Construction Contract Administration

"BLOOD AND EARTH is a gripping account of the deadly link between slavery and environmental destruction. Kevin Bales is a social scientist, human rights activist,

and journalist -- and he's also one of the world's leading experts on modern slavery. In his work he began to notice the connection between environmental decline and slavery: the two almost always went hand-in-hand, whether in the hellish gold mines of Ghana or the miraculously beautiful mangrove forests of Bangladesh. But why? He set off to find the answer on a fascinating and moving journey that took him into the lives of modern day slaves and along a supply chain that leads directly to the cell phones in our pockets. He found solutions that redeemed both the lives of the slaves in the world's most threatened places and the environments they live in. This is a clear-eyed, inspiring, and profoundly hopeful book that brings us dramatic stories from the world's environmental and human rights hotspots and offers solutions to our most pressing crises"--

The Hacker Crackdown

James Bond (2020) #1

Provides teachers with a collection of games and activities that bring to participants of all ages and at all levels the chance to acquire and perfect swimming skills and to develop techniques of rescue and survival.

The Voyage of the Jeannette

Although there are other scientific means of dating climatic and environmental events, dendrochronology provides the most reliable of all palaeorecords. This comprehensive text addresses all of the subjects that a reader who is new to the field will need to know and will be a welcome reference for practitioners at all levels. It includes a history of the discipline, biological and ecological background, principles of the field, basic scientific information on the structure and growth of trees, the complete range of dendrochronology methods, and a full description of each of the relevant subdisciplines.

A State of Life

An Incomplete Education

For the aficionado of farm equipment, or the scion of an old farming family nostalgic for the old days, or the grown-up boy who still loves a classic piece of old-time machinery, the vintage tractor can be a thrilling find like no other. This book tells dozens of stories of such discoveries, of the treasured old tractor parked in a shed since 1927, of the pristine model unearthed at an estate sale, of the broken-

down old beauty stashed in a barn where generations of children have made their secret hideaways. These are the classic tractors that are often as hard to find as a needle in a haystack—but far more fun to discover, as all of these delightful stories make abundantly clear.

The Tractor in the Haystack

Stay organized this school season with the Ultimate Teacher's Planner and Organizer! Includes 150 high-quality pages with carefully crafted journal and planner layouts that cover everything from daily, weekly and monthly planning, yearly school overview, class field trips, student attendance records, note sections for EQ/I Can, events, meetings and more! Sized at 8x10, it's the perfect size that provides plenty of space. Professionally printed on high quality interior stock with white interior pages. Some of the layouts include: ♦ Weekly, Monthly & Yearly Planner Pages ♦ Student Information ♦ Classroom Expenses ♦ Curriculum Planning with EQ/I Can Note Sections ♦ Parent Contact Information ♦ Student Birthday Records ♦ School Holidays ♦ Field Trip Planner ♦ Assignment Trackers ♦ Daily Roll Call Pages ♦ Specialized Daily Planners ♦ Weekly Overview ♦ Class Project Planner ♦ Daily Class Organizer ♦ Classroom Reading Logbook ♦ And many more! This teacher notebook or journal makes a great gift for the teacher or home schooler in your life. This Premium Teacher Planner is perfect for: - Teacher Appreciation Gifts - Teacher End of the School Year Gifts - Teacher Thank You Gifts

- Good Luck Gift to New Teachers

Pipe Dreams

The study of what is collectively labeled “New Media”—the cultural and artistic practices made possible by digital technology—has become one of the most vibrant areas of scholarly activity and is rapidly turning into an established academic field, with many universities now offering it as a major. The Johns Hopkins Guide to Digital Media is the first comprehensive reference work to which teachers, students, and the curious can quickly turn for reliable information on the key terms and concepts of the field. The contributors present entries on nearly 150 ideas, genres, and theoretical concepts that have allowed digital media to produce some of the most innovative intellectual, artistic, and social practices of our time. The result is an easy-to-consult reference for digital media scholars or anyone wishing to become familiar with this fast-developing field.

Belts and Chains

100 Silent Films provides an authoritative and accessible history of silent cinema through one hundred of its most interesting and significant films. As Bryony Dixon contends, silent cinema is not a genre; it is the first 35 years of film history, a complex negotiation between art and commerce and a union of creativity and technology. At its most grand – on the big screen with a full orchestral accompaniment – it is magnificent, permitting a depth of emotional engagement rarely found in other fields of cinema. Silent film was hugely popular in its day, and its success enabled the development of large-scale film production in the United States and Europe. It was the start of our fascination with the moving image as a disseminator of information and as mass entertainment with its consequent celebrity culture. The digital revolution in the last few years and the restoration and reissue of archival treasures have contributed to a huge resurgence of interest in silent cinema. Bryony Dixon's illuminating guide introduces a wide range of films of the silent period (1895–1930), including classics such as *The Birth of a Nation* (1915), *The General* (1926), *Metropolis* (1927), *Sunrise* (1927) and *Pandora's Box* (1928), alongside more unexpected choices, and represents major genres and directors of the period – Griffith, Keaton, Chaplin, Murnau, Sjöström, Dovzhenko and Eisenstein – together with an introductory overview and useful filmographic and bibliographic information.

