This book is written from the perspective of a social psychologist. As a consequence, the topics covered in the upcoming chapters were chosen from among those traditionally of interest to the discipline of social psychology. A criterion for inclusion was the topic's usefulness in providing insights and/or understanding of the social processes at work in sports settings. To this end, I have drawn extensively from mainstream journals in social psychology (e. g. , *Journal of Personality and Social Psychology*), and grounded the discussion of topics and issues on the methodologically sound studies/experiments they generally provide. There is also an equally strong interdisciplinary emphasis that features research from physical education, sociology, management science, and education. I have made a further attempt, not as successful as I would have liked, to incorporate a substantial amount of the fine sports research that has been conducted overseas, particularly in Europe and Australia. I am hopeful that in bringing together the works of international scholars from a variety of disciplines a clearer and balanced outline of this field will take shape. And now a word about the audience

for this text and how to get the most from its pages. I would suggest that the reader have taken a course in social psychology following an introductory-level course. An introductory course in research methodology would also be helpful.

Debates of the Senate: Official Report (Hansard)

If you weren't around in 1972, it would be difficult to imagine the emotions experienced by Canadians during the Summit Series between Team Canada and the Union of Soviet Socialist Republics (USSR). This was not just an eight-game hockey tournament; this was western democracy versus the Iron Curtain. It all came down to Game Eight. Canada won the deciding game by one goal, the Russians pressing the Canadians to the last minute. With 34 seconds left in the tied game, Paul Henderson came onto the ice replacing Peter Mahovlich. Henderson jumped on a rebound off Phil Esposito's shot, and the winning goal was scored. Canada won the game and the series, but just barely. Between August 31 and October 2, 1972, Toronto Star reporters, photographers and columnists covered this historic series of 40 years ago. This book includes a selection of their articles and photographs collected from the Toronto Star archives (some images have never been seen by the public) in order to give readers today a glimpse into Canadians' overwhelming confidence before the tournament began, the shock, dismay and anger that resulted when the team began to lose and the jubilation when the team ultimately triumphed. Beyond this remarkable hockey moment, this collection provides readers with a glimpse into the Canadian psyche at a time when the Soviet Union was an unknown entity hidden behind the Iron Curtain. Please note: while best efforts have been made to reproduce this archival material accurately, in some instances the original copies are in poor condition and some words may be missing. Refereeing Identity

Hockey Night in Dixie

The Handy Sports Answer Book

Hockey novels in Canada have emerged and thrived as a popular fiction genre, building on the mythology of Canadian hockey as a rough, testosterone-fuelled bastion of masculinity. However, recent decades have also been a period of uncertainty and change for the game, where players and teams have been exported to the US and traditional gender assumptions in hockey have increasingly been questioned. In *Refereeing Identity*, Michael Buma examines the ways in which the hockey novel genre attempts to reassure readers that "threatened" traditional Canadian and masculine identities still thrive on the ice. In a period of perceived crisis and flux, hockey novels offer readers the comforting familiarity of earlier times when the game was synonymous with Canada and men were defined by their physical strength. This comprehensive study of Canadian hockey novels draws on history, sport sociology, and literary criticism to challenge assumptions and stereotypes about identity. With the return of the Winnipeg Jets refuelling hockey nationalism and the public debate over hockey violence intensifying, *Refereeing Identity* is a timely and incisive account of how the game is represented - and misrepresented - in Canadian society.

During the 1980s, the geography of minor-league professional hockey changed radically, moving from its roots in the Maritime provinces and in the New England and midwestern states into the American south. In addition to cities like Oklahoma City, Dallas, Charlotte and Norfolk, which had long traditions of minor-league hockey, unlikely places such as Biloxi, Baton Rouge, Little Rock and Augusta hosted teams. Over an 18-year period, minor-league hockey was played in 72 different southern cities, and at one point there were more minor-league teams in Texas than in all of Canada. Hockey Night in Dixie examines this phenomenon with a historical overview of the period, including interviews with people involved in the founding and early years of each of the 13 leagues. There are also in-depth portraits of four teams, one from each of the four lower minor leagues that played during the 200506 season. These portraits feature interviews with owners, coaches, players, officials, fans and reporters. Illustrated with photographs, Hockey Night in Dixie paints a vivid picture of this extraordinary development in minor-league sports.

Hockey Night in Canada

The Baffled Parent's Guide to Coaching Youth Hockey

Hockey Night in Canada has reached a great age (and for television, practically an immortal one) because it made itself into something that Canada couldn't live without. It is this surge of emotion that connected us all each week, and which connects us through the years to now. Hockey Night in Canada didn't just aim a camera at a game and observe what happened-it actively gave the country a prism through which it could see itself and its evolving diversity. We look where the eye of Hockey Night in Canada looks, and it looks at us. We remember what it remembers. We feel what it feels. That is the dynamic that has made the show much more than a long-lived TV success; it is a cultural juggernaut. Ask fans where they saw their first hockey game, and chances are it was on Hockey Night in Canada. Ask the players-male or female-what first got them into the rink, and the answer will be the same: they wanted to be like the players on Hockey Night in Canada.
