## **Native American Autobiography**

The Salem Witch Trials is based on over twenty-five years of archival research--including the author's discovery of previously unknown documents--newly found cases and court records. From January 1692 to January 1697 this history unfolds a nearly day-by-day narrative of the crisis as the citizens of New England experienced it.

## **Native American Studies**

From their first encounters with traders, explorers, missionaries, settlers, and soldiers, to the heyday of "Red Power" during the 1960s and '70s, the relations of Native Americans with white men are explored in a powerful series of documents--seen through Indian eyes and told in Indian voices. Photographs.

Houston Texans quarterback Deshaun Watson is one of the most promising young players in the NFL, but he believes that true success lies in leading his team from a perspective of service. In this inspiring, practical book, Deshaun illustrates how the seven qualities of a servant leader can lead to a more successful life. Deshaun Watson was only eleven when his family received a house from Atlanta Falcons running back Warrick Dunn through Dunn's charity, Homes for the Holidays. But that early gift left a lasting impression, teaching Deshaun that generosity and service to others are important parts of true success. Now a star in his own right, and the most promising young player in the NFL, Deshaun reveals the lessons that have guided him throughout his life. From Deshaun's early days in Gainesville,

Georgia, where he nursed his mother through cancer, to his years at Clemson—where he graduated in three years while being nominated for the Heisman twice—to his first few seasons in the NFL, Deshaun has distinguished himself as a leader by putting the others first. In *Pass It On*, Deshaun opens up about the seven core values that have guided him on his own journey. Generosity Empathy Self-Sacrifice Service Commitment Strength Values in Action Interweaving stories from his life with practical advice that every reader can apply, Deshaun demonstrates how true strength lies in putting others first.

Anthropologist Nabokov's books include "Two Leggings: The Making of a Crow Warrior and "Native American Testimony.

### **Facing East from Indian Country**

A compelling portrait of cultural transition and assimilation via the saga of one Acoma Pueblo Indian family Born in 1861 in New Mexico's Acoma Pueblo, Edward Proctor Hunt lived a tribal life almost unchanged for centuries. But after attending government schools he broke with his people's ancient codes to become a shopkeeper and controversial broker between Indian and white worlds. As a Wild West Show Indian he travelled in Europe with his family, and saw his sons become silversmiths, painters, and consultants on Indian Lore. In 1928, in a life-culminating experience, he recited his version of the origin myth of Acoma Pueblo to Smithsonian Institution scholars. Nabokov narrates the fascinating story of Hunt's life within a multicultural and historical context. Chronicling Pueblo Indian life and Anglo/Indian relations over the last century and a half, he explores how this entrepreneurial family capitalized on the nation's passion for Indian culture. In this rich book, Nabokov dramatizes how the Hunts, like immigrants throughout history, faced anguishing decisions over staying put or striking out for economic independence, and experienced the pivotal passage from tradition to modernity.

### **Empire**

A breathtakingly original work of history that uncovers a massive enslaved persons' revolt that almost changed the face of the Americas On Sunday, February 27, 1763, thousands of slaves in the Dutch colony of Berbice—in present-day Guyana—launched a massive rebellion which came amazingly close to succeeding.

Surrounded by jungle and savannah, the revolutionaries (many of them African-born) and Europeans struck and parried for an entire year. In the end, the Dutch prevailed because of one unique advantage—their ability to get soldiers and supplies from neighboring colonies and from Europe. *Blood on the River* is the explosive story of this little-known revolution, one that almost changed the face of the Americas. Drawing on nine hundred interrogation transcripts collected by the Dutch when the Berbice rebellion finally collapsed, and which were subsequently buried in Dutch archives, historian Marjoleine Kars reconstructs an extraordinarily rich day-by-day account of this pivotal event. *Blood on the River* provides a rare in-depth look at the political vision of enslaved people at the dawn of the Age of Revolution and introduces us to a set of real characters, vividly drawn against the exotic tableau of a riverine world of plantations, rainforest, and Carib allies who controlled a vast South American hinterland. An astonishing original work of history, *Blood on the River* will change our understanding of revolutions, slavery, and of the story of freedom in the New World.

