### Mechanical and Metal Trades Handbook

This chronicle of daily life at the US Military Academy is “a fascinating, funny and tremendously well written account of life on the Long Gray Line” (Time). In 1998, West Point made an unprecedented offer to Rolling Stone writer David Lipsky: Stay at the Academy as long as you like, go wherever you wish, talk to whomever you want, to discover why some of America’s most promising young people sacrifice so much to become cadets. Lipsky followed one cadet class into mess halls, barracks, classrooms, bars, and training exercises, from arrival through graduation. By telling their stories, he also examines the Academy as a reflection of our society: Are its principles of equality, patriotism, and honor quaint anachronisms or is it still, as Theodore Roosevelt called it, the most “absolutely American” institution? During an eventful four years in West Point’s history, Lipsky witnesses the arrival of TVs and phones in dorm rooms, the end of hazing, and innumerable other shifts in policy and practice. He uncovers previously unreported scandals and poignantly evokes the aftermath of September 11, when cadets must prepare to become officers in wartime. Lipsky also meets some extraordinary people: a former Eagle Scout who struggles with every facet of the program, from classwork to marching; a foul-mouthed party animal who hates the military and came to West Point to play football; a farm-raised kid who seems to be the perfect soldier, despite his affection for the early work of Georgia O’Keeffe; and an exquisitely turned-out female cadet who aspires to “a career in hair and nails” after the Army. The result is, in the words of David Brooks in the New York Times Book Review, “a superb description of modern military culture, and one of the most gripping accounts of university life I have read. . . . How teenagers get turned into leaders is not a simple story, but it is wonderfully told in this book.”

Jennifer Niven quit her job as a television producer to write the true story of a doomed 1913 Arctic expedition in her first book, *The Ice Master*, which was named one of the top ten nonfiction books by Entertainment Weekly, and won the Barnes & Noble Discover Award. She received high praise for her follow-up arctic adventure, *Ada Blackjack*, which detailed the life of one woman who overcame enormous odds to survive. Now, Niven tells a survival tale of a different kind; her own thrilling, excruciating, amazing, and utterly unforgettable adventure in a midwestern high school during the 1980s. Richmond, Indiana, was a place where people knew their neighbors and went to church on Sundays. It also had only one high school with 2,500 students, and for both the students and the townspeople, it was the center of the universe. In *The Aqua-Net Diaries*, Niven takes readers through her adolescent years in full, glorious—and hilarious—detail, sharing awkward moments from the first day of school, to driver's ed, and her first love, against a backdrop of bad 1980s fashion and big hair. Like Chuck Klosterman in *Fargo Rock City*, Niven's talented voice perfectly captures the pain, joy, and shame of going through adolescence in America's heartland, making a funny, touching, and universal experience.

### **Conservation of Shadows**

This unique work examines the role played by sexuality in the historical encounter between China and the West. Distinguished historian D. E. Mungello focuses especially on Western homosexuals who saw China as a place of escape from the homophobia of Europe and North America. His groundbreaking study traces the lives of two dozen men, many previously unknown to have same-sex desire, who fled to China and in the process influenced perceptions of Chinese culture to this day. This escapism engendered casual sexual encounters, serious friendships, and substantive intellectual relationships, all of which had a profound impact on shaping the modern Western conception of China.

Since the publication of the first edition of *The Crusades: A Reader*, interest in the Crusades has increased dramatically, fueled in part by current global interactions between the Muslim world and Western nations. The second edition features an intriguing new chapter on perceptions of the Crusades in the modern period, from David Hume and William Wordsworth to World War I political cartoons and crusading rhetoric circulating after 9/11. Islamic accounts of the treatment of prisoners have been added, as well as sources detailing the homecoming of those who had ventured to the Holy Land—including a newly translated reading on a woman crusader, Margaret of Beverly. The book contains sixteen images, study questions for each reading, and an index.

Improper Riemann Integrals is the first book to collect classical and modern material on the subject for undergraduate students. The book gives students the prerequisites and tools to understand the convergence, principal value, and evaluation of the improper/generalized Riemann integral. It also illustrates applications to science and engineering problems. The book contains the necessary background, theorems, and tools, along with two lists of the most important integrals and sums computed in the text. Numerous examples at various levels of difficulty illustrate the concepts and theorems. The book uses powerful tools of real and complex analysis not only to compute the examples and solve the problems but also to justify that the computation methods are legitimate. Enriched with many examples, applications, and problems, this book helps students acquire a deeper understanding of the subject, preparing them for further study. It shows how to solve the integrals without exclusively relying on tables and computer packages.

