1900-1950

The Manhattan skyline is one of the great wonders of the modern world. But how and why did it form? Much has been written about the city's architecture and its general history, but little work has explored the economic forces that created the skyline. This book chronicles the economic history of the Manhattan skyline. In the process, the book debunks some widely-held misconceptions about the city's history. Part I lays out the historical and environmental background that established Manhattan's real estate trajectory before the Skyscraper Revolution at the end of the 19th century. The book begins with Manhattan's natural and geological history and then moves on to how it influenced early land use and neighborhood formation, and how these early decisions eventually impacted the location of skyscrapers. Part II focuses specifically on the economic history of skyscrapers and the skyline, investigating the reasons for their heights, frequencies, locations, and shapes. The book discusses why skyscrapers emerged downtown and why they appeared three miles to the north in midtown, but not in between. Contrary to popular belief it was not due to the depths of Manhattan's bedrock, nor the presence of Grand Central Station. Rather midtown's emergence was a response to the economic and demographic forces that were taking place north of 14th Street after the Civil War. The book also presents the first rigorous investigation of the causes of the building boom during the Roaring Twenties. Contrary to conventional wisdom, the boom was largely a rational response to the

economic growth of the nation and city. The last chapter investigates the value of Manhattan Island and the relationship between skyscrapers and land prices. Finally, an Epilogue offers policy recommendations for a resilient and robust future skyline.

The Cross, the Plow and the Skyline

"A curated collection of the New York Times' travel column, "Footsteps," exploring classic authors' relationships to landmarks and cities around the world Before The Sun Also Rises, Ernest Hemingway roamed the streets of Madrid, eager for the

heady scent of blood emanating from the nearby bullrings. Before spunky, red-headed Anne Shirley stole readers' hearts in *Anne of Green Gables*, L.M. Montgomery was captivated by the sunset sky of Prince Edward Island. And before readers were terrified by a tentacled dragon-man called Cthulhu, H.P. Lovecraft was enthralled by the Industrial Trust tower-- the 26-story skyscraper that makes up the skyline of Providence, Rhode Island. Based on the popular New York Times travel column, *Footsteps* is an anthology of literary pilgrimages, exploring the geographic muses behind some of history's greatest writers. From the "dangerous, dirty and seductive" streets of Naples, the setting for Elena Ferrante's famous Neapolitan novels, to the "stone arches, creaky oaken doors, and riverside paths" of Oxford, the backdrop for Alice's adventures in *Wonderland*, *Footsteps* takes a fresh approach to literary tourism, appealing to readers and travel enthusiasts alike"--

The Christian Century

This interdisciplinary collection explores the dynamic relationship between literature and architecture from the mid-nineteenth century to the present. Contributions take the reader on a journey through unexplored byways, from Istanbul to New York to London, from event spaces to domestic interiors to the fictional buildings of the novel. Topics include the building of imaginary spaces, such as the architectural models of comic book worlds created by the cartoonist

Seth and the Museum of Innocence by Orhan Pamuk, which is both novel and building. Real architectural spaces are recontextualized through literature: reading the work of Louis Kahn through his personal library and envisioning the writing haven of James Baldwin through his novels. Another approach links literary style with architectural form, as in the work of the New York School poets, who reformulate the built environment on the page. Architectural landmarks like Robert Stevenson's Roundhouse (1847), Joseph Paxton's Crystal Palace for the Great Exhibition and the 2012 Olympic Park are reconsidered as counter-narratives of postcolonialism and empire, and the New York skyline is examined alongside literature and visual culture. This collection demonstrates the reciprocal exchange that exists between the disciplines of literature and architecture and promotes new ways of understanding these interactions.

"Well written, often poignant and surprisingly relatable." - Kirkus Reviews "A hugely readable journey of cultural and spiritual discovery, sparkling with wit and wisdom." - Alister McGrath "Carolyn Weber's memoir reads like a fast-paced novel. I loved the humor, skillful use of language and her compelling account of her steps to finding God at Oxford. I was totally captivated from beginning to end." - Marilyn Meberg Surprised by Oxford is the memoir of a skeptical agnostic who comes to a dynamic personal faith in God during graduate studies in literature at Oxford

University. Carolyn Weber arrives at Oxford a feminist from a loving but broken family, suspicious of men and intellectually hostile to all things religious. As she grapples with her God-shaped void alongside the friends, classmates, and professors she meets, she tackles big questions in search of Truth, love, and a life that matters. From issues of fatherhood, feminism, doubt, doctrine, and love, Weber explores the intricacies of coming to faith with an aching honesty and insight echoing that of the poets and writers she studied. Rich with illustration and literary references, *Surprised by Oxford* is at once gritty and lyrical; both humorous and spiritually perceptive. This savvy, credible account of Christian conversion and its after-effects follows the calendar year and events of the school year as it entertains, informs, and promises to engage even the most skeptical and unlikely reader. "Surprised by Oxford is a sprightly contribution to the genre of spiritual memoirs in the vein of C.S. Lewis's *Surprised by Joy* and Lauren F. Winner's *Girl Meets God*. Carolyn Weber is an unconventional thinker whose engagingly told faith journey will speak to folks who still believe that thoughtful people cannot be Christian." - Lyle W. Dorsett

