Letter of Christopher Columbus to Rafael Sanchez

Document-Based Assessment for Global History

Anita Lobel was barely five years old when World War II began and the Nazis burst into her home in Kraków, Poland. Her life changed forever. She spent her childhood in hiding with her brother and their nanny, moving from countryside to ghetto to convent—where the Nazis finally caught up with them. Since coming to the United States as a teenager, Anita has spent her life making pictures. She has never gone back. She has never looked back. Until now.

Gutenberg

Frank Lecouvreur (1829-1901) was born Franz Lecouvreur in Ortlesburg, Prussia. Educated as an engineer, he left home for California in 1851. From East Prussia to the Golden Gate (1906) draws on Lecouvreur's letters and journals to describe his journey from Prussia to California and his life in his new home. His letters from the gold mines on the Yuba River offer an

unusually professional analysis of mining methods at Hopkinsville and Long Bar and continue with a series of odd jobs in San Francisco and trips to Alameda and San José, 1853-1854. In 1855, Lecouvreur moves to Southern California , and scattered diary entries cover his service as Los Angeles county clerk and deputy county surveyor and businessman, 1855-1868.

Sinners in the Hands of an Angry God

Explore the government of the United States from its beginning to the present with special emphasis on the Biblical pattern for government and on the U.S. Constitution. Learn about the operations of Federal, state, and local government, and about issues facing our nation today. Become better equipped to understand, pray for, and be involved in our country's government. Includes guide for parents.

From East Prussia to the Golden Gate

Victory Must be Ours

Documents the life of Johann Gutenberg and the history and impact of the printing press, covering the process of creating printed books and the press's influence on the printed Bible and on Christianity.

The Western Experience: The modern era

Shadow of the Silk Road

On March 8, 1421, the largest fleet the world had ever seen set sail from China to "proceed all the way to the ends of the earth to collect tribute from the barbarians beyond the seas." When the fleet returned home in October 1423, the emperor had fallen, leaving China in political and economic chaos. The great ships were left to rot at their moorings and the records of their journeys were destroyed. Lost in the long, self-imposed isolation that followed was the knowledge that Chinese ships had reached America seventy years before Columbus and had circumnavigated the globe a century before Magellan. And they colonized America before the Europeans, transplanting the principal economic crops that have since fed and clothed the world.

Chinese Civilization and Society

There is little debate that the Renaissance began at the end of the fourteenth century. Its end, though, is much more difficult to pin down. Here, for the first time, renowned classicist Theodore Rabb defines the changes that marked the shift away from the Renaissance to Modernity, and explains why these changes took place. The European Renaissance is usually characterized by the belief that a distinct antique civilization represented the ideal for all human endeavors. But there were other unities that defined the era: a shift in the role of the aristocracy from a warrior class to a cultural elite, a growth in education, a more thoughtful probing into the sciences, and the use of the arts for nonreligious purposes. By the dawn of the seventeenth century, four developments had swept over the world, altering these unities and ending the Renaissance: a break with the period's obsession with the past, which invited openness to innovation; a quest for central political control to cure increasing instability; a change in direction of people's passion and enthusiasm; and a new commitment to reason. With thoughtful, wide-lens scholarship and close, detailed looks throughout at the significant moments of change, Rabb offers us a radically new understanding of one of the most pivotal shifts in modern history.

1421

The federal budget impacts American policies both at home and abroad, and recent concern over the exploding budgetary

deficit has experts calling our nation's policies "unsustainable" and "system-dooming." As the deficit continues to grow, will America be fully able to fund its priorities, such as an effective military and looking after its aging population? In this third edition of his classic book *The Federal Budget*, Allen Schick examines how surpluses projected during the final years of the Clinton presidency turned into oversized deficits under George W. Bush. In his detailed analysis of the politics and practices surrounding the federal budget, Schick addresses issues such as the collapse of the congressional budgetary process and the threat posed by the termination of discretionary spending caps. This edition updates and expands his assessment of the long-term budgetary outlook, and it concludes with a look at how the nation's deficit will affect America now and in the future. "A clear explanation of the federal budget [Allen Schick] has captured the politics of federal budgeting from the original lofty goals to the stark realities of today."—Pete V. Domenici, U.S. Senate

The Last Days of the Renaissance

The British Empire

The Broken Spears

Describes the highly developed Mayan civilization noted for its achievements in architecture, mathematics, and astrology.

Reading Like a Historian

Explains the mechanics of the first printing press, invented in Germany by Gutenberg in the fifteenth century, and describes the press's revolutionary impact on the world.

The Federal Budget

Tracts and Treatises of John de Wycliffe

A comprehensive study of the Eastern slave trade by an eminent British scholar A companion volume to *The Black Diaspora*, this groundbreaking work tells the fascinating and horrifying story of the Islamic slave trade. *Islam's Black Slaves* documents a centuries-old institution that still survives, and traces the business of slavery and its repercussions from

Islam's inception in the seventh century, through its history in China, India, Iran, Turkey, Egypt, Libya, and Spain, and on to Sudan and Mauritania, where, even today, slaves continue to be sold. Ronald Segal reveals for the first time the numbers involved in this trade--as many millions as were transported to the Americas--and explores the differences between the traffic in the East and the West. Islam's Black Slaves also examines the continued denial of the very existence of this sector of the black diaspora, although it survives today in significant numbers; and in an illuminating conclusion, Segal addresses the appeal of Islam to African-American communities, and the perplexing refusal of Black Muslim leaders to acknowledge black slavery and oppression in present-day Mauritania and Sudan. A fitting companion to Segal's previous work, Islam's Black Slaves is a fascinating account of an often unacknowledged tradition, and a riveting cross-cultural commentary.

