Who better to advise you on sex and relationships than a woman who has consistently failed at both? In this laugh out loud funny "self-help novel", self proclaimed genius and author Cathryn Michon provides a how not to guide for anyone tackling the daunting task of finding romance in today's world (or at the local fire station.) Chock full of instructive relationship tips-such as the Pros and "Cons" of dating a man in prison-The Grrl Genius Guide to Sex (With Other People) is hilarious and right on the money both as an instructional guide and an endearingly romantic story about a woman and her four best friends who form The Grrl Genius Club. Armed with the information from Cathryn's Wild Sexual Animal Kingdom research and her "Love is Important but Chocolate is Essential" Chocolate Fun Facts, her posse of Grrl Geniuses struggle with singlehood, married life, sexual

preferences, widowhood, and friendship. Cathryn's journey veers from a "nails-on-chalkboard-scratchingly-awful" divorce and the botched kidnapping of her own dog, to pretending to be a lesbian, seeing her old lingerie sold on her old front lawn by her ex-husband's girlfriend, losing her job, and a tragic industrial accident-level bikini wax. And through everything, Cathryn searches for the answer to the most important relationship question of all: why are all the best men gay? If you've ever been tempted to have sex with another person, this is an essential read. If you've ever felt inadequate to a task or a failure at love or in any way anything less than a genius and you've sunk so low that even a new pair of cute shoes won't help, Cathryn Michon can show you the way to relationship happiness—all you have to do is learn from her very funny mistakes. However badly you think you've done anything, Cathryn has done it even worse, and reveals lessons learned in the wryly witty and devastatingly honest style that has made her the favorite of aspiring geniuses everywhere!

"As novelist and poet Andrei Codrescu points out in the essay that accompanies this selection of photographs from the Getty Museum's collection, Evans's photographs are the work of an artist whose temperament was distinctly at odds with Beals's impassioned rhetoric. Evans's photographs of Cuba were made by a young, still maturing artist who - as Codrescu argues - was just beginning to combine his early, formalist aesthetic with the social concerns that would figure prominently in his later work."--Jacket.

Diaries: Big Light from Small Flashes, legendary magazine photographer Joe McNally takes us on another memorable ride with Sketching Light, another trip into the land of light--but this time running the gamut from small flash to big flash, and everywhere in between. Of course, Joe includes coverage of Nikon Speedlights, but he also covers big flash, as well as "in-between" lights as the Elinchrom Quadra. The exploration of new technology, as well as the explanation of older technology. No matter what equipment Joe uses and discusses, the most important element of Joe's instruction is that it is straightforward, complete, and honest. No secrets are held back, and the principles he talks about apply generally to the shaping and quality of light, not just to an individual model or brand of flash. He tells readers what works and what doesn't via his let's-see-what-happens approach, he shows how he sets up his shots with plentiful sketches and behind-the-scenes production shots, and he does it all with the intelligence, clarity, and wisdom that can only come from shooting in the field for 30 years for the likes of National Geographic, Time, Life, and Sports Illustrated--not to mention the wit and humor of a clearly warped (if gifted) mind.

In 2003, Trent Parke began a road trip around his native Australia, a monumental journey that was to last two years and cover a distance of over 90,000 km. Minutes to Midnight is the ambitious photographic record of that adventure, in which Parke presents a proud but uneasy nation struggling to craft its identity from different cultures and traditions. Minutes to Midnight merges traditional documentary techniques and imagination to create a dark visual narrative portraying Australia with a mix of nostalgia, romanticism and brooding realism. This is not a record of the physical landscape but of an emotional one. It is a story of human anxiety and intensity which, although told from Australia, represents a universal human condition in the world today.

### **Fujifilm Instax Mini 9 Instant Camera User Guide**

A picture-rich field guide to American photography, from daguerreotype to digital. We are all photographers now, with camera phones in hand and social media accounts at the ready. And we know which pictures we like. But what makes a "good picture"? And how could anyone think those old styles were actually good? Soft-focus yearbook photos from the '80s are now hopelessly—and happily—outdated, as are the low-angle portraits fashionable in the 1940s or the

blank stares of the 1840s. From portraits to products, landscapes to food pics, Good Pictures proves that the history of photography is a history of changing styles. In a series of short, engaging essays, Kim Beil uncovers the origins of fifty photographic trends and investigates their original appeal, their decline, and sometimes their reuse by later generations of photographers. Drawing on a wealth of visual material, from vintage how-to manuals to magazine articles for working photographers, this full-color book illustrates the evolution of trends with hundreds of pictures made by amateurs, artists, and commercial photographers alike. Whether for selfies or sepia tones, the rules for good pictures are always shifting, reflecting new ways of thinking about ourselves and our place in the visual world.

