Father Martin D'Arcy

Who will be next? Though former FBI Special Agent Sloane Burbank once survived a life-threatening injury in the line of duty, she now uses her specialized skills as an independent consultant. But when one of her closest childhood friends mysteriously disappears, Sloane takes the case—even though her ex-lover Derek Parker is the FBI agent in charge. Special Agent Derek Parker has no time to spare for a dead-end case—especially since it would mean working with a woman he never expected to see again. But as more women disappear and others turn up brutally murdered, he and Sloane come to the sickening realization that these random crimes are linked to the same crazed killer, a fiend with a mind so psychotic, so twisted, that it will take everything Sloane has to capture him—even as she becomes his latest target.

Ancient Egypt, 51 B.C. Sisters Arsinoe and Cleopatra face a devastating choice: to allow Rome's army to siphon power from their ailing father, or to take matters-and the dynasty-into their own hands It's the dawn of a new era for Egypt as Cleopatra and her brother, Ptolemy, are welcomed to the throne after their father's death. But joint rule breeds its own conflicts: can the Nile be shared? Long overlooked by his father in favor of the beguiling Cleopatra, Ptolemy is determined to prove his ability as both man and king-but, at eleven, he is no match for his elder sister, who's quick to assert her primacy throughout the land. Their sister Arsinoe is torn between her siblings in one of history's greatest power struggles. As the palace echoes with rumors, scandals and betrayal, Arsinoe's love for her childhood friend Alexander deepens into a forbidden passion that could endanger both their lives. When Cleopatra is forced to flee a rebel uprising, Arsinoe decides she has no choice but to follow her sister into exile. Yet while Cleopatra gathers an army to retake the crown, Arsinoe begins

to doubt whether her sister is the champion Egypt needs. Faced with the choice of betraying her family or her country, Arsinoe will determine a kingdom's fate and the course of history. Essay from the year 2007 in the subject Politics -

International Politics - General and Theories, grade: 1,0, University of Twente (School of Management and Governance), course: International Relations Theory, 9 entries in the bibliography, language: English, abstract: Writing an essay about Andrew Linklater's „The Transformation of Political Community“ is, in light of the pre-eminent praise it received in the academic sphere, a distinct challenge. Is it actually possible to make critical statements about a book, which others have called “one of the most important books in international theory published in this decade”, or even “the most impressive work of international theory to have been produced in Britain since Bull’s Anarchical Society”? The mere quantity of laud is as impressive as its quality. One easily tends to follow this blandishment, and ignores that it is not more than base flattery. Beyond doubt, Linklater has produced a sound book, which has – after his preliminary publications “The Problem of Community in International Relations” in 1990 and “The Question of the Next Stage in International Relations: A Critical-Theoretical Point of View” in 1992 – made him one of the strongest voices in contemporary international relations theory. I hypothesize that “The Transformation of Political Community” has already today, only nine years after its first publication, become a classic of international relations. What defines a classic? Two factors are decisive, and they are the same for a classic in international relations than they are for a classic car: It is cherished by people, and it has a unique selling point, something that differs from everything that has been produced before. Using this definition, an Aston Martin DB 5 is a classic as well as Kenneth Waltz’s “Man, the State,

and War". A classic, as complete and coherent it might be, is not necessarily without problems. Several times, Aston Martin went bankrupt (and was reborn again), and for Waltz's neorealism the sudden and peaceful collapse of the Soviet Union meant the end of its universal validity.

Like most bank managers, Dave Calvin had acquired an irresistible charm that he could switch on whenever he felt the necessity. Underneath it he was cold, calculating, brutal - a perfect murderer. For years he had waited - watching an endless stream of money pass through his hands - knowing that a risk was only worth taking if the reward was justified. And a \$300,000 payroll was justification enough - even for murder