Antiquarian Book Monthly Review

More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

Imagining New York City

Saturday Review of Literature

"Using examples from architecture, film, literature, and the visual arts, this wide-ranging book examines the place and significance of New York City in the urban imaginary between 1890 and 1940. In particular, *Imagining New York City* considers how and why certain city spaces--such as the skyline, the sidewalk, the slum, and the subway--have come to emblemize key aspects of the modern urban condition. In so doing, the book also considers the ways in which cultural

developments in the late nineteenth and early twentieth centuries set the stage for more recent responses to a variety of urban challenges facing the city, such as post-disaster recovery, the renewal of urban infrastructure, and the remaking of public space"--

Footsteps

"The best novel to come out of America-or England-for a generation." —V.S. Pritchett, *The New York Review of Books* In this unique noir masterpiece by the incomparable Saul Bellow, a young man is sucked into the mysterious, heat-filled vortex of New York City. Asa Leventhal, a temporary bachelor with his wife away on a visit to her mother, attempts to find relief from a Gotham heat wave, only to be accosted in the park by a down-at-the-heels stranger who accuses Leventhal of ruining his life. Unable to shake the stranger loose, Leventhal is led by his own self-doubts and suspicions into a nightmare of paranoia and fear. This Penguin Classics edition features an introduction by National Book Award winner Norman Rush. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,700 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. New York in Cinematic Imagination

Severance

The apocalyptic, pastoral, and urban traditions have fundamentally shaped Western history and influenced American religion, culture, and politics. This book argues that these traditions have not only been decisive in giving form and substance to classic and modern American literature, but have been appropriated by contemporary science fiction. As a loosely connected set of cultural narratives, the Cross, the Plow, and the Skyline have through the medium of science fiction provided a bold vista on the future grounded in an emergent ecological imagination. This challenging vision, the author claims, may yet settle into the New Millennium's cultural consciousness and inform an ecological politics dedicated to confronting the nation's and the world's social and environmental problems.

Advance

New York in Cinematic Imagination is an interdisciplinary study into urbanism and cinematic representations of the American metropolis in the twentieth century. It contextualizes spatial transformations and discourse about New York during the Great Depression and the Second World War, examining both imaginary narratives and documentary images of the city in film. The book argues that alternating endorsements and critiques of the 1920s machine age city are replaced in films of the 1930s and 1940s by a new critical theory of "agitated urban modernity" articulated against the backdrop of turbulent economic and social settings and the initial practices of urban renewal in the post-war period. Written for postgraduates and researchers in the fields of film, history and urban studies, with 40 black and white illustrations to work alongside the text, this book is an engaging study into cinematic representations of New York City.

Spatial Perspectives

When Orhan Pamuk won the Nobel Prize for Literature in 2006, he was honored as a builder of bridges across a dangerous chasm. By rendering his Turkish characters and settings familiar where they would otherwise seem troublingly foreign, and by speaking freely against his authoritarian state, he demonstrated a variety of

literary greatness that testified also to the good literature can do in the world. Gloria Fisk challenges this standard for canonization as “world literature” by showing how poorly it applies to Pamuk. Reading the Turkish novelist as a case study in the ways Western readers expand their reach, Fisk traces the terms of his engagement with a literary market dominated by the tastes of its Anglophone publics, who received him as a balm for their anxieties about Islamic terrorism and the stratifications of global capitalism. Fisk reads Pamuk’s post-9/11 novels as they circulated through this audience, as rich in cultural capital as it is far-flung, in the American English that is global capital’s lingua franca. She launches a polemic against Anglophone readers’ instrumental use of literature as a source of crosscultural understanding, contending that this pervasive way of reading across all manner of borders limits the globality it announces, because it serves the interests of the Western cultural and educational institutions that produce it. Orhan Pamuk and the Good of World Literature proposes a new way to think about the uneven processes of translation, circulation, and judgment that carry contemporary literature to its readers, wherever they live.

The Web of Meaning

The title of these eleven essays and talks comes from Vygotsky's famous observation that writing is elaborating the web of meaning. Arranged chronologically, they form a remarkable story of how one of the most thoughtful and provocative researchers and teachers in the English profession came to an ever-deepening understanding of what writing and learning are, how they can be nurtured, and what teaching means in relation to themselves.

With the recent passing of her Chinese immigrant parents, she's had her fill of uncertainty. She's content just to carry on: She goes to work,

troubleshoots the teen-targeted Gemstone Bible, watches movies in a Greenpoint basement with her boyfriend. So Candace barely notices when a plague of biblical proportions sweeps New York. Then Shen Fever spreads. Families flee. Companies cease operations. The subways screech to a halt. Her bosses enlist her as part of a dwindling skeleton crew with a big end-date payoff. Soon entirely alone, still unfevered, she photographs the eerie, abandoned city as the anonymous blogger NY Ghost. Candace won't be able to make it on her own forever, though. Enter a group of survivors, led by the power-hungry IT tech Bob. They're traveling to a place called the Facility, where, Bob promises, they will have everything they need to start society anew. But Candace is carrying a secret she knows Bob will exploit. Should she escape from her rescuers? A send-up and takedown of the rituals, routines, and missed opportunities of contemporary life, Ling Ma's *Severance* is a moving family story, a quirky coming-of-adulthood tale, and a hilarious, deadpan satire. Most important, it's a heartfelt tribute to the connections that drive us to do more than survive.