## **Canon EOS 5D Mark III For Dummies**

"In this revised and expanded edition of the 1988 classic, which includes new images, Josef Koudelka's work once more forms a powerful document of the spiritual and physical state of exile. Most of the images were taken in Europe during Koudelka's own twenty-year exile from his native Czechoslovakia, starting in 1970, after having left in the wake of photographing the Soviet-led invasion of Prague. The sense of private mystery that fills these photographs speaks of passion and reserve, of his rage to see. Solitary, moving, deeply felt, and strangely disturbing, the images in Exiles suggest alienation, disconnection, and love. Exiles evokes some of the most compelling and troubling themes of the twentieth century, still resonating with equal force during this time of migrations and profound transience."--Book jacket.

## **The Paradox of Choice**

Available for the first time in an accessible paperback edition, this groundbreaking book presents a remarkable selection of contact sheets and ancillary material, revealing how the most celebrated Magnum photographers capture and edit the very best shots. Addressing key questions of photographic practice, the book illuminates the creative methods, strategies, and editing processes behind some of the world's most iconic images. Featured are 139 contact sheets from sixty-nine photographers, as well as zoom-in details, selected photographs, press cards, notebooks, and spreads from contemporary publications including Life magazine and Picture Post. Further insight into each contact sheet is provided by texts

written by the photographers themselves or by experts chosen by the members' estates. Many of the acknowledged greats of photography are featured, including Henri Cartier-Bresson, Elliott Erwitt, and Inge Morath, as well as such members of Magnum's latest generation as Jonas Bendixsen, Alessandra Sanguinetti, and Alec Soth. The contact sheets cover over seventy years of history, from Robert Capa's Normandy landings and the Paris riots of 1968 via Bruno Barbey, to images of Che Guevara by Rene Burri, Malcolm X by Eve Arnold, and portraits of classic New Yorkers by Bruce Gilden.

Parents who know how to be "sports agents" for their children give you the inside scoop on the DIY approach to attracting college volleyball recruiters. Sports recruiting agencies do a great job but can be expensive. A recruiting agency can charge \$3,000 or more and many families do not have this extra income. *Women's College Volleyball Recruiting: A How-to Guide for Parents* by Rich Lancellot and Kim Wheeler is an easy-to-use guide that Wheeler's and Lancellot's daughters used to earn a combined \$190,000 in academic and athletic scholarships. Based on their experiences, they coach you on how to attract the attention of prospective coaches and decide which college is the best fit for your child. Their recruiting guide gives you tips on how student athletes can promote themselves, what camera equipment is needed to obtain quality videos to send to prospective coaches, and more. There are also dos and don'ts, such as watching what your children post on social media and what they can and cannot say at a tournament, and easy to use checklists and other forms to aid parents and players in the recruiting process. Volleyball parents and coaches will both benefit from *Women's College Volleyball Recruiting*. It's your guide to getting your children noticed.

### **The Girl with Seven Names: A North Korean Defector's Story**

Whether we're buying a pair of jeans, ordering a cup of coffee, selecting a long-distance carrier, applying to college, choosing a doctor, or setting up a 401(k), everyday decisions—both big and small—have become increasingly complex due to the overwhelming abundance of choice with which we are presented. As Americans, we assume that more choice means better options and greater satisfaction. But beware of excessive choice: choice overload can make you question the decisions you make before you even make them, it can set you up for unrealistically high expectations, and it can make you blame yourself for any and all failures. In the long run, this can lead to decision-making paralysis, anxiety, and perpetual stress. And, in a culture that tells us that there is no excuse for falling short of perfection when your options are limitless, too much choice can lead to clinical depression. In *The Paradox of Choice*, Barry Schwartz explains at what point choice—the hallmark of individual freedom and self-determination that we so cherish—becomes detrimental to our psychological and emotional well-being. In

accessible, engaging, and anecdotal prose, Schwartz shows how the dramatic explosion in choice—from the mundane to the profound challenges of balancing career, family, and individual needs—has paradoxically become a problem instead of a solution. Schwartz also shows how our obsession with choice encourages us to seek that which makes us feel worse. By synthesizing current research in the social sciences, Schwartz makes the counter intuitive case that eliminating choices can greatly reduce the stress, anxiety, and busyness of our lives. He offers eleven practical steps on how to limit choices to a manageable number, have the discipline to focus on those that are important and ignore the rest, and ultimately derive greater satisfaction from the choices you have to make.
