Here, Volkswagen enthusiast and prolific author Richard Copping examines, for the first time, the complete story of the T4 from the Transporter concept originated forty years before its presence at VW's Hanover factory, through its development period and full production life. Topics covered include: the background story 1949-1990; design concept to production in the 1980s; full analysis of the T4's specifications; face-lifted Caravelles and Multivans from 1996 onwards; petrol- and diesel-aspirated

engines including the VR6, V6 and 2.5 litre TDI; the T4 story in the USA - the Euro Van and finally camping conversions. The complete story of the Volkswagen T4, produced between 1990 and 2003 and the first book in the English language to have been written, illustrated and published solely about the T4, beautifully illustrated with 300 colour photographs - a sparkling mixture of archive and modern-day imagery.

successor, the 'Bay'. Now, however, the T3, also variously called the T25, 'Wedge' or [less flatteringly] the 'Brick', is well and truly established as part of the classic VW scene. In part, this has been down to the soaring prices and limited availability of the earlier models, but perhaps too the T3 has finally been recognized as a worthy successor to those venerable classics, and maybe even cherished as the last of the air-cooled Volkswagens. Topics covered: Background story, 1949-1979. Design concept to production, 1973-1979. Full analysis of the T3's specifications. Air-cooled, diesel and water-cooled engines. Four-wheel-drive and luxury passenger-carrying models. Camping conversions.
