The Clique #14: A Tale of Two Pretties

Depicting with humor and insight the pressure to be outwardly perfect, this novel for ages 10-13 shows how one girl develops compassion for her own and others' imperfections. For 13-year-old Isabelle Lee, whose father has recently died, everything's normal on the outside. Isabelle describes the scene at school with bemused accuracy--the self-important (but really not bad) English teacher, the boy that is constantly fixated on Ashley Barnum, the prettiest girl in class, and the dynamics of the lunchroom, where tables are turf in a all-eyes-open awareness of everybody's relative social position. But everything is not normal, really. Since the death of her father, Isabelle's family has only functioned on the surface. Her mother, who used to take care of herself, now wears only lumpy, ill-fitting clothes, cries all night, and has taken every picture of her dead husband and put them under her bed. Isabelle tries to make light of this, but the underlying tension is expressed in overeating and then bingeing. As the novel opens, Isabelle's little sister, April, has told their mother about Isabelle's problem. Isabelle is enrolled in group therapy. Who should show up there, too, but Ashley Barnum, the prettiest, most together girl in class.

Revenge of the Wannabes: A Clique Novel

Out of more than 180 science fiction films produced in the United States between 1950 and 1959, twenty were concerned with the notion of an invasion. Of these, a select number used the invasions as metaphors of issues that were of importance to America at the time, such as assaults upon individuality and marriage and debates about the supremacy of the human race. The invasion may be real (The Day the Earth Stood Still and War of the Worlds), dreamed (Invaders from Mars), or the result of a mental breakdown, as seems to be the case in Invasion of the Body Snatchers. Real or not, all of these massive disturbances to the status quo convey the same anxiety: In the 1950s, many Americans felt that things in their world weren't quite right, and this sense of unease was expressed in the country's art, notably these films. In *Invasions USA: The Essential Science Fiction Films of the 1950s*, Michael Bliss examines movies that stripped away the veneer of normality during a decade often portrayed as the last innocent period in American history. From a boy's nightmares about his alien-controlled parents and a young woman's fears that her fiancé has been replaced by an emotionless alien to an extraterrestrial visitor who comes to warn mankind about its self-destructive ways, the stories of these films offer a variety of messages, both subtle and overt. With detailed discussions and analyses of the films in question, this book examines a unique group of movies with profound messages. By exploring depictions of insecurities—whether personal or political—Bliss shows how science fiction films spoke to American audiences deeply troubled by their circumstances. *Invasions USA* will appeal to science fiction buffs and film aficionados interested in this significant phenomenon in movie and cultural history.

Celebrate one of the earliest science fiction novels by rediscovering Jack Finney's internationally acclaimed *Invasion of the Body Snatchers*—which Stephen King calls a story “to be read and savored for its own satisfactions,” now repackaged with a foreword by #1 New York Times bestselling author, Dean Koontz. On a quiet fall evening in the peaceful town of Mill Valley, California, Dr. Miles Bennell discovers an insidious, horrifying plot. First published in 1955, this classic science fiction thriller about the ultimate alien invasion and the triumph of the

human spirit over an invisible enemy has inspired multiple film adaptations and entertained readers for decades. This repackaged edition features a new cover by Hugo award-winning illustrator, John Picacio and a foreword by New York Times bestselling author, Dean Koontz.

Top of the Feud Chain

How to Lose an Alien in 10 Days

When the first television was demonstrated in 1927, a headline in The New York Times read, "Like a Photo Come to Life." It was a momentous occasion. But the power of television wasn't fully harnessed until the 1950s, when the medium was, as Eric Burns says, "At its most preoccupying, its most life-altering." And Burns, a former NBC News correspondent who is an Emmy-winner for his broadcast writing, knows about the impact of television. *Invasion of the Mind Snatchers* chronicles the influence of television that was watched daily by the baby boomer generation. As kids became spellbound by Howdy Doody and The Ed Sullivan Show, Burns reveals, they often acted out their favorite programs. Likewise, they purchased the merchandise being promoted by performers, and became fascinated by the personalities they saw on screen, often emulating their behavior. It was the first generation raised by TV and Burns looks at both the promise of broadcasting as espoused by the inventors, and how that promise was both redefined and lost by the corporations who helped to spread the technology. Yet Burns also contextualizes the social, cultural, and political events that helped shape the Fifties—from Sputnik and the Rosenberg trial to Senator Joseph McCarthy's Red Scare. In doing so, he charts the effect of television on politics, religion, race, and sex, and how the medium provided a persuasive message to the young, impressionable viewers.

Invasions USA

Invasion of the Body Snatchers (1956) is a low-budget science fiction film that has become a classic. The suspense of the film lies in discovering, along with Miles, the central character (played by Kevin McCarthy), who is "real" and who is not, and whether Miles and Becky (played by Dana Wynter) will escape the pod takeover. As the center of the film moves outward from a small-town group of neighbors to the larger political scene and institutional network (of police, the FBI, hospital workers), the ultimate question is whether "they" have taken over altogether. Although Invasion can be interpreted in interesting ways along psychological and feminist lines, its importance as a text has centered primarily on political and sociological readings. In his introduction to this volume, Al LaValley explores the politics of the original author of the magazine serial story on which the film is based, Don Siegel; and of its screenwriter, Daniel Mainwaring. And he looks at the ways the studio (Allied Artists) tried to neutralize certain readings by tacking on an explanatory frame story. The commentary section includes readings by Stephen King, Peter

Biskind, Nora Sayre, and Peter Bogdanovich. A section of postproduction documents reproduced here (many for the first time) includes many written by Wanger and Siegel. The volume also contains two previously unpublished framing scripts written for Orson Welles. For students and individual enthusiasts, the contextual materials are particularly interesting in showing how crucial the postproduction history of a film can be. A filmography and bibliography are also included in the volume. Al LaValley is the director of film studies at Dartmouth. He is the author of many articles on film and editor of *Mildred Pierce* in the Wisconsin screenplay series.
