Since the dawn of the human race, germs have been making us sick. Whether the ailment is a cold, the flu, diabetes, obesity or certain cancers, the likely cause is germs. Our ancient enemies have four families - bacteria, viruses, fungi, and protozoa - and many names: Ebola, E. coli, salmonella, norovirus, gonorrhea. . . Human beings are engaged in a "war on germs," in which we develop ever-more sophisticated weapons and defensive strategies. But it is a war we can never win. Our best plan for staying as healthy is to choose our battles carefully, and try to co-exist with germs as best we can. The Germ Code is a wise, witty and wonderfully readable guide to our relationship with these infinitesimal but infinitely powerful creatures. Microbiologist Jason Tetro takes us outside the lab and shows the enormous influence of germs upon humanity's past, present and future. He unlocks the mysteries of "the germ code" to reveal how these organisms have exploited our every activity and colonized every corner of the earth. From his own research and personal experience, Tetro relates how the most recent flu pandemic happened, how others may have been averted and how more may come about if we aren't careful. He also explains that not every germ is our foe, and offers advice on harnessing the power of good germs to stay healthy and make our planet a better place. The Germ Code is a fascinating journey through an unseen world, an essential manual to living in harmony with germs and a life-enhancing (as well as life-saving!) good read.

Little House Living

From the immensely popular blogger behind Little House Living comes a motivational homemaking book, inspired by Laura Ingalls Wilder's Little House on the Prairie, featuring creative, fun ways to live your life simply and frugally—perfect for fans of Ree Drummond's The Pioneer Woman. Shortly after getting married, Merissa Alink and her husband found themselves with nothing in their pantry but a package of spaghetti and some breadcrumbs. Their life had hit rock bottom, and it was only after a touching act of charity that they were able to get on their feet again. Inspired by this gesture of kindness as well as the beloved Little House on the Prairie books, Merissa found that a life of self-sufficiency and simplicity could be charming and blissful. She set out to live an entirely made-from-scratch life, the "Little House" way, and as a result, she slashed her household budget by nearly half—saving thousands of dollars a year. She started to write about homesteading, homemaking, and cooking from scratch, and over the next few years developed the recipes and DIY projects that would one day become part of her now beloved website, LittleHouseLiving.com. As whole foods became staples of the family diet, Merissa realized the dangers of putting overly processed ingredients not only into our bodies, but on or near them as well. In addition to

countless delicious, home-cooked meals, she developed natural, easy-to-make recipes for everything from sunscreen to taco seasoning mix, lemon poppy hand scrub to furniture polish. With their simple ingredients, these recipes are allergen friendly and many are gluten-free. With over 130 practical, simple DIY recipes, gorgeous full-color photographs, and Merissa's trademark charm in personal stories and tips, Little House Living is the epitome of heartland warmth and prairie inspiration.

How to be a Victorian - travel back in time with the BBC's Ruth Goodman Step into the skin of your ancestors . . . We know what life was like for Victoria and Albert. But what was it like for a commoner like you or me? How did it feel to cook with coal and wash with tea leaves? Drink beer for breakfast and clean your teeth with cuttlefish? Dress in whalebone and feed opium to the baby? Catch the omnibus to work and do the laundry in your corset? Surviving everyday life came down to the

gritty details, the small necessities and tricks of living . . . How To Be A Victorian by Ruth Goodman is a radical new approach to history; a journey back in time more intimate, personal and physical than anything before. It is one told from the inside out - how our forebears interacted with the practicalities of their world - and it is a history of those things that make up the day-to-day reality of life, matters so small and seemingly mundane that people scarcely mention them in their diaries or letters. Moving through the rhythm of the day, from waking up to the sound of a knocker-upper man poking a stick at your window, to retiring for nocturnal activities, when the door finally closes on twenty four hours of life, this astonishing guide illuminates the overlapping worlds of health, sex, fashion, food, school, work and play. If you liked A Time Traveller's Guide to Medieval England or 1000 Years of Annoying the French, you will love this book. Ruth Goodman is an independent scholar and historian, specialising in social and domestic history. She works with a wide range of museums and other academic institutions exploring the past of ordinary people and their activities. She has presented a number of BBC 2 television series, including Victorian Farm, Edwardian Farm and Wartime Farm. In each of these programs, she spent a year recreating life from a different period. As well as her involvement with the Farm series, Ruth makes frequent appearances on The One Show and Coast.

Genes can be "born dirty" or merely "act dirty" in response to your environment, diet, or lifestyle—causing lifelong, life-threatening, and chronic health problems, including cardiovascular disease, autoimmune disorders, anxiety, depression, digestive issues, obesity, cancer, and diabetes. Patric Richardson, aka the "Laundry Evangelist," reveals his revolutionary methods for cleaning clothes—and making laundry loads more fun. Doing laundry is rarely anyone's favorite task. But to Patric Richardson, laundry isn't just fun—it's a way of life. After years of running Laundry Camp at the Mall of America for thousands of eager learners, he's ready to share his tips, tricks, and hacks—bringing surprise and delight to this commonly dreaded chore. Sorting your laundry? It's not all about whites and darks. Pondering the wash cycles? Every load, even your delicates, should be washed using express or quick-wash on warm. Facing expensive dry cleaning bills? You'll learn how to wash everything—yes everything—at home. And those basically clean but smelly clothes? Richardson has a secret for freshening those too (hint: it involves vodka, not soap). Changing your relationship with laundry can also change your life. Richardson's handy advice shows us how to save time and money (and the planet!) with our laundry—and he intersperses it all with a healthy dose of humor, real-life laundry stories, and lessons from his Appalachian upbringing and career in fashion. Laundry Love will make you wonder why you ever stressed about ironing, dry cleaning, or (god forbid) red wine spills on your new couch. No matter the issue, Richardson is here to help you make laundry miracles happen—wrinkles and stains be damned.