### **Becoming a Dad**

In the early 1790s Richard Randolph was accused of fathering a child by his sister-in-law, Nancy, and murdering the baby shortly after its birth. Rumors about the incident, which occurred during a visit to the plantation of close family friends, spread like wildfire. Randolph found himself on trial for the crime largely because of the public outrage fueled by these rumors. The rest of the household suffered too, and only Nancy, who later married the esteemed New York statesman Gouverneur Morris, would find any degree of happiness. A tale of family passion, betrayal, and deception, Scandal at Bizarre is a fascinating historical portrait of the social and political realities of a world long vanished.

Sinister, swaggering, yet often sympathetic, the figure of the gangster has stolen and murdered its way into the hearts of American cinema audiences. Despite the enduring popularity of the gangster film, however, traditional criticism has focused almost entirely on a few canonical movies such as *Little Caesar*, *Public Enemy*, and *The Godfather* trilogy, resulting in a limited and distorted understanding of this diverse and changing genre. *Mob Culture* offers a long-awaited, fresh look at the American gangster film, exposing its hidden histories from the Black Hand gangs of the early twentieth century to *The Sopranos*. Departing from traditional approaches that have typically focused on the "nature" of the gangster, the editors have collected essays that engage the larger question of how the meaning of criminality has changed over time. Grouped into three thematic sections, the essays examine gangster films through the lens of social, gender, and racial/ethnic issues. Destined to become a classroom favorite, *Mob Culture* is an indispensable reference for future work in the genre.

Social security is the single most important fiscal issue facing the Brazilian government today. This report summarizes the state, and potential policy implications, of the Brazilian Social security system. It also discusses policy recommendations for: social security and pensions, the national social security system, government pensions and funds, and the complementary pension systems. An overview of the social security challenge reviews the system components, revealing unsustainable fiscal imbalances and administrative weaknesses in both the unreformed General Regime for Social Security (RGPS), and the Pension Regime for Government Workers (RJU), with large tax-related distortions, and labor market inefficiency. Thus the goals of Brazil's reforms are to reduce fiscal deficits, lower actuarial imbalances, increase equity and redistribution, reduce collateral inefficiencies, and facilitate growth of funded pensions. The study implies there is no recourse for the country, but to lower the high, uniform replacement rates (experience suggests that rates higher than 40-70 percent, cannot be sustained). The key to effective reform of social security is widening the debate to include potential winners from these changes, particularly the private sector, the young, and the poor. Policy recommendations suggest that the adverse equity effects of RGPS reforms should be widely publicized to generate political support for deeper RJU reform.

### **Fear the Fantastic**

Mercedes Lackey's magical *Elemental Masters* series recasts familiar fairy tales in a richly-imagined alternate Victorian world. Ninette Dupond was a dancer with the Paris Opera Ballet. She had been very lucky—if she had not been pretty, and a natural dancer, she could only have become what her mother had been: a washerwoman. But Ninette's good luck ended the day that the lead dancer sprained her ankle and Ninette was chosen to dance her part at a matinee. Her reviews had been very good—too good. Shortly thereafter, Ninette had been fired in an attempt to soothe the wounded ego of the ballet's primary soloist. Alone, unemployed, and filled with despair, Ninette had returned to her apartment to find a thin, rangy, tabby-striped tomcat sitting on her windowsill. He seemed like just another stray, until abruptly he spoke to her, mind-to-mind. Ninette thought she was going mad, but the cat offered her an alternative to a life of destitution, albeit a very odd one. He proposed that she impersonate a renowned Russian ballerina, Nina Tchereslavsky, and go to work in a specific music hall in Blackpool, England. The cat also told her that he would take care of her in every way—he would somehow convey the English and Russian languages to her, supply her with money, and guide her every move. With no other option open to her, she placed her life in his paws. What Ninette didn't know was that the cat was an Elemental Spirit sent to protect her, and that the music hall in Blackpool was owned by an Elemental Master. But she also didn't know that the real Nina Tchereslavsky no longer existed. For the real Nina had been "absorbed" by an Elemental Spirit of the darkest kind that was now bent on Ninette's destruction....
