talk with his young daughter just home from school—that inspired this chilling tale of what could happen in twenty-five quietly devastating minutes. He writes, "The Children's Story came into being that day. It was then that I really realized how vulnerable my child's mind was —any mind, for that matter—under controlled circumstances. Normally I write and rewrite and re-rewrite, but this story came quickly—almost by itself. Barely three words were changed. It pleases me greatly because I kept asking the questions... Questions like, What's the use of 'I pledge allegiance' without understanding? Like Why is it so easy to divert thoughts? Like What is freedom? and Why is so hard to explain? The Children's Story keeps asking me all sorts of questions I cannot answer. Perhaps you can—then your child will."

The relationship between information and the nation-state is typically portrayed as a face-off involving repressive state power and democratic flows: Twitter and the Arab Spring, Google in China, WikiLeaks and the U.S. State Department. Less attention has been paid to those scenarios where states have regarded information and its diffusion as productive of modernity and globalization. It is the central argument of this book that the contemporary nation-state, especially in the global South, is far from hostile to the current informational milieu and in fact makes crucial use of it in order to develop adequate modes of governance, communication and sociality in a

‘I am not sure that I am a man,’ said Yuvanashva. ‘I have created life outside me as men do. But I have also created life inside me, as women do. What does that make me? Will a body such as mine fetter or free me?’ Among the many hundreds of characters who inhabit the Mahabharata, perhaps the world’s greatest epic and certainly one of the oldest, is Yuvanashva, a childless king, who accidentally drinks a magic potion meant to make his queens pregnant and gives birth to a son. This extraordinary novel is his story. It is also the story of his mother Shilavati, who cannot be king because she is a woman; of young Somvat, who surrenders his genitals to become a wife; of Shikhandi, a daughter brought up as a son, who fathers a child with a borrowed penis; of Arjuna, the great warrior with many wives, who is forced to masquerade as a woman after being castrated by a nymph; of Ileshwara, a god on full-moon days and a goddess on new-moon nights; and of Adi-natha, the teacher of teachers, worshipped as a hermit by some and as an enchantress by others. Building on Hinduism’s rich and complex mythology—but driven by a very contemporary sensibility—Devdutt Pattanaik creates a lush and fecund work of fiction in which the lines are continually blurred between men

and women, sons and daughters, husbands and wives, fathers and mothers. Confronted with such fluidity the reader is drawn into Yuvanashva's struggle to be fair to all—those here, those there and all those in between.
