Chris Tame (1949-2006) was the Founder and Director of the Libertarian Alliance, and was the most prominent British libertarian of his age. The purpose of this Bibliography is to provide a wide ranging guide to the work of Henry George, to that of Georgist writers in the English language (i.e., primarily American and British), to the "precursors" of Georgism, and to its principal critics. It also offers a selective listing of the competing Land Nationalisation school. In addition it provides an extensive listing of the broader literature on the land question, emanating from liberal, radical, conservative and socialist writers. The relatively small body of secondary scholarship regarding land issues is also featured. The Whip is inspired by the true story of a woman, Charlotte "Charley" Parkhurst (1812-1879) who lived most of her extraordinary life as a man. As a young woman in Rhode Island, she fell in love and had a child. Her husband was lynched and her baby killed. The destruction of her family drove her west to California, dressed as a man, to track down the murder. Charley became a renowned stagecoach driver. She killed a famous outlaw, had a secret love affair, and lived with a housekeeper who, unaware of her true sex, fell in love with her. Charley was the first woman to vote in America (as a man). Her grave lies in Watsonville, California.

## **I Am the Wallpaper**

The first comprehensive collection of the letters of one of the most successful American songwriters of the twentieth century From Anything Goes to Kiss Me, Kate, Cole Porter left a lasting legacy of iconic songs including "You're the Top," "Love For Sale," and "Night and Day." Yet, alongside his professional success, Porter led an eclectic personal life which featured exuberant parties, scandalous affairs, and chronic health problems. This extensive collection of letters (most of which are published here for the first time) dates from the first decade of the twentieth century to the early 1960s and features correspondence with stars such as Irving Berlin, Ethel Merman, and Orson Welles, as well as his friends and lovers. Cliff Eisen and Dominic McHugh complement these letters with lively commentaries that draw together the loose threads of Porter's life and highlight the distinctions between Porter's public and private existence. This book reveals surprising insights into his attitudes toward Hollywood and Broadway, and toward money, love, and dazzling success.

## **A Very Stable Genius**

Charlotte Perkins Gilman (1860-1935) penned this sardonic remark in her autobiography, encapsulating a lifetime of frustration with the gender-based double standard that prevailed in turn-of-the-century America. With her slyly humorous novel, *Herland* (1915), she created a fictional utopia where not only is face powder obsolete, but an all-female population has created a peaceful, progressive, environmentally-conscious country from which men have been absent for two thousand years. Gilman was enormously prolific, publishing five hundred poems, two hundred short stories, hundreds of essays, eight novels, and seven years' worth of her monthly magazine, *The Forerunner*. She emerged as one of the key figures in the women's movement of her day, advocating equality of the sexes, the right of women to work, and socialized child care, among other issues. Today Gilman is perhaps best known for the chilling depiction of a woman's mental breakdown in her unforgettable short story, "The Yellow Wall-Paper". This Penguin Twentieth-Century Classics edition includes both this landmark work and *Herland*, together with a selection of Gilman's major short stories and her poems.

## The Ballad of Songbirds and Snakes (A Hunger Games Novel)

'My first serious blackout marked the line between sanity and insanity. Though I would have moments of lucidity over the coming days and weeks, I would never again be the same person ' Susannah Cahalan was a happy, clever, healthy twenty-four-year old. Then one day she woke up in hospital, with no memory of what had happened or how she had got there. Within weeks, she would be transformed into someone unrecognizable, descending into a state of acute psychosis, undergoing rages and convulsions, hallucinating that her father had murdered his wife; that she could control time with her mind. Everything she had taken for granted about her life, and who she was, was wiped out. Brain on Fire is Susannah's story of her terrifying descent into madness and the desperate hunt for a diagnosis, as, after dozens of tests and scans, baffled doctors concluded she should be confined in a psychiatric ward. It is also the story of how one brilliant man, Syria-born Dr Najar, finally proved - using a simple pen and paper - that Susannah's psychotic behaviour was caused by a rare

autoimmune disease attacking her brain. His diagnosis of this little-known condition, thought to have been the real cause of devil-possession through history, saved her life, and possibly the lives of many others. Cahalan takes readers inside this newly-discovered disease through the progress of her own harrowing journey, piecing it together using memories, journals, hospital videos and records. Written with passionate honesty and intelligence, *Brain on Fire* is a searingly personal yet universal book, which asks what happens when your identity is suddenly destroyed, and how you get it back. 'With eagle-eye precision and brutal honesty, Susannah Cahalan turns her journalistic gaze on herself as she bravely looks back on one of the most harrowing and unimaginable experiences one could ever face: the loss of mind, body and self. *Brain on Fire* is a mesmerizing story' -Mira Bartók, *New York Times* bestselling author of *The Memory Palace* Susannah Cahalan is a reporter on the *New York Post*, and the recipient of the 2010 Silurian Award of Excellence in Journalism for Feature Writing. Her writing has also appeared in the *New York Times*, and is frequently picked up by the *Daily Mail*, *Gawker*, *Gothamist*, *AOL* and *Yahoo* among other news aggregator sites.

