Learn C on the Mac

Mystery series debut: Newly arrived in Arizona, Kate finds her hideaway shattered by the murder of two tourists—and Kate fears she may be next. Dudley, Arizona, is an isolated desert town that attracts people who need to escape: Kate Waters flees there following an abusive relationship and Phoenix cop Malcolm MacGregor comes to recover from the death of his wife. No one knows why Carrie and Wes Cooper arrived. But when they are shot dead, the police try to protect the tourist trade by making a quick arrest—without asking too many questions. Having met Carrie briefly, Kate is still unsettled by the encounter—and convinced that the wrong man has been arrested for the crime. Was the shooting random, or is there something in the victims' history back east that would explain it? When she teams up with Malcolm MacGregor, Kate uncovers disturbing links between her own past and Carrie's. Is Kate herself at risk? The first in the Kate Waters series by the author of the Chloe Newcomb mysteries.

Working with Tile

This comprehensive, practical guide explores how contemporary furniture is used within interior design to define a space, create division and enclosure, and alter or redefine circulation. Initial chapters illustrate the different contexts in which furniture is used, from the office and domestic interiors to retail and exhibition space; look at types of furniture, whether off-the-shelf or bespoke; and explore the new vogue for recycling and vintage. Later chapters examine both traditional materials such as wood and the more unusual such as stone and glass, while also explaining new methods of manufacture - such as Computer Numerical Controlled and Selected Laser Sintering. The final chapter looks at how a design is developed, the site surveyed, prototypes made and specifications and schedules drawn up. Furniture for Interior Design is a detailed, highly illustrated guide to specifying and placing existing manufactured furniture, but also shows the reader how to design, detail, and commission batch-produced furniture or one-off, site-specific pieces.

The Art of Segmented Woodturning

YOU CAN'T MAKE THIS STUFF UP! Here is a hilarious collection that catches real-life knuckleheads in outrageous acts of brazen stupidity, giving new meaning to that famous four-letter word: "DUH"! * The Oregon resident who was waxing his 1984 Pontiac--and somehow managed to shove the antenna up his nose . . . GRANDMOTHER OF EIGHT MAKES HOLE IN ONE * The Atlanta Braves pitcher who was treated for five-inch-long welts after he tried to iron his polo shirt while wearing it . . . MINERS REFUSE TO WORK AFTER DEATH * The inmate at a Chesapeake Correctional Facility who filed a five million dollar lawsuit against himself . . . DRUNK GETS NINE MONTHS IN VIOLIN CASE * The woman who couldn't stand the discomfort of having a callus on her right foot, so she blew off her big toe with a shotgun . . . Radio personality John "Kato" Machay's lively compilation of news stories, headlines, and courtroom gaffes proves hands down that truth is

dumber than fiction! REMEMBER: To err may be human, but to laugh out loud is divine.

Times change and so has the world of tiling since the original publication of the bestselling *Working with Tile* in 2005. Advances in technology and research have brought new installation products and tools to the market, including waterproofing membranes, backerboards, grouts, and cutting tools. Design elements have also seen a dramatic shift with the emergence of glass and stone launching a new era of creativity. DIYers will welcome this completely revised and updated edition, which combines easy-to-follow installation techniques and the latest design ideas. Two all-new sections focus on grouting (which can make or break any job) and working with porcelain and glass tile (a daily challenge to tile and shower door installers and plumbers). Remodelers looking to master small-scale tile projects such as adding a backsplash or retiling a powder-room floor will refer often to the expert advice and over 370 updated photos.

The JF/J2F "Duck" was one of those military workhorses moving around in the background before and during WWII which did a tremendous job but never got the publicity of its' more glamorous teammates. Some said the Duck could be more aptly named the "Ugly Duckling." Be that as it may; when no other bomber could be found, it carried bombs; when no other transport could be found, it transported; when no other photo plane could be found, it photographed and when no other rescuer could be found, it rescued. When it came to "Utility Craft," the JF/J2F was the definitive.

The major motion picture from 20th Century Fox starring Ewan McGregor, Cameron Diaz and Holly Hunter hits the box office in October.
