University Bulletin

Peterson's Scholarships, Grants & Prizes 2013 is the must have guide for anyone looking for private aid money to help finance an education. This valuable resource provides up-to-date information on millions of privately funded awards available to college students. The comprehensive scholarship and grant profiles include those awards based on ethnic heritage, talent, employment experience, military service, and other categories, which are available from private sources, such as foundations, corporations, and religious and civic organizations. In addition, there are informative articles containing advice on avoiding scholarship scams, winning scholarships with a winning essay, and getting in the minority scholarship mix.

People of all ages and backgrounds are seeking work in career fields that will help save the planet, yet many people are unaware of the variety of green careers available. This unique career guidance book, based on labor market research, covers green jobs representing almost every area of career interest. The authors' extensive experience in workforce development will help you explore tomorrow's green career options by answering such questions as: What green careers are available? What salary can I expect? What education do I need? What is the demand for this profession? How do I change to a green career? Green Careers offers clear and concise information about the emerging field of environmental jobs. Chapters include: Industry-by-industry overview of green jobs Ninety different occupations in twelve different career groups Over sixty case studies and interviews of people working in green jobs Career planning information Job search resources This book will appeal to students, career explorers, job seekers, and career and workforce development professionals. It is an indispensable guide for finding a career to feel passionate about and prospering while doing what you love. Jim Cassio is a career and workforce information consultant who has conducted hundreds of workforce studies and published occupational resource books, including Career Pathways Handbook. Alice Rush, MA, MCC, is a certified and registered career counselor and founder of CareerU®—counseling for the public and Fortune 500 companies. She is author of Paid to Play and a part-time faculty member of Folsom Lake College.

Cover Letter Magic

During the past 20 years, the field of mechanical engineering has undergone enormous changes. These changes have been driven by many factors, including: the development of computer technology worldwide competition in industry improvements in the flow of information satellite communication real time monitoring increased energy efficiency robotics automatic control increased sensitivity to environmental impacts of human activities advances in design and manufacturing methods These developments have put more stress on mechanical engineering education, making it increasingly difficult to cover all the topics that a professional engineer will need in his or her career. As a result of these developments, there has been a growing need for a handbook that can serve the professional community by providing relevant background and current information in the field of mechanical engineering. The CRC Handbook of Mechanical Engineering serves the needs of the professional engineer as a resource of information into the next century.
