Exploring Manitoulin

Completely updated to include two new provincial parks created on the island in the last decade, new hiking trails, museums, and attractions, and a number of unique activities and events often missed by visitors.

Your Body on Carbohydrates

Large-scale agriculture tends to view a farm as a means for producing a certain amount of grain, milk or meat. This practical book argues instead for a holistic method of farming: the farm as a living organism. This is the principle of biodynamic farming. The author, an experienced farmer, takes a down-to-earth approach. Based on an example farm of around 60 hectares, he recommends the ideal numbers of livestock: 12 cows, 4 horses, 6 pigs, 10 sheep and 120 hens. This mix is drawn from Osthaus's deep understanding of nature, animals, agriculture and the cosmos, and from his many years of personal experience as a biodynamic farmer and teacher. The result is a healthy, balanced and sustainable farm. This is an invaluable book for anyone considering setting up a farm, or developing their existing farm with new biodynamic methods.

The History of Visual Magic in Computers

Giorgio Manganelli (1922-1990), one of Italy's most radical and original writers, went further than most in exploring the creative possibilities of hybrid genres and open forms. Ostentation, theatricality, and a love of drapery and verbal excess are defining features of his body of work, which ranges from prose fiction, literary criticism, and drama to travel writing, treatises, commentaries, and imaginary interviews. This study examines the wealth of Manganelli's imagination - his grotesque animals, speaking corpses, and melancholy spectres - and argues that his spectacular eloquence was shaped by an exceptional awareness of literary and philosophical models. Following Manganelli's lead, the author addresses issues such as the boundaries of meaningful language, the relationship between literary and visual texts, fantasy and realism, and the power of literature to express the apprehensions and intimations of human consciousness.

Capital Punishment

"In a remarkable tour de force of research, Shelley Pearen reveals the innermost thoughts of the people who assembled 150 years ago to negotiate the future of Manitoulin Island, the world's largest freshwater island. Working with long forgotten letters, reports and accounts written in English, French and Ojibwe. Pearen brings to life the people and events of 1861-63 through the actual words spoken and written by four key participants: William McDougall, head of the government's Indian Affairs department; Sasso Itawashkash, chief of the Sheshegwaning

Anishinaabeg; Jean-Pierre Choné, Jesuit priest at the Holy Cross Roman Catholic Mission in Wikwemikong; and Peter Jacobs, Church of England missionary in Manitowaning, and himself Anishinaabe. For the first time, each of these players is given the stage to explain his own understanding of what actually happened before, during and after the signing of the still-contentious Great Manitoulin Island treaty of 1862. These four voices reveal fascinating personal stories of strengths and frailties."-- from back cover.

The Harvester

Discarded as a child's toy, Jack finds himself forgotten underneath the bed, but when the Plucker, a malevolent spirit, is set loose upon the world, Jack must defend Thomas, the very child who abandoned him.

Pennsylvania Landscape & Nursery

THE STORY: Staged with utmost simplicity, using platforms and a few props, the play probes into the delicate relationship of three singular women: the grandmother, Dorothea, who has sought to assert her independence through strong-willed eccentrici

The Combined Authorities (Mayoral Elections) (Amendment) Order 2019

Deputy coroner Mattie Winston knows everyone in the charmingly small town of Sorenson, Wisconsin--except the latest body discovered in a desolate field. If a woman this attractive had moved into town, the news would have surely hit the gossip mill in record time. So who was the murdered femme fatale? Whose knife was left planted in her chest? The mystery deepens when detective Steven Hurley takes one look at the body and turns as white as the newly fallen snow. . .and excuses himself from the case. It'll take all of Mattie's forensic skills to unravel the increasingly bizarre clues and find the killer. . .before she herself becomes just another cold case in a frigid Midwest winter! "Has it all: suspense, laughter, a spicy dash of romance. . ." --Tess Gerritsen "The funniest deputy coroner to cut up a corpse since, well,

ever." --Laura Levine "Mattie Winston is a likable, humorous heroine. . .lighthearted and fun."

