Kenitra McKenzie lives in Austin with her husband, Caleb and their five year old son, Seth. She is an active member of her church along with her devoted husband and life was a blessed one, but there looms a darkness in the form of Caleb's best friend Dalton Anders. He has resents her ever since she met Caleb in college and even more when their relationship

blossoms into marriage. He goes out of his way to undermine their marriage in anyway possible and despite the many chances Caleb gives him to make amends, but it didnt seem to do any good. Caleb is forced to end his longtime friendship with Dalton for the sake of his marriage and to shield his son from the godly behavior Dalton portrays in view of his son. The decision Caleb makes didnt set too well with Dalton and vows in his heart to somehow get even with the woman who destroyed his friendship with Caleb, but first he had to make it appear he no longer has any resentment toward Kenitra. It is during Seths sixth birthday party that he arranges an air show to set his revenge in motion. Kenitra is devastated when Dalton maliciously murders her beloved husband and his supposedly godson in front of her. He looks at her without any remorse and leaves her for dead after shooting her, but his brutal attempt to kill her fails. He is convicted of murder as well as attempted murder. Kenitra tries to put the pieces of her shattered life back together, but it is nearly impossible when her mother in law constantly blames her for their deaths when they were her life. She began to blame God for all that has happened since He is big enough to have stopped it from ever happening in the first place. Her best friend, Stephanie, who is also Calebs sister, only reminds her of what didnt have any longer. She feels like she has nothing left after this tragedy and turns her back on Most High God and runs from everything that reminds her of the life she once had. Kenitra didnt care about anything or anyone after that and traveled from one place to another till she settles in England. She lives there for years before being led to move to Kennebunk Beach, ME where she meets a teenager named Mercedes Branden after converting an abandoned bar into a health food caf. Mercedes lands a job working for her and introduces her brother the first day of her new job. Philip, a pastor, is immediately drawn to her and soon discovers Kenitra is agnostic and doesnt believe in God, but has no idea she would later become the woman of his dream. Kenitra didnt have any intentions of falling for anyone especially someone like Philip since she resents his religious beliefs, but in time her feelings for him changes and much to her surprise she marries Philip 18 months later. The moral is love does heal a broken heart when God is doing the healing so trust Him with all of your problems because He has the answers.

Baseline Data for Public Education about Alcohol and Highway Safety in Vermont

This study investigated the responses of older, middle-aged, and younger drivers during performance of emergency maneuvers in an interactive driving simulator. Thirty-six drivers, equally distributed among three age groups (20-29; 35-44; 65-74) participated in the 32.2-km (20-mi) simulated drive, during which they encountered four emergency events at two levels of difficulty. Data were also collected in two baseline segments where no emergency events occurred. The emergency events were situations where other vehicles performed unexpected maneuvers: pulling out in front of the subject's car from a side street, and turning left in front of the subject's car at an intersection. Information on driver performance variables, including avoidance behavior and emergency avoidance response time, was collected. None of the age groups differed in avoidance response time, speed, deviation from the speed limit, brake pedal force, or avoidance behavior. Age differences were found in lateral placement at intersections. Older drivers drove further to the right of the lane center than younger and middle-aged drivers. It is believed that this finding is a result of a higher level of defensive

behavior among older drivers. No other differences in driving behavior were found between groups. In this experiment, subjects were not performing turning maneuvers. Future research should be directed, when possible, toward investigating driver behavior when making turning maneuvers across traffic.

Human Factors and Ergonomics have made a considerable contribution to the research, design, development, operation and analysis of transportation systems which includes road and rail vehicles and their complementary infrastructure, aviation and maritime transportation. This book presents recent advances in the Human Factors aspects of Transportation. These advances include accident analysis, automation of vehicles, comfort, distraction of drivers (understanding of distraction and how to avoid it), environmental concerns, in-vehicle systems design, intelligent transport systems, methodological developments, new systems and technology, observational and case studies, safety, situation awareness, skill development and training, warnings and workload. This book brings together the most recent human factors work in the transportation domain, including empirical research, human performance and other types of modeling, analysis, and development. The issues facing engineers, scientists, and other practitioners of human factors in transportation research are becoming more challenging and more critical. The common theme across these sections is that they deal with the intersection of the human and the system. Moreover, many of the chapter topics cross section boundaries, for instance by focusing on function allocation in NextGen or on the safety benefits of a tower controller tool. This is in keeping with the systemic nature of the problems facing human factors experts in rail and road, aviation and maritime research- it is becoming increasingly important to view problems not as isolated issues that can be extracted from the system environment, but as embedded issues that can only be understood as a part of an overall system.

In a dream, have you ever thought God was trying to tell you something? Have you ever awakened from a dream with deep burning conviction, knowing that somehow your dream was going to come to pass? That's the way I felt over five years ago, not long after I had been called to serve as Pastor of the Lees Chapel Missionary Baptist Church. My prayer was for God to give me the gift of witnessing to the lost. So one night in a dream, God showed me the secret. Now I've had many

opportunities to use the tools God gave me that night. The dream is still clear in my mind. I want to share with you some of those vital tools, such as love, prayers, patience, kindness, and endurance. Every Christian believer ought to be witnessing to the lost. It may be one of your family members, a friend, or a coworker. Please don't give up on them too soon. Remember to live a Godly life because the life you live in front of them just might be the only Bible they will ever read.