"The Other Slavery is nothing short of an epic recalibration of American history, one that's long overdue...In addition to his skills as a historian and an investigator, Résendez is a skilled storyteller with a truly remarkable subject. This is historical nonfiction at its most important and most necessary."—Literary Hub, 20 Best Works of Nonfiction of the Decade "Long-awaited and important . . . No other book before has so thoroughly related the broad history of Indian slavery in the Americas."—San Francisco Chronicle "A necessary work . . . [Reséndez's] reportage will likely surprise you."—NPR "One of the most profound contributions to North American history."—Los Angeles Times Since the time of Columbus, Indian slavery was illegal in much of the American continent. Yet, as Andrés Reséndez illuminates in his myth-shattering *The Other Slavery*, it was practiced for centuries as an open secret. There was no abolitionist movement to protect the tens of thousands of Natives who were kidnapped and enslaved by the conquistadors.

Reséndez builds the incisive case that it was mass slavery—more than epidemics—that decimated Indian populations across North America. Through riveting new evidence, including testimonies of courageous priests, rapacious merchants, and Indian captives, *The Other Slavery* reveals nothing less than a key missing piece of American history. For over two centuries we have fought over, abolished, and tried to come to grips with African American slavery. It is time for the West to confront an entirely separate, equally devastating enslavement we have long failed truly to see. “Beautifully written . . . A tour de force.”—Chronicle of Higher Education

*Native American Studies* covers key issues such as the intimate relationship of culture to land; the nature of cultural exchange and conflict in the period after European contact; the unique relationship of Native communities with the United States government; the significance of language; the vitality of contemporary cultures; and the variety of Native artistic styles, from literature and poetry to painting and sculpture to performance arts.

### **"I Am a Man"**

From the author of *How the World Moves: A revelatory new look at the hallowed, diverse, and threatened landscapes of the American Indian* For thousands of years, Native Americans have told stories about the powers of revered landscapes and sought spiritual direction at mysterious places in their homelands. In this important book, respected scholar and anthropologist Peter Nabokov writes of a wide range of sacred places in Native America. From the “high country” of California to Tennessee’s Tellico Valley, from the Black Hills of South Dakota to Rainbow Canyon in Arizona, each chapter delves into the relationship between Indian cultures and their environments and describes the myths and legends, practices, and rituals that sustained them. From the Trade Paperback edition.

### **Blood on the River**

In the beginning, North America was Indian country. But only in the beginning. After the opening act of the great national drama, Native Americans yielded to the westward rush of European settlers. Or so the story usually goes. Yet, for three centuries after Columbus, Native people controlled most of eastern North America and profoundly shaped its destiny. In *Facing East from Indian Country*, Daniel K. Richter keeps Native people center-stage throughout the story of the origins of the United States. Viewed from Indian country, the sixteenth century was an era in which Native people discovered Europeans and struggled to make sense of a new world. Well into the seventeenth century, the most profound challenges to Indian life came less from the arrival of a relative handful of European colonists than from the biological, economic, and environmental forces the newcomers unleashed. Drawing upon their own traditions, Indian communities reinvented themselves and carved out a place in a world dominated by transatlantic European empires. In 1776, however, when some of Britain's colonists rebelled against that imperial world, they overturned the system that had made Euro-American and Native

coexistence possible. Eastern North America only ceased to be an Indian country because the revolutionaries denied the continent's first peoples a place in the nation they were creating. In rediscovering early America as Indian country, Richter employs the historian's craft to challenge cherished assumptions about times and places we thought we knew well, revealing Native American experiences at the core of the nation's birth and identity.

Fur traders observed that no other Indians of the Upper Missouri were so well dressed or bragged of their tribal affiliation as frequently or as vociferously as the Crow. Two Leggings, the teller of the story you are about to read, was above all else a Crow warrior. His story tells us quite as much of tribal values that motivated and guided his actions as it does of his personal escapades. He was one of the last Crow Indians to abandon the warpath.

### **The Invasion of America**

For many people, Native American architecture calls to mind the wigwam, tipi, iglu, and pueblo. Yet the richly diverse building traditions of Native Americans encompass much more, including specific structures for sleeping, working, worshipping, meditating, playing, dancing, lounging, giving birth, decision-making, cleansing, storing and preparing food, caring for animals, and honoring the dead. In effect, the architecture covers all facets of Indian life. The collaboration between an architect and an anthropologist, Native American Architecture presents the first book-length, fully illustrated exploration of North American Indian architecture to appear in over a century. Peter Nabokov and Robert Easton together examine the building traditions of the major tribes in nine regional areas of the continent from the huge plank-house villages of the Northwest Coast to the moundbuilder towns and temples of the Southeast, to the Navajo hogans and adobe pueblos of the Southwest. Going beyond a traditional survey of buildings, the book offers a broad, clear view into the Native American world, revealing a new perspective on the interaction between their buildings and culture. Looking at Native American architecture as more than buildings, villages, and camps, Nabokov and Easton also focus on their use of space, their environment, their social mores, and their religious beliefs. Each chapter concludes with an account of traditional Indian building practices undergoing a revival or in danger today. The volume also includes a wealth of historical photographs and drawings (including sixteen pages of color illustrations), architectural renderings, and specially prepared interpretive diagrams which decode the sacred cosmology of the principal house types.