--Romantic Times

Frozen Stiff

A winter blizzard barrels toward Wharton County with a vengeance. Madam Zenya predicted the raging storm would change Kellan's life, but the famed seer never could've prepared him for all the collateral damage. After Nana D disappears, one of her patients turns up dead and a second body is discovered beneath the snowbanks, Kellan must face his worst fears. Between finding Nana D and solving the scandalous murder of another prominent Braxton citizen, Kellan and April's worlds explode with more turmoil than they can handle. Unfortunately, neither one of them knows what to do about the psychic's latest premonition. Can Kellan find Nana D - and who is the killer terrorizing the town?

Eleemosynary

This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of

them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

Nursing Assisting

Gluten is found in wheat and some other grains. It's in foods people eat every day. Many people can eat it without problems. Others have a disease that makes gluten damage their bodies. *Your Body on Gluten* uncovers the nutritional benefits of foods containing gluten, how gluten interacts with the body, and how to include it as part of a balanced diet. Easy-to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

Kimono as Art

This companion title to 32 Activities on Coaching and Mentoring, reflects the prerequisites for a successful mentoring scheme and an effective mentor. The book offers a holistic approach, with help here on understanding mentoring, planning and designing a scheme. A variety of case studies, plus a selection of forms, questions, exercises and photocopiable materials, make this a thoroughly satisfying read.

The Wolverine Way

From farmer Joel Salatin's point of view, life in the 21st century just ain't normal. In FOLKS, THIS AIN'T NORMAL, he discusses how far removed we are from the simple, sustainable joy that comes from living close to the land and the people we love. Salatin has many thoughts on what normal is and shares practical and philosophical ideas for changing our lives in small ways that have big impact. Salatin, hailed by the New York Times as "Virginia's most multifaceted agrarian since Thomas Jefferson [and] the high priest of the pasture" and profiled in the Academy Award nominated documentary Food, Inc. and the bestselling book The Omnivore's Dilemma, understands what food should be: Wholesome, seasonal, raised naturally, procured locally, prepared lovingly, and eaten with a profound reverence for the circle of life. And his message doesn't stop there. From child-rearing, to creating quality family time, to respecting the environment, Salatin writes with a wicked sense of humor and true storyteller's knack for

the revealing anecdote. Salatin's crucial message and distinctive voice--practical, provocative, scientific, and down-home philosophical in equal measure--make FOLKS, THIS AIN'T NORMAL a must-read book.

LEGO Legends of Chima #3: Chi Quest!

China Power Sector

The devil has used the dragnet of witchcraft to hold on to the world. The revival of satanism on the face of the earth is a sign of desperation. Right now the children of darkness have opened their doors to train men in wickedness. There is an enemy that hates mankind and his progress with perfect hatred. This enemy is known as witchcraft. To confront this spirit, we must be ruthless towards it. Operation Jehu is catch and destroy, throw and destroy, cage and destroy.

Angels and Demons in Art

The first major book on Japanese textile artist Itchiku Kubota, published to accompany a touring exhibition.

The Eloquence of Ghosts

China's power sector experienced accelerated growth after the mid - 1980s, with surging demand for electricity boosted by increased investment and residential consumption, both associated with market reforms. This report examines new opportunities to foreign investors.

Nuclear Energy

Presents both sides of three issues concerning nuclear energy: using nuclear energy for electricity, building nuclear weapons, and disposing of radioactive waste.

The Rural Life

Carbohydrates give the body energy. They are in many foods people eat each day. But some carbohydrates are healthier than others. Your Body on Carbohydrates uncovers the nutritional benefits of carbohydrates, how they interact with the body, and how to include them as part of a balanced diet. Easy-