Other People's Money

Many species of fish occupying inland waters reside in watersheds that were or still are surrounded by forests and are dependent in major ways upon such cover. The interactions between fishes and forests are complex, multifaceted, dynamic processes involving most inland surface waters, forests, subsurface waters, geology and soils, climate and its changes, and the biotic components of the relevant ecosystems. These interactions also include the aspects of forestry tied to human development, economics, population growth and even philosophies. *Fishes and Forestry* is truly a landmark publication. The editors, Professors Northcote and Hartman, have drawn together and carefully edited chapters written by 56 scientists from around the world, covering a vast wealth of information never before appearing within the covers of one book. Following an introductory chapter, this exceptional work is broadly divided into sections covering: the ecology of forests, streams, lakes and estuaries; fish biology and ecology; forestry activities and their effects on aquatic systems and fishes; 14 chapters covering examples of fish-forestry interactions from around the world and a final section covering means of effecting better fish-forestry interactions. *Fishes and Forestry* is an essential purchase for all those involved in inland fisheries, forestry and their interaction, including fisheries scientists, fish biologists, ecologists, environmental scientists and forestry scientists. Libraries in all universities and research establishments where these subjects are studied and taught should have several copies on their shelves.

The Johns Hopkins Guide to Digital Media

A prophetic memoir by the activist who “articulated the intellectual foundations” (The New Yorker) of the civil rights and women’s rights movements. First published posthumously in 1987, Pauli Murray’s *Song in a Weary Throat* was critically lauded,

winning the Robert F. Kennedy Book Award and the Lillian Smith Book Award among other distinctions. Yet Murray's name and extraordinary influence receded from view in the intervening years; now they are once again entering the public discourse. At last, with the republication of this "beautifully crafted" memoir, *Song in a Weary Throat* takes its rightful place among the great civil rights autobiographies of the twentieth century. In a voice that is energetic, wry, and direct, Murray tells of a childhood dramatically altered by the sudden loss of her spirited, hard-working parents. Orphaned at age four, she was sent from Baltimore to segregated Durham, North Carolina, to live with her unflappable Aunt Pauline, who, while strict, was liberal-minded in accepting the tomboy Pauli as "my little boy-girl." In fact, throughout her life, Murray would struggle with feelings of sexual "in-betweenness"—she tried unsuccessfully to get her doctors to give her testosterone—that today we would recognize as a transgendered identity. We then follow Murray north at the age of seventeen to New York City's Hunter College, to her embrace of Gandhi's Satyagraha—nonviolent resistance—and south again, where she experienced Jim Crow firsthand. An early Freedom Rider, she was arrested in 1940, fifteen years before Rosa Parks' disobedience, for sitting in the whites-only section of a Virginia bus. Murray's activism led to relationships with Thurgood Marshall and Eleanor Roosevelt—who respectfully referred to Murray as a "firebrand"—and propelled her to a Howard University law degree and a lifelong fight against "Jane Crow" sexism. We also read Betty Friedan's enthusiastic response to Murray's call for an NAACP for Women—the origins of NOW. Murray

sets these thrilling high-water marks against the backdrop of uncertain finances, chronic fatigue, and tragic losses both private and public, as Patricia Bell-Scott's engaging introduction brings to life. Now, more than thirty years after her death in 1985, Murray—poet, memoirist, lawyer, activist, and Episcopal priest—gains long-deserved recognition through a rediscovered memoir that serves as a “powerful witness” (Brittney Cooper) to a pivotal era in the American twentieth century.

Looks at the the rise and fall of Enron, tracing the company's transformation from a small gas pipeline firm into a global conglomerate and the reasons why Enron ultimately failed.