A People's History of the United States

Shadow of the Silk Road records a journey along the greatest land route on earth. Out of the heart of China into the mountains of Central Asia, across northern Afghanistan and the plains of Iran and into Kurdish Turkey, Colin Thubron covers some seven thousand miles in eight months. Making his way by local bus, truck, car, donkey cart and camel, he travels from the tomb of the Yellow Emperor, the mythic progenitor of the Chinese people, to the ancient port of Antioch—in perhaps the most difficult and ambitious journey he has undertaken in forty years of travel. The Silk Road is a huge network of arteries splitting and converging across the breadth of Asia. To travel it is to trace the passage not only of trade and armies but also of ideas, religions and inventions. But alongside this rich and astonishing past, Shadow of the Silk Road is also about Asia today: a continent of upheaval. One of the trademarks of Colin Thubron's travel writing is the beauty of his prose; another is his gift for talking to people and getting them to talk to him. Shadow of the Silk Road encounters Islamic countries in many forms. It is about changes in China, transformed since the Cultural Revolution. It is about false nationalisms and the world's discontented margins, where the true boundaries are not political borders but the frontiers of tribe, ethnicity, language and religion. It is a magnificent and important account of an ancient world in modern ferment.

A History of Western Society: From antiquity to the Reformation

This practical resource shows you how to apply Sam Wineburg's highly acclaimed approach to teaching, "Reading Like a Historian," in your middle and high school classroom to increase academic literacy and spark students' curiosity. Chapters cover key moments in American history, beginning with exploration and colonization and ending with the Cuban Missile Crisis.

Daily Life of the Aztecs

Help your child prepare for seventh grade with the activities in this book.

Mini-Q's in American History

Printing and the Mind of Man. With a New Introduction by Percy H. Muir. Additional Bibliographies by Peter Amelung. 2. Ed. Rev. and Enlarged

Europe went to war in 1914 to the sound of brass bands and cheering crowds; in every country, civilians and soldiers alike believed that the war would be won by Christmas time. By the time Christmas arrived, however, it became clear that this, indeed, would be a much longer war. In the months and years which followed, combatants pursued the war with boundless intensity in order to emerge victorious. This was partially true of Germany where publicists pictured it as a life-and-death struggle for the survival of a nation surrounded by hostile enemies. No nation involved in the conflict so completely mobilized its population, its resources, its energies into such a single-minded pursuit of the war. This unusual and incisive account chronicles Germany in World War I from the viewpoint of the soldiers who fought the battles and civilians who endured the ever increasing trauma of escalating casualties, widespread shortages, and declining conditions of living. It relates how Germany attempted to cope with a massive blockade, the scope of which had not been seen since the days of Napoleon, thus forcing German authorities to adopt a series of sometimes brutal measures, all of which rested on the underlying premise that victory, a clear-cut victory, could be the only acceptable option. *Victory Must Be Ours* explores the Germany which in 1914 took a prestigious leap into darkness. It explores the ingredients which make the Great War perhaps the single most fateful event in the Twentieth Century, setting in motion the most bloody conflict of all time, World War II.

No Pretty Pictures

Writing a DBQ

Travels of Marco Polo

The neighbors aren't too happy about Henry and his beat-up old house. Why doesn't he clean it up, and weed his garden and sweep his walk? Henry's got better things to do. Tired of being bothered, he finally gets fed up and moves away. The

funny thing is, nobody's really happy when he does--not the neighbors, and not Henry. Here is a wise and witty tale about different kinds of people learning to get along.

The Interpretation of Cultures

This comprehensive and accessible reference explores the greatest and most mysterious of civilizations, hailed for its contributions to science, mathematics, and technology. Each chapter is supplemented by an extensive bibliography as well as photos, original line drawings, and maps.

The Printing Press

The best thing about this book is its overarching thesis, the concept of a Columbian exchange. This provocative device permits Crosby to shape a lot of familiar and seemingly unrelated data into a fresh synthesis. . . . The implications of this interplay between novel biological and social forces are fascinating. *Journal of American History*

Exploring Government

Experience and explore the often controversial lives of the ancient Aztecs through this comprehensive social history of their culture.

Everyday Life of the Maya

Translated by Lysander Kemp. Illustrations adapted from original codices painting.

A Voyage to South America

A survey of exploration and discovery from the times of ancient explorers through contemporary excursions to the farthest limits of our globe including outer space, the ocean depths, and beneath the surface of the Earth.

The Columbian Exchange

USAs historie indtil 1996

Islam's Black Slaves

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

Exploration and Discovery

In *The Interpretation of Cultures*, the most original anthropologist of his generation moved far beyond the traditional confines of his discipline to develop an important new concept of culture. This groundbreaking book, winner of the 1974 Sorokin Award of the American Sociological Association, helped define for an entire generation of anthropologists what their field is ultimately about.

United States History: Preparing for the Advanced Placement Examination, 2018 Edition

Enhances the world history curriculum through analysis of primary and secondary sources. Features 23 new and revised document-based questions covering significant eras. Teacher support includes scoring rubric and tips for implementation.

Old Henry

Perfect for students preparing to take the 2018 AP U.S. History Examination. -- Publisher's website.
