## Financial Accounting for MBAs

Kimmel & Weygandt's Survey of Accounting, 1st Edition provides a simple and practical introduction to financial and managerial accounting. It explains accounting concepts without the use of debits and credits, while emphasizing the importance of financial statements and decision making. The focus on financial statements begins in the first two chapters of the textbook and continues in other chapters with clear illustrations that explain how accounting transactions impact financial statements. Grounded in the Kimmel/Weygandt family of products, Survey of Accounting has a student-friendly writing style, exceptional visual pedagogy, and relevant and easy-to-understand examples. Kimmel & Weygandt's Survey of Accounting is ideally suited for a one-semester introductory accounting course that follows a non-debits and credits approach.

## Managerial Accounting

With this 5th edition, readers will acquire a practical set of tools and the confidence they need to use them effectively in making business decisions. The authors follow a "macro- to micro-" strategy by starting with a discussion of real financial statements first, rather than starting with the Accounting Cycle. The objective is to establish how a financial statement communicates the financing, investing, and operating activities of a business to users of accounting information. This motivates readers by grounding the discussion in the real world, showing them the

relevance of the topics covered to their careers. New content features such as a fresh and focused approach to Excel, "People, Profit, Planet", a revised continuing managerial case, and new managerial accounting videos will also engage students and differentiate Kimmel Accounting 5e from the prior edition.

## **Accounting for Managers**

### **Managerial Accounting**

For undergraduate and graduate Auditing, Professional Research Case or capstone courses. Step through real auditing cases one by one in this comprehensive text. Auditing Cases, through a unique active learning approach, provides a comprehensive case book focusing on various auditing activities. Students learn to think critically and develop their interpersonal skills, which are increasingly important in the workplace. The fifth edition includes several new and updated cases.

### **Financial Accounting**

Accounting for Managers explains how accounting information is used by non-financial managers. The book emphasises the interpretation, rather than the construction, of accounting information and encourages a critical, rather than unthinking acceptance, of the underlying assumptions behind accounting. It links theory with practical examples and case studies drawn from real life business situations in service, retail and manufacturing industries.

### **The British National Bibliography**

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.

### **Auditing Cases**

In Compensation and Benefit Design , Bashker D. Biswas shows exactly how to bring financial rigor to the crucial "people" decisions associated with compensation and benefit program development. This comprehensive book begins by introducing a valuable Human Resource Life Cycle Model for considering compensation and

benefit programs. Next, Biswas thoroughly addresses the acquisition component of compensation, as well as issues related to general compensation, equity compensation, and pension accounting. He assesses the full financial impact of executive compensation programs and employee benefit plans, and discusses the unique issues associated with international HR systems and programs. This book contains a full chapter on HR key indicator reporting, and concludes with detailed coverage of trends in human resource accounting, and the deepening linkages between financial and HR planning. Replete with both full and "mini" case examples throughout, the book also contains chapter-ending exercises and problems for use by students in HR and finance programs. As HR managers are under intense pressure to become strategic business partners. Many, unfortunately, lack the technical skills in financial analysis to succeed in this role. Now, respected HR management educator Dr. Steven Director addresses this skill gap head-on. Writing from HR's viewpoint, Director covers everything mid-level and senior-level HR professionals need to know to formulate, model, and evaluate their HR initiatives from a financial and business perspective. Drawing on his unsurpassed expertise working with HR executives, he walks through each crucial financial issue associated with strategic talent management, including the quantifiable links between workforces and business value, the cost-benefit analysis of HR and strategic financial initiatives, and specific issues related to total rewards programs. Unlike finance books for non-financial managers, Financial Analysis for HR Managers focuses entirely on core HR issues.

More than ever before, HR practitioners must empirically demonstrate a clear link between their practices and firm performance. In Investing in People , Wayne F. Cascio and John W. Boudreau show exactly how to choose, implement, and use metrics to improve decision-making, optimize organizational effectiveness, and maximize the value of HR investments. They provide powerful techniques for looking inside the HR "black box," implementing human capital metrics that track the effectiveness of talent policies and practices, demonstrating the logical connections to financial and line-of-business, and using HR metrics to drive more effective decision-making. Using their powerful "LAMP" methodology (Logic, Analytics, Measures, and Process), the authors demonstrate how to measure and analyze the value of every area of HR that impacts strategic value.