Fishes and Forestry

A trace element (TE) is a chemical element presented below ~ 0.1 wt. % and required in minute quantities to maintain proper physical functioning. TE analysis in clinical samples (plasma, urine, cerebro-spinal fluid, full-term placenta, hair, nails, buccal mucosa, semen, biopsy specimens) has received increasing attention. Based on 62 sources, current effort presents comparative knowledge about the attempts to accurately trace TE in clinical samples through Vis/NIR, PIXE, TXRF, GFAAS, ICP-MS. It informs the need for further research adjustments to reveal the reciprocal states of certain TE (Cu/Zn, Ca/Mg, Fe/ Pb) in correlation with their real-time counts in both maternal and neonatal umbilical cord plasma, and in relation to augmented oxidative stress. This would help to achieve consistency in interpreting

obstetrical complications (preeclampsia, prematurity, or gestational diabetes). Generated hypotheses should target plausible mechanisms behind TE alterations and their stage-sensitive measures in gynecological cancer. New prospects are discussed in management and prognosis of endometriosis and premature ovarian failure (POF).

Handbook of Lawn Mower Repair

The bestselling cyberpunk author “has produced by far the most stylish report from the computer outlaw culture since Steven Levy’s Hackers” (Publishers Weekly). Bruce Sterling delves into the world of high-tech crime and punishment in one of the first books to explore the cyberspace breaches that threaten national security. From the crash of AT&T’s long-distance switching system to corporate cyberattacks, he investigates government and law enforcement efforts to break the back of America’s electronic underground in the 1990s. In this modern classic, “Sterling makes the hackers—who live in the ether between terminals under noms de net such as VaxCat—as vivid as Wyatt Earp and Doc Holliday. His book goes a long way towards explaining the emerging digital world and its ethos” (Publishers Weekly). This edition features a new preface by the author that analyzes the sobering increase in computer crime over the twenty-five years since The Hacker Crackdown was first published. “Offbeat and brilliant.” —Booklist “Thoroughly researched, this account of the government’s crackdown — on the nebulous but

growing computer-underground provides a thoughtful report on the laws and rights being defined on the virtual frontier of cyberspace. . . . An enjoyable, informative, and (as the first mainstream treatment of the subject) potentially important book . . . Sterling is a fine and knowledgeable guide to this strange new world.” —Kirkus Reviews “A well-balanced look at this new group of civil libertarians. Written with humor and intelligence, this book is highly recommended.” —Library Journal

Cutlass 1970-87

Ready to move to the Mac? This incomparable guide helps you make a smooth transition. New York Times columnist and Missing Manuals creator David Pogue gets you past three challenges: transferring your stuff, assembling Mac programs so you can do what you did with Windows, and learning your way around Mac OS X. Learning to use a Mac is not a piece of cake, but once you do, the rewards are oh-so-much better. No viruses, worms, or spyware. No questionable firewalls or inefficient permissions. Just a beautiful machine with a thoroughly reliable system. Whether you're using Windows XP or Windows 7, we've got you covered. Transfer your stuff. Moving files from a PC to a Mac is the easy part. This guide gets you through the tricky things: extracting your email, address book, calendar, Web bookmarks, buddy list, desktop pictures, and MP3 files. Re-create your software suite. Big-name programs from Microsoft, Adobe, and others are available in both Mac and Windows versions. But hundreds of other programs are Windows-only.

Learn the Macintosh equivalents and how to move data to them. Learn Mac OS X Lion. Once you've moved into the Macintosh mansion, it's time to learn your way around. You're in good hands with the author of Mac OS X: The Missing Manual, the #1 bestselling guide to Mac OS X.

100 Silent Films

Unable to conceive, Julia and Gavin Jones head to Hope Infertility Clinic. The couple is put through a series of embarrassing exams, testing the limit of their libidos. After receiving the results, Mr. Jones is outraged at the fault being his. Having once suffered a fate of infertility himself, Dr. Raymond Breeding has dedicated his life to the world of conception. If anyone can cure the couples' ailment, it's him. However, the closer he examines the female patient, the heavier his heart grows. Removing Gavin from the equation, he decides to cure her with an injection of his own. Warning: This 14,000 word story contains graphic language, erotic situations, medical exam, doctor/patient play, medical instruments, breeding, light bondage, oral sex, straight sex, bareback sex, anal sex, voyeurism, domination, submission, humiliation and is a story for adults (18+)

Rantoul and Chanute Air Force Base

Dr. Breeding

With Leopard, Apple has unleashed the greatest version of Mac OS X yet, and David Pogue is back with another meticulous Missing Manual to cover the operating system with a wealth of detail. The new Mac OS X 10.5, better known as Leopard, is faster than its predecessors, but nothing's too fast for Pogue and this Missing Manual. It's just one of reasons this is the most popular computer book of all time. Mac OS X: The Missing Manual, Leopard Edition is the authoritative book for Mac users of all technical levels and experience. If you're new to the Mac, this book gives you a crystal-clear, jargon-free introduction to the Dock, the Mac OS X folder structure, and the Mail application. There are also mini-manuals on iLife applications such as iMovie, iDVD, and iPhoto, and a tutorial for Safari, Mac's web browser. This Missing Manual is amusing and fun to read, but Pogue doesn't take his subject lightly. Which new Leopard features work well and which do not? What should you look for? What should you avoid? Mac OS X: The Missing Manual, Leopard Edition offers an objective and straightforward instruction for using: Leopard's totally revamped Finder Spaces to group your windows and organize your Mac tasks Quick Look to view files before you open them The Time Machine, Leopard's new backup feature Spotlight to search for and find anything in your Mac Front Row, a new way to enjoy music, photos, and videos Enhanced Parental Controls that come with Leopard Quick tips for setting up and configuring your Mac to make it your own There's something new on practically every page of this new

