interactive multimedia resources. Teen Health helps students understand that good health affects their school performance, their friendships, their looks, and their lives. In middle school, life changes quickly. There's more freedom and more peer pressure. Students might be faced with life-changing decisions when they least expect it. That's one reason why mastering good health skills is so essential during the teen years. Teen Health stretches far beyond traditional health topics to cover the subjects your students really want to know about. It explains the importance of avoiding risky behaviors and provides step-by-step guidelines on how to do so. Course 1 Student Modules . Adolescence: Growing and Changing . Building Character . Conflict Resolution

Math Course 3, Grade 8

A middle school math program consisting of three courses: course 1 focuses on numerical reasoning; course two focuses on proportional reasoning;; course 3 focuses on algebraic reasoning.

A complete Algebra curriculum by the end of eighth grade! This exciting new program, developed in cooperation with Education Development Center, Inc., makes mathematics accessible to more of your middle-school students. They will spend less time reviewing topics from previous grades and more time progressing carefully and successfully toward the completion of Algebra 1 by the end of grade 8. Informal-to-formal concept development, designed specifically for middle school students, ensures that students build necessary skills and develop conceptual understanding.

Course 3 provides a solid foundation in order to fully prepare students for Algebra 1. Chapters 1-3 focus on integers, rational numbers and real numbers in order to set the stage for equations, inequalities and functions. Real-World applications to the more abstract algebraic concepts are found throughout the text. More than 5 Activity Labs per chapter ensure students receive the visual and special instruction necessary to conceptualize these abstract concepts and prepare them for advanced math courses.

"The third of a three-year sequence of courses designed to prepare students for a rigorous college preparatory algebra course. It uses a problem-based approach with concrete models. The course helps students to develop multiple strategies to solve problems and to recognize the connections between concepts" -- publisher's website.