It can also spark conversations that empower the child to find situations where they can use their voice to speak up.

## **War of the Foxes**

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSD's path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. We follow Dr. Hofmann's trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmann's powerful conclusion that mystical experience may be our planet's best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmann's problem child, his vision of its true potential is more relevant, and more needed, than ever.

Washington Post national investigative reporter Carol Leonnig and White House bureau chief Philip Rucker, both Pulitzer Prize winners, provide the definitive insider narrative of Donald Trump's unique presidency with shocking new reporting and insight into its implications. "I alone can fix it." So went Donald J. Trump's march to the presidency on July 21, 2016, when he accepted the Republican presidential nomination in Cleveland, promising to restore what he described as a fallen nation. Yet over the subsequent years, as he has undertaken the actual work of the commander in chief, it has been hard to see beyond the daily chaos of scandal, investigation, and constant bluster. It would be all too easy to mistake Trump's first term for one of pure and uninhibited chaos, but there were patterns to his behavior and that of his associates. The universal value of the Trump administration is loyalty - not to the country, but to the president himself - and Trump's North Star has been the perpetuation of his own power, even when it meant imperiling our shaky and mistrustful democracy. Leonnig and Rucker, with deep and unmatched sources throughout Washington, D.C., tell of rages and frenzies but also moments of courage and perseverance. Relying on scores of exclusive new interviews with some of the most senior members of the Trump administration and other firsthand witnesses, the authors reveal the forty-fifth president up close, taking readers inside Robert Mueller's Russia investigation as well as the president's own hap-hazard but ultimately successful legal defense. Here for the first time certain officials who have felt honor-bound not to publicly criticize a sitting president or to divulge what they witnessed in a position of trust tell the truth for the benefit of history. This peerless and gripping narrative reveals President Trump at his most unvarnished and exposes how decision making in his administration has been driven by a reflexive logic of self-preservation and self-aggrandizement - but a logic nonetheless. This is the story of how an unparalleled president has scrambled to survive and tested the strength of America's democracy and its common heart as a nation.

An award-winning scientist offers his unorthodox approach to childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of *Battle Hymn of the Tiger Mother*). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In *Parentology*, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley’s sassy kids show him the limits of his profession. *Parentology* teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You’ll be laughing and learning at the same time.

You are set free and set up and set on fire. NOW you can get busy doing what you were placed on this planet to do. NOW you can be honest, honest, honest about all of it, even the hard stuff, even the humiliating stuff, even the secret stuff. NOW you can walk in your convictions of faith and ask new questions unafraid. NOW you can be so free, because you are not searching for value from any source other than your own beautiful soul made piece by piece by God who adores you and is ready to get on with the business of unleashing you into this world. In this book, I break it down into five self-reflective categories—who I am, what I need, what I want, what I believe, and how I connect—and by working your way through them, you will learn to own your space, ground, and gifts (they are YOURS, sister); be strong in your relationships and lay down passive aggression, resentment, drama, and compliance; say GUILT-FREE what you want and what you need; and welcome spiritual curiosity and all the fantastic change that doing so creates. You with me, beloveds? If we do this work on our own selves now, not only will we discover a life truly worth living, but we will free our daughters to rise up behind us, with spines straight, heads up, and coated in our strength.

## Nothing to See Here

A New York Times Bestseller • A Read with Jenna Today Show Book Club Pick! Named a Best Book of the Year by The New York Times Book Review, The Washington Post, People, Entertainment Weekly, USA Today, TIME, The A.V. Club, BuzzFeed, and PopSugar “I can't believe how good this book is. It's wholly original. It's also perfect. Wilson writes with such a light touch. The brilliance of the novel [is] that it distracts you with these weirdo characters and mesmerizing and funny sentences and then hits you in a way you didn't see coming. You're laughing so hard you don't even realize that you've suddenly caught fire.” —Taffy Brodesser-Akner, author of *Fleishman is in Trouble*, New York Times Book Review From the New York Times bestselling author of *The Family Fang*, a moving and uproarious novel about a woman who finds meaning in her life when she begins caring for two children with a remarkable ability. Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian had to leave the school unexpectedly in the wake of a scandal and they've barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison's twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there's a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way.

Lillian is convinced Madison is pulling her leg, but it's the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has nothing to lose. Over the course of one humid, demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison's buttoned-up politician husband. Surprised by her own ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange children as much as they need her—urgently and fiercely. Couldn't this be the start of the amazing life she'd always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most unusual story of parental love.