edition, and David Pogue brings his celebrated wit and expertise to every one of them. Mac's brought a new cat to town and Mac OS X: The Missing Manual, Leopard Edition is a great new way to tame it.

Trace Elements in Obstetrics and Gynecology

Rantoul and the former Chanute Air Force Base are inseparably intertwined as primary players in a single historical narrative. Rantoul was first founded as an agriculturally based community in 1848 near an area known as Mink Grove. The settlement boomed with the coming of the Illinois Central Railroad in 1854; a railroad championed by the town's namesake, Robert Rantoul Jr. Disaster followed in 1899 and again in 1901 with devastating fires. Then, in 1917, a U.S. Army flying field was built on the outskirts of Rantoul. Named after the aviation pioneer Octave Chanute, Chanute Field, later Chanute Air Force Base, became a premier technical training facility. A mutually beneficial relationship quickly developed between these civilian and military establishments that would last for over 75 years. Chanute Air Force Base closed in 1993, ushering in yet another new era for the village of Rantoul.

Blood and Earth

New series, new team, new missions! VITA AYALA (Morbis, Age Of X-Man), DANNY LORE (Queen Of Bad Dreams) and ERIC GAPSTUR (James Bond 007) present a fresh take on the world's greatest secret agent. When a priceless piece of art is found to be fake, investigations lead down a rabbit hole of international crime and corruption. But what the hell does James Bond know about the world of art forgery? Featuring a cover by superstar JIM CHEUNG (Justice League, Young Avengers), that will be revealed as an interlocking image over the first three issues!

Engine-tuning expert A. Graham Bell steers you through the various modifications that can be made to coax maximum useable power output and mechanical reliability from your two-stroke. Fully revised with the latest information on all areas of engine operation, from air and fuel, through carburation, ignition, cylinders, porting, reed and rotary valves, and exhaust systems to cooling and lubrication, dyno tuning and gearing.

The Bloomers

Destroy Your Life-U.S. Marijuana Law gives you the legal armaments with which to make an informed decision about marijuana cultivation. chris Kovachs' book

contains the most important things about marijuana law that a user/would be marijuana cultivator must know. Many books about marijuana law discuss things that a person facing prosecution doesn't need to know. If you want first-hand legal system expertise, combined with factual statute information, this book is for you.

Teacher Planner

A completely updated, revised edition of the classic, outfitted with a whole new arsenal of indispensable knowledge on global affairs, popular culture, economic trends, scientific principles, and modern arts. Here's your chance to brush up on all those subjects you slept through in school, reacquaint yourself with all the facts you once knew (then promptly forgot), catch up on major developments in the world today, and become the Renaissance man or woman you always knew you could be! How do you tell the Balkans from the Caucasus? What's the difference between fission and fusion? Whigs and Tories? Shiites and Sunnis? Deduction and induction? Why aren't all Shakespearean comedies necessarily thigh-slappers? What are transcendental numbers and what are they good for? What really happened in Plato's cave? Is postmodernism dead or just having a bad hair day? And for extra credit, when should you use the adjective continual and when should you use continuous? An Incomplete Education answers these and thousands of other questions with incomparable wit, style, and clarity. American Studies, Art History, Economics, Film, Literature, Music, Philosophy, Political Science,

Psychology, Religion, Science, and World History: Here's the bottom line on each of these major disciplines, distilled to its essence and served up with consummate flair. In this revised edition you'll find a vitally expanded treatment of international issues, reflecting the seismic geopolitical upheavals of the past decade, from economic free-fall in South America to Central Africa's world war, and from violent radicalization in the Muslim world to the crucial trade agreements that are defining globalization for the twenty-first century. And don't forget to read the section "A Nervous American's Guide to Living and Loving on Five Continents" before you answer a personal ad in the International Herald Tribune. As delightful as it is illuminating, *An Incomplete Education* packs ten thousand years of culture into a single superbly readable volume. This is a book to celebrate, to share, to give and receive, to pore over and browse through, and to return to again and again.