to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

Salad Bar Beef

The former member of the New York Times editorial board offers a collection of essays that illuminate the beauty of the American landscape. With an eloquence unmatched by any other living writer, Verlyn Klinkenborg observes the juncture at which our lives and the natural world intersect. His yearlong meditation on the rigors and wonders of country life—encompassing memories of his family’s Iowa homestead, time spent in the wide-open spaces of the American West, and his experiences on the small farm in upstate New York where he lives with his wife—abounds with various pleasures for the readers as it indelibly records and elaborates the everyday beauty of the world we inhabit. A New York Times Notable Book of the Year A Book Sense 76 Pick “Captivating, subtle, and splendid . . . Klinkenborg really is a Thoreau for today . . . Nonfiction storytelling at its highest: unflaggingly lovely, with scope, profundity, and power achieved through a mastering of the delicate.” —Kirkus Reviews “In a voice reminiscent of E. B. White, Klinkenborg paints a picture of a fading world in colors that are solid and authentic. His joy is evident throughout.” —Los

Angeles Times “Arresting, even profound, forcing us to look at the world in a new way.” —Chicago Tribune

The Mentoring Manual

In three paperback volumes, the Grene and Lattimore editions offer a selection of the most important and characteristic plays of Aeschylus, Sophocles, and Euripides from the nine-volume anthology of The Complete Greek Tragedies. Over the years these authoritative, critically acclaimed editions have been the preferred choice of more than three million readers for personal libraries and individual study as well as for classroom use.

The Span Cookbook: A Practical Guide to Accessing Span

As a leading Confederate general, Braxton Bragg (1817–1876) earned a reputation for incompetence, for wantonly shooting his own soldiers, and for losing battles. This public image established him not only as a scapegoat for the South's military failures but also as the chief whipping boy of the Confederacy. The strongly negative opinions of Bragg's contemporaries have continued to color assessments of the general's military career and character by generations of historians. Rather than take these assessments at face value, Earl J. Hess's biography offers a much more balanced account of Bragg, the man and the officer. While Hess analyzes Bragg's many campaigns and battles, he also emphasizes how his contemporaries viewed his successes and failures and how these reactions affected Bragg both personally and professionally. The testimony and opinions of other members of the Confederate army--including Bragg's superiors, his fellow generals, and his subordinates--reveal how the general became a symbol for the larger military failures that undid the Confederacy. By connecting the general's personal life to his military career, Hess positions Bragg as a figure saddled with unwarranted infamy and humanizes him as a flawed yet misunderstood figure in Civil War history.

Greek Tragedies

Advocates the "salad bar beef production model" that is supposed to be "land and farmer friendly."

Frozen Stiff Drink (Braxton Campus

Mysteries Book 6)

Glutton, demon of destruction, symbol of slaughter, mightiest of wilderness villains... The wolverine comes marked with a reputation based on myth and fancy. Yet this enigmatic animal is more complex than the legends that surround it. With a shrinking wilderness and global warming, the future of the wolverine is uncertain. *The Wolverine Way* reveals the natural history of this species and the forces that threaten its future, engagingly told by Douglas Chadwick, who volunteered with the Glacier Wolverine Project. This five-year study in Glacier National Park - which involved dealing with blizzards, grizzlies, sheer mountain walls, and other daily challenges to survival - uncovered key missing information about the wolverine's habitat, social structure and reproduction habits. Wolverines, according to Chadwick, are the land equivalent of polar bears in regard to the impacts of global warming. The plight of wolverines adds to the call for wildlife corridors that connect existing habitat that is proposed by the Freedom to Roam coalition.

McKetrick's Choice

This McKetrick brother was ready for trouble, but not for her... Don't miss this reader favorite from #1 New York Times bestselling author Linda Lael Miller. When news arrived that there was trouble back in Texas, Holt McKetrick left a mail-order bride and his family on the spot. He just prayed he'd be in time to save the man who had raised him as a son and keep his

best friend from the gallows. He knew he'd encounter rustlers, scoundrels and thieves, but he'd never expected to find a woman like Lorelei Fellows. Setting fire to her wedding dress in the town square probably wasn't the best way to stand her ground. But Lorelei had had enough. She was sick of men and their schemes. All she wanted was to stake her claim on her own little piece of Texas. And with Holt McKetrick as a neighbor, things were changing faster than she'd expected. The man was a straight shooter with a strong will, a steady aim and a hungry heart... Originally published in 2005

Farm 1 2 3

Mrs. Gene Stratton-Porter's novel is an illustration of the harmony and intimacy which does rightly exist between a man and a forest. In ' The Harvester ' she has not only dramatized, but proved the purifying and preservative forces that are always present and predominant in such a situation. This is why the story is so popular. It is utterly simple, nothing in the plot to appeal to morbid interest or curiosity. We really prefer what is good and clean in man and in nature if we can get it portrayed in fiction.