### **Indian Running**

Gonzalo Fernández de Oviedo (1478-1557) wrote the first comprehensive history of Spanish America, the *Historia general y natural de las Indias*, a sprawling, constantly revised work in which Oviedo attempted nothing less than a complete account of the Spanish discovery, conquest, and colonization of the Americas from 1492 to 1547, along with descriptions of the land's flora, fauna, and indigenous peoples. His *Historia*, which grew to an astounding fifty volumes, includes

numerous interviews with the Spanish and indigenous leaders who were literally making history, the first extensive field drawings of America rendered by a European, reports of exotic creatures, ethnographic descriptions of indigenous groups, and detailed reports about the conquest and colonization process. Fernández de Oviedo's *Chronicle of America* explores how, in writing his *Historia*, Oviedo created a new historiographical model that reflected the vastness of the Americas and Spain's enterprise there. Kathleen Myers uses a series of case studies—focusing on Oviedo's self-portraits, drawings of American phenomena, approaches to myth, process of revision, and depictions of Native Americans—to analyze Oviedo's narrative and rhetorical strategies and show how they relate to the politics, history, and discursive practices of his time. Accompanying the case studies are all of Oviedo's extant field drawings and a wide selection of his text in English translation. The first study to examine the entire *Historia* and its evolving rhetorical and historical context, this book confirms Oviedo's assertion that "the New World required a different kind of history" as it helps modern readers understand how the discovery of the Americas became a catalyst for European historiographical change.

#### **This Land was Theirs**

This engrossing investigation into the tragic 1988 murder of four-year-old Barbara Jean Horn and its aftermath leads readers through the facts of the case in compelling, compassionate, and riveting fashion. Award-winning journalist Thomas Lowenstein makes an evenhanded case for the wrongful conviction of Walter Ograd, a man with autism spectrum disorder who has been on death row since 1996. Informed by police records, court transcripts, interviews, letters and journals, and more, Lowenstein relates how Ograd was convicted based solely on a confession he signed after 36 hours without sleep and how his fate was sealed by an infamous jailhouse snitch. Presenting explosive new evidence, Lowenstein exposes a larger pattern of prosecutorial misconduct in Philadelphia.

A timely chronicle of what is now an ordinary day in America, where gun violence regularly takes the lives of children and teens, and leaves shattered families in its wake. Winner of the 2017 J. Anthony Lukas Prize Shortlisted for the 2017 Hurston/Wright Foundation Award Finalist for the 2017 Helen Bernstein Book Award for Excellence in Journalism Longlisted for the 2017 Andrew Carnegie Medal for Excellence in Non Fiction On an average day in America, seven children and teens will be shot dead. In *Another Day in the Death of America*, award-winning journalist Gary Younge tells the stories of the lives lost during one such day. It could have been any day, but he chose November 23, 2013. Black, white, and Latino, aged nine to nineteen, they fell at sleepovers, on street corners, in stairwells, and on their own doorsteps. From the rural Midwest to the barrios of Texas, the narrative crisscrosses the country over a period of twenty-four hours to reveal the full human stories behind the gun-violence statistics and the brief mentions in local

papers of lives lost. This powerful and moving work puts a human face—a child's face—on the "collateral damage" of gun deaths across the country. This is not a book about gun control, but about what happens in a country where it does not exist. What emerges in these pages is a searing and urgent portrait of youth, family, and firearms in America today.

#### **The Debt**

The Pacific Northwest was one of the most populated and prosperous regions for Native Americans before the coming of the white man. By the mid-1800s, measles and smallpox decimated the Indian population, and the remaining tribes were forced to give up their ancestral lands. Vine Deloria Jr. tells the story of these tribes' fight for survival, one that continues today.

