words like: glioblastoma multiforme brain cancer; radiation and chemotherapy treatment; biopsy; neurology; and other foreign hospital terms. From the beginning of the terminal diagnosis, they fought for the best quality of life possible. This goal led them to treatment by proton beam radiation therapy at ProCure Proton Therapy Center - which is now the Oklahoma Proton Center. While dealing with the shock of cancer, they also battled a big health insurance company through many processes of appeals. After treatment, they dealt with the struggle of advancing brain cancer symptoms and the changed dynamic of relationship between a husband and wife. This book brings the reader along for the exhilarating, painful, miraculous ride.

Red Harvest

The Bible calls human life a vapor. A mist. A wisp of fog. A flower that springs up in the morning and fades away by mid-afternoon. We like to think we have years to pursue our goals, raise our families, and make a difference in the world. But we just don't know. The fact is, our stay on earth is really very brief. And when a loved

one unexpectedly steps out of this life into eternity, it shakes us to the core. We ask ourselves: Is heaven real? Will I see him-will I see her- again? Will we be together again? How can I know for sure? Pastor Greg Laurie crafted many of the devotionals in this book after the sudden departure of his son Christopher to heaven. Each day offers comfort to bruised hearts, perspective in times of confusion and pain, and a hope that will sustain us through this life and beyond.

Hope Returns

Rather than cover hundreds of plants in abbreviated accounts like the typical field guide, the author has chosen a smaller selection of species to discuss in exhaustive detail, including only those plants he has eaten fifty times or more. This book contains as many as ten high-quality color photographs of each plant. These have been selected to facilitate identification and depict the plant parts at exactly the stage of growth in which they should be harvested. The accompanying text is accurate and thorough, giving readers of any experience level the confidence to harvest wild plants for food. Botanically, the text is accurate, yet it remains accessible to the layperson by using technical terms only when necessary. This book has many unique features that will appeal to naturalists, hikers, campers, survivalists, homesteaders, gardeners, chefs, Native Americans, and whole food enthusiasts. It contains a calendar of harvest times for wild produce, a step-by-step protocol for positive identification, an illustrated glossary tailored to the needs of foragers, a recommended reading list, plus special sections on conservation, safety, nutrition, harvest techniques, preparation methods, and storage. While this is not a regional guide, it will prove most useful to readers in the eastern US and Canada, the Rocky Mountains, and the Pacific Northwest.

On the heels of her mother's death, Hope Logan reluctantly returned to her grandparents' home place in search of a journal that revealed explosive crimes and atrocities of the past that had haunted her grandma for nearly sixty-five years. Bitterness, unforgiveness, and anger consumed her as she set out to solve the mystery that surrounded her grandma's life. The dark evil secret that was contained in the journal only deepened her resentment of God. Because of her quest, she came in contact with many strong believers, especially a handsome young pastor and three senior citizens. In that small town in the foothills of the mountains of North Carolina, Hope's bitterness, unforgiveness, and anger slowly began to fade in the light of the strong faith of the young pastor and three senior citizens. She discovered the true meaning of faith and hope in Christ in the midst of adversity. Carolyn Digh Griffin, a native North Carolinian, resides in Waxhaw, North Carolina, with her husband, Hoyle. She is retired from Union County Public Schools where she was an Administrative Assistant to the Assistant Superintendent. She has two daughters and four grandchildren who also reside in the Old North State.

Harvest Moon

For the past four decades this highly effective method of evangelism has been vastly overlooked. As a result, large segments of the population have remained unreached. No single church can meet every person's needs; that's why planting new churches--ones that will meet the needs of specific groups--is so necessary. Now, after ten years of research and teaching on the subject, C. Peter Wagner shares his knowledge and insight in this comprehensive guide on how to plant a church. It's an up-to-date textbook on church planting and a helpful summary of church growth principles in general. Church Planting for a Greater Harvest contains everything Wagner taught in his highly successful "How to Plant a Church" seminar--a presentation that was offered sixteen times and drew 5,000 participants! Today, as we see a renewed interest in church planting, the Lord is blessing the efforts of church planters everywhere. The future can be an exciting time of growth for churches. Get ready to be carried into what could be the greatest era of harvest the world has ever seen!