Introduction to Agricultural Engineering Technology

This title examines the history of the Washington Redskins, telling the story of the franchise and its top players, greatest games, and most thrilling moments. This book includes informative sidebars, high-energy

photos, a timeline, a team file, and a glossary. SportsZone is an imprint of Abdo Publishing Company.

Folks, This Ain't Normal

Capital Punishment examines all aspects of capital punishment in the United States. It discusses the history behind the death penalty in the United States and varying opinions about the ethics of capital punishment. Features include a glossary, further readings, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO.

Braxton Bragg

If you have ever looked at a fantastic adventure or science fiction movie, or an amazingly complex and rich computer game, or a TV commercial where cars or gas pumps or biscuits behaved liked people and wondered, "How do they do that?", then you've experienced the magic of 3D worlds generated by a computer. 3D in computers began as a way to represent automotive designs and illustrate the construction of molecules. 3D graphics use evolved to visualizations of simulated data and artistic representations of imaginary worlds. In order to overcome the processing limitations of the computer, graphics had to exploit the characteristics of the eye and brain, and develop visual tricks to simulate realism. The goal is to create graphics images that will overcome the visual cues that cause disbelief and

tell the viewer this is not real. Thousands of people over thousands of years have developed the building blocks and made the discoveries in mathematics and science to make such 3D magic possible, and *The History of Visual Magic in Computers* is dedicated to all of them and tells a little of their story. It traces the earliest understanding of 3D and then foundational mathematics to explain and construct 3D; from mechanical computers up to today's tablets. Several of the amazing computer graphics algorithms and tricks came of periods where eruptions of new ideas and techniques seem to occur all at once. Applications emerged as the fundamentals of how to draw lines and create realistic images were better understood, leading to hardware 3D controllers that drive the display all the way to stereovision and virtual reality.

A Voyage to the North Pacific and a Journey Through Siberia

Entertaining can be intimidating not only for the novice, but the seasoned host as well. *Fearless Entertaining*, with more than four hundred beautiful photographs and easy-to-follow tips, covers the essential elements of any successful gathering while emphasizing the importance of staying relaxed, having fun, and enjoying your own event. You will find yourself often referring to this book as you plan and create each celebration, including direction on flowers, invitations, table settings, menus, and recipes.

Four Voices

A Voyage to the North Pacific and a Journey Through Siberia - More Than Half a Century Ago is an unchanged, high-quality reprint of the original edition of 1861. Hansebooks is editor of the literature on different topic areas such as research and science, travel and expeditions, cooking and nutrition, medicine, and other genres. As a publisher we focus on the preservation of historical literature. Many works of historical writers and scientists are available today as antiques only. Hansebooks newly publishes these books and contributes to the preservation of literature which has become rare and historical knowledge for the future.

The Biodynamic Farm

Body systems-based textbook to train nursing assistants to work in long-term care

The Plucker

The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan,

Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, *Steak* is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

Fearless Entertaining

Once a pristine, natural paradise, CHIMA has become a battle ground for eight animal tribes. Best friends are now enemies. The animals fight for control of a natural resource called CHI, a powerful element that is both a source of life and potential destruction. Only a few brave heroes in CHIMA understand the true nature of CHI, and the possible downfall of CHIMA that will result from its misuse. Their stories, and the stories of those who seek to destroy them, are known as THE LEGENDS OF CHIMA. The third volume in the hit series continues the adventures of Laval and his fellow members of the Lion tribe as they fight against Prince Cragger & the Crocodile tribe to preserve the balance of the mysterious force known as Chi.