#### **How the World Moves**

The remarkable debut from Plimpton Prize Winner Kelli Jo Ford, *Crooked Hallelujah* follows four generations of Cherokee women across four decades. It's 1974 in the Cherokee Nation of Oklahoma and fifteen-year-old Justine grows up in a family of tough, complicated, and loyal women, presided over by her mother, Lula, and Granny. After Justine's father abandoned the family, Lula became a devout member of the Holiness Church – a community that Justine at times finds stifling and terrifying. But Justine does her best as a devoted daughter, until an act of violence sends her on a different path forever. *Crooked Hallelujah* tells the stories of Justine—a mixed-blood Cherokee woman—and her daughter, Reney, as they move from Eastern Oklahoma's Indian Country in the hopes of starting a new, more stable life in Texas amid the oil bust of the 1980s. However, life in Texas isn't easy, and Reney feels unmoored from her family in Indian Country. Against the vivid backdrop of the Red River, we see their struggle to survive in a world—of unreliable men and near-Biblical natural forces, like wildfires and tornados—intent on stripping away their connections to one another and their very ideas of home. In lush and empathic prose, Kelli Jo Ford depicts what this family of proud, stubborn, Cherokee women sacrifices for those they love, amid larger forces of history, religion, class, and culture. This is a big-hearted and ambitious novel of the powerful bonds between mothers and daughters by an exquisite and rare new talent.

### **The Other Slavery**

In the most comprehensive and detailed cultural-geographic study ever conducted of the American Indian reservations in the forty-eight contiguous states, Klaus Frantz explores the reservations as living environments rather than historical footnotes. Although this study provides well-researched documentation of the generally deplorable living conditions on the reservations, it also seeks to discover and highlight the many possibilities for positive change. Informed by both historical research and extensive fieldwork, this book pays special attention to the natural resource base and economic outlook of the reservations, as well as the crucial issue of tribal sovereignty. Chapters also cover the demography of American Indian groups and their socioeconomic status (including standard of living, employment, and education). A new afterword treats some of the developments since the book's initial publication in German, such as the effects of the 1988 Indian gaming law that allowed Indian reservations to operate gambling establishments (with mixed success). "Provides a good overview of the basic questions and problems facing reservation Indians today."—Peter Bolz, *Journal of American History* (on the German edition)

In *Indigenous Writes*, Chelsea Vowel, writer, lawyer, and intellectual, opens an important dialogue about these (and more) concepts and the wider social beliefs associated with the relationship between Indigenous peoples and Canada. In 31 essays, Chelsea explores the Indigenous experience from the time of contact to the present, through five categories – Terminology of Relationships; Culture and Identity; Myth-Busting; State Violence; and Land, Learning, Law, and Treaties. She answers the questions that many people have on these topics to spark further conversations at home, in the classroom, and in the larger community.

### **Pass It On**

In 1877, Chief Standing Bear's Ponca Indian tribe was forcibly removed from their Nebraska homeland and marched to what was then known as Indian Territory (now Oklahoma), in what became the tribe's own Trail of Tears. "I Am a Man" chronicles what happened when Standing Bear set off on a six-hundred-mile walk to return the body of his only son to their traditional burial ground. Along the way, it examines the complex relationship between the United States government and the

small, peaceful tribe and the legal consequences of land swaps and broken treaties, while never losing sight of the heartbreaking journey the Ponca endured. It is a story of survival---of a people left for dead who arose from the ashes of injustice, disease, neglect, starvation, humiliation, and termination. On another level, it is a story of life and death, despair and fortitude, freedom and patriotism. A story of Christian kindness and bureaucratic evil. And it is a story of hope---of a people still among us today, painstakingly preserving a cultural identity that had sustained them for centuries before their encounter with Lewis and Clark in the fall of 1804. Before it ends, Standing Bear's long journey home also explores fundamental issues of citizenship, constitutional protection, cultural identity, and the nature of democracy---issues that continue to resonate loudly in twenty-first-century America. It is a story that questions whether native sovereignty, tribal-based societies, and cultural survival are compatible with American democracy. Standing Bear successfully used habeas corpus, the only liberty included in the original text of the Constitution, to gain access to a federal court and ultimately his freedom. This account aptly illuminates how the nation's delicate system of checks and balances worked almost exactly as the Founding Fathers envisioned, a system arguably out of whack and under siege today. Joe Starita's well-researched and insightful account reads like historical fiction as his careful characterizations and vivid descriptions bring this piece of American history brilliantly to life.

