The intense psychological portrait of a hitman—the anti-Jason Bourne—as he stalks his prey from Boston to LA. He wants you to know him, maybe even admire him, but only for his excellence in his craft. Perhaps he was even born for it. "A natural killer," his mentor—a middleman named Vespucci—said he was. He proved it with his first professional hit: a Fifth Circuit Court judge in Boston, executed with a sheet of Saran Wrap in the stairwell of her own courthouse. He's proved his merit often, usually with a Glock semiautomatic, but he's improvised too, with his bare hands, the heel of a shoe, knives, even a sewing machine. He is the consummate assassin, at the top of his form, immune to the psychological strains of his chosen profession. He is what the Russians call a Silver Bear. He calls himself Columbus. It's the name Vespucci gave him, ten years ago, when he discovered a dark, new

world of fences, clients, marks, jobs, jack. Not that his real name meant much to him anyway. He never knew his father or his mother, a prostitute who became dangerously involved back in the seventies with an earnest young congressman named Abe Mann, then a rising star in the Democratic Party. The magnetic Abe Mann has since become the Speaker of the House. He is currently running for the Democratic nomination in an exhausting presidential campaign, weaving his way across the country. Columbus is not far behind. But as he pieces together his past and prepares the seamless assassination of his mark, the criminal underworld he has always ruled begins unraveling violently around him.

## **Studies in Revelation**

## **Fire Me Up**

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, *The Secret of Our Success* explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

## **Hidden Agendas**

Maverick: Legend of the West is an in-depth look at the classic television series created by Roy Huggins and starring James Garner.

## **The Silver Bear: A Novel (Silver Bear Thrillers)**

This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.

## **The Code Book**

Following the success of his recent book on Navy SEALs in Iraq, The Sheriff of Ramadi, bestselling author and combat veteran Dick Couch now examines the importance of battlefield ethics in effectively combating terrorists without losing the battle for the hearts of the local population. A former SEAL who led one of the only successful POW rescue operations in Vietnam, Couch warns that the mistakes made in Vietnam forty years ago are being repeated in Iraq and Afghanistan, and that the stakes are even higher now. His book takes a critical look at the battlefield conduct of U.S. ground-combat units fighting insurgents in Iraq and Afghanistan. Since the prize of the fight on the modern battlefield is the people, he warns every death has a consequence. Every killing has both strategic and moral significance for U.S. warriors. From his unique and qualified perspective, Couch examines the sources and issues that can lead to wrong conduct on the battlefield, and explains how it comes about and what can be done to correct it. He considers the roles of command intent and the official rules of engagement, but his primary focus is on ethical conduct at the squad and platoon level. Tactical ethics, according to the author's definition, is the moral and ethical armor that should accompany every American warrior into battle, and these standards apply to the engaged unit as well as to the individual. A harsh critic of immoral combat tactics, Couch offers realistic measures to correct these potentially devastating errors. He argues that as a nation, we must do all we can to protect our soldiers' humanity, for their sake, so they can return from service with honor, and for our sake as a people and for

our standing in the world.

## **Forbidden Pleasure**

It was supposed to be simple. All Navy SEAL Nathan Malone had to do was rescue three young girls from a Colombia drug cartel, then allow himself to be captured just long enough to draw out a government spy. That was before his mission went disastrously wrong and before his wife, Bella, was told that Nathan was never

coming home. Bella's mourned her husband's death for three long years. But she has no idea he's still alive. Forced to assume a new identity, the man Nathan was is now dead. If he can get back to his wife, can he keep the secret of who he really is even as desire threatens to consume them? And as danger threatens to tear Bella from Nathan's arms once more?
