Masa muda adalah masa yang paling indah. Ya, karena masa muda adalah masa di mana kita dipenuhi asa dan cita. Begitu besar energi yang dimiliki anak muda. Begitu banyak waktu yang masih dipunyai anak muda. Lalu, masa muda seperti apa yang sedang kamu jalani sekarang? Masa muda adalah masa untuk menabung kesuksesan di masa depan. Apa yang kamu lakukan hari ini, akan kamu tuai hasilnya di kemudian hari. Jangan salah memilih idola, kawan. Bukan selebriti luar atau dalam negeri, bukan pula pemimpin atau sejarawan dunia, tapi Nabi Muhammad -lah yang harus dijadikan tauladan bagi para pemuda. Mari temukan kesuksesanmu sedari muda dengan 9 jurus teladan Rasulullah yang dikupas tuntas dalam buku ini.

### **Teach Yourself**

Still battling her personal demons, Miranda Moore, a former FBI trainee now a member of a local search-and-rescue team and the only survivor of a brutal serial killer known as the Butcher, embarks on an uneasy alliance with an FBI agent--and former lover--to race against time to stop the man who had once tortured her and who is waiting to destroy the one who had gotten away. Original.

### **Foundations in Sound Design for Interactive Media**

Physics is naturally expressed in mathematical language. Students new to the subject must simultaneously learn an idiomatic mathematical language and the content that is expressed in that language. It is as if they were asked to read *Les Misérables* while struggling with French grammar. This book offers an innovative way to learn the differential geometry needed as a foundation for a deep understanding of general relativity or quantum field theory as taught at the college level. The approach taken by the authors (and used in their classes at MIT for many years) differs from the conventional one in several ways, including an emphasis on the development of the covariant derivative and an avoidance of the use of traditional index notation for tensors in favor of a semantically richer language of vector fields and differential forms. But the biggest single difference is the authors'

integration of computer programming into their explanations. By programming a computer to interpret a formula, the student soon learns whether or not a formula is correct. Students are led to improve their program, and as a result improve their understanding.

### **Your Personality Tree**

Don't say a word. . . . Just scream. The murder of eighteen-year-old Angie Vance was exceptionally vile—her mouth was sealed with glue, an obscenity was scrawled across her skin, and she was suffocated in a garbage bag. The killing seems personal, so police detective Carina Kincaid focuses her efforts on the victim's much older ex-boyfriend, Steve Thomas. But without physical evidence, Carina can't make a collar or a case. She also can't stop Sheriff Nick Thomas, the prime suspect's brother, from conducting his own unwelcome investigation. Though Nick is still scarred and unsteady from a recent confrontation with a serial killer, he's determined to prove his brother's innocence. But his confidence is shaken when he learns of Steve's dark side, and when a friend of the murdered girl meets a similarly gruesome fate. With no time to lose, Carina and Nick work together to

trap a psychopath, before another unlucky woman faces an unspeakable end.

### **All Things Must Fight to Live**

In *All Things Must Fight to Live*, Bryan Mealer takes readers on a harrowing two-thousand mile journey through Congo, where gun-toting militia still rape and kill with impunity. Amidst burnt-out battlefields where armies still wrestle for control, into the dark corners of the forests, and along the high savanna, where thousands have been slaughtered and quickly forgotten, Mealer searches for signs that Africa's most troubled state will soon rise from ruin. At once illuminating and startling, *All Things Must Fight to Live* is a searing portrait of an emerging country facing unimaginable upheaval and almost impossible odds, as well as an unflinching look at the darkness that continues to exist in the hearts of men. It is non-fiction at its finest-powerful, moving, necessary.

Killing Freud takes the reader on a journey through the 20th century, tracing the work and influence of one of its greatest icons, Sigmund Freud. A devastating critique, Killing Freud ranges across the strange case of Anna O, the hysteria of Josef Breuer, the love of dogs, the Freud industry, the role of gossip and fiction, bad manners, pop psychology and French philosophy, figure skating on thin ice, and contemporary therapy culture. A map to the Freudian minefield and a masterful negotiation of high theory and low culture, Killing Freud is a witty and fearless reevaluation of psychoanalysis and its real place in 20th century history. It will appeal to anyone curious about the life of the mind after the death of Freud.

Kitab al-Amwal (The Book of Revenue) is the work of a brilliant legal mind. Abu Ubayd al-Qasim ibn Sallam provides us with an accurate record of legal precedents laid down in the first two centuries of Islam, in particular those pertaining to the sources of revenue and the avenues of public expenditure. The power of the book, however, lies in the method of the author and the analysis undertaken by him. He gathers together the traditions of the Prophet (pbuh), the opinions of his companions and the views of eminent jurists, and then subjects them to legal analysis that is unparalleled in Islamic legal literature. This book, now in paperback, is essential for every student of Islamic law, especially those who wish to master the art of interpreting and analyzing legal traditions and early precedents. In the discipline known as fiqh al-sunnah, there is no book or manual that can compete with this outstanding work.