### **Chronicle of the Indian Wars**

A masterpiece of Pueblo Indian mythology, now in a restored edition Edward Proctor Hunt, a Pueblo Indian man, was born in 1861 in the mesa-top village of Acoma, New Mexico, and initiated into several secret societies, only to later break with his people's social and religious codes. In 1928, he recited his version of the origin myth of the Acoma Indians to Smithsonian Institution scholars. Hailed by many as the most accessible of all epic narratives recounting a classic Pueblo Indian story of creation, migration, and ultimate residence, the myth offers a unique window into Pueblo Indian cosmology and ancient history, revealing how a premodern society answered key existential questions and formed its customs. In this new edition, Peter Nabokov renders this important document into a clear sequence, adds excerpted material from the original storytelling sessions, and explores the creation and roles of such myths in Pueblo Indian cultures. The remarkable life of Edward Hunt is the subject of Peter Nabokov's companion volume, *How the World Moves*, which follows Hunt and his sons on their passage from tradition to modernity as they strike out as native entrepreneurs and travelling interpreters of American Indian lore. From the Trade Paperback edition.

### **The Origin Myth of Acoma Pueblo**

Using contemporary autobiography theory and literary, historical, and ethnographic approaches, Wong explores the transformation of Native American autobiography from pre-contact oral and pictographic personal narratives through late nineteenth-/early twentieth-century life histories to written contemporary autobiographies. This book expands the definition of autobiography to include non-written forms of personal narrative and non-Western concepts of self, highlighting the incorporation of traditional tribal modes of self-narration with Western forms of autobiography and charting the historical transition from orality to literacy.

Contrary to the conventional wisdom about what makes a good negotiator - to be aggressive, intimidating, and unemotional - Taheripour has a radically different perspective. What she's found in her classes and in her own deal-making is that the best negotiators are empathetic, curious, and present, and that the essence of bargaining isn't the transaction, but the conversation and the human connection. It's when we bring our whole, authentic selves to the table that we can both advocate for ourselves fearlessly and find creative solutions so everyone wins.

## **The Surrounded**

Remarkable for their eloquence, depth of feeling, and oratorical mastery, these 82 compelling speeches encompass five centuries of Indian encounters with nonindigenous people. Beginning with a 1540 refusal by a Timucua chief to parley with Hernando de Soto ("With such a people I want no peace"), the collection extends to the 20th-century address of activist Russell Means to the United Nations affiliates and members of the Human Rights Commission ("We are people who love in the belly of the monster"). Other memorable orations include Powhatan's "Why should you destroy us, who have provided you with food?" (1609); Red Jacket's "We like our religion, and do not want another" (1811); Osceola's "I love my home, and will not go from it" (1834); Red Cloud's "The Great Spirit made us both" (1870); Chief Joseph's "I will fight no more forever" (1877); Sitting Bull's "The life my people want is a life of freedom" (1882); and many more. Other notable speakers represented here include Tecumseh, Seattle, Geronimo, and Crazy Horse, as well as many lesser-known leaders. Graced by forceful metaphors and vivid imagery expressing emotions that range from the utmost indignation to the deepest sorrow, these addresses are deeply moving documents that offer a window into the hearts and minds of Native Americans as they struggled against the overwhelming tide of European and American encroachment. This inexpensive edition, with informative notes about each speech and orator, will prove indispensable to anyone interested in Native American history and culture.

## **Where the Lightning Strikes**

Native American Autobiography is the first collection to bring together the major autobiographical narratives by Native American people from the earliest documents that exist to the present. The thirty narratives included here cover a range of tribes and cultural areas, over a span of more than 200 years. From the earliest known written memoir—a 1768 narrative by the Reverend Samson Occom, a Mohegan, reproduced as a chapter here—to recent reminiscences by such prominent writers as N. Scott Momaday and Gerald Vizenor, the book covers a broad range of Native American experience. The sections include "Traditional Lives;" "The Christian Indians, from the Eighteenth Century to Indian Removal, 1830;" "The Resisting Indians, from Indian Removal to Wounded Knee, 1830-90;" "The Closed Frontier, 1890-;" "The Anthropologists' Indians, 1900-;" "'Native American Renaissance,' 1968-;" and "Traditional Lives Today." Editor Arnold Krupat provides a general introduction, a historical introduction to each of the seven sections, extensive headnotes for each selection, and suggestions for further

Both an unflinching indictment of past wrongs and an impassioned call to America to educate its citizens about the history of Africa and its people, *The Debt* says in no uncertain terms what white America owes blacks—and what blacks owe themselves. In this powerful and controversial book, distinguished African-American political leader and thinker Randall Robinson argues for the restoration of the rich history that slavery and segregation severed. Drawing from research and personal experience, he shows that only by reclaiming their lost past and proud heritage can blacks lay the foundation for their future. And white Americans can begin making reparations for slavery and the century of racial discrimination that followed with monetary restitution, educational programs, and the kinds of equal opportunities that will ensure the social and economic success of all citizens.
