### **Birthday Reminder Book**

### **America's Last Great Newspaper War**

"A valuable, important, and searching analysis of press coverage and commentary during the civil rights years in America."-Gene Roberts, co-author of *The Race Beat: The Press, the Civil Rights Struggle, and the Awakening of a Nation*

### **Newspaper World**

A from-the-trenches view of New York Daily News and New York Post runners and photographers as they stop at nothing to break the story and squash their tabloid arch-rivals. When author Mike Jaccarino was offered a job at the Daily News in 2006, he was asked a single question: "Kid, what are you going to do to help us beat the Post?" That was the year things went sideways at the News, when the New York Post surpassed its nemesis in circulation for the first time in the history of both papers. Tasked with one job—crush the Post—Jaccarino here provides the

behind-the-scenes story of how the runners and shooters on both sides would do anything and everything to get the scoop before their opponents. The New York Daily News and the New York Post have long been the Hatfields and McCoys of American media: two warring tabloids in a town big enough for only one of them. As digital news rendered print journalism obsolete, the fight to survive in NYC became an epic, Darwinian battle. In America's Last Great Newspaper War, Jaccarino exposes the untold story of this tabloid death match of such ferocity and obsession its like has not occurred since Pulitzer- Hearst. Told through the eyes of hungry "runners" (field reporters) and "shooters" (photographers) who would employ phony police lights to overcome traffic, Mike Jaccarino's memoir unmask the do-whatever-it-takes era of reporting—where the ends justified the means and nothing was off-limits. His no-holds-barred account describes sneaking into hospitals, months-long stakeouts, infiltrating John Gotti's crypt, bidding wars for scoops, high-speed car chases with Hillary Clinton, O.J. Simpson, and the baby mama of a philandering congressman—all to get that coveted front-page story. Today, few runners and shooters remain on the street. Their age and exploits are as bygone as the News-Post war and American newspapers, generally. Where armies once battled, often no one is covering the story at all. ### **Greek Gazette**

This “extraordinary history” of the influential black newspaper is “deeply researched, elegantly written [and] a towering achievement” (Brent Staples, New York Times Book Review). In 1905, Robert S. Abbott started printing The Chicago Defender, a newspaper dedicated to condemning Jim Crow and encouraging African Americans living in the South to join the Great Migration. Smuggling hundreds of thousands of copies into the most isolated communities in the segregated South, Abbott gave voice to the voiceless, galvanized the electoral power of black America, and became one of the first black millionaires in the process. His successor wielded the newspaper’s clout to elect mayors and presidents, including Harry S. Truman and John F. Kennedy, who would have lost in

1960 if not for The Defender's support. Drawing on dozens of interviews and extensive archival research, Ethan Michaeli constructs a revelatory narrative of journalism and race in America, bringing to life the reporters who braved lynch mobs and policemen's clubs to do their jobs, from the age of Teddy Roosevelt to the age of Barack Obama. "[This] epic, meticulously detailed account not only reminds its readers that newspapers matter, but so do black lives, past and present." —USA Today

This Text-book traces the evolution of the newspaper, documenting its changing form, style and content as well as identifying the different roles ascribed to it by audiences, government and other social institutions. Starting with the early 17th century, when the first prototype newspapers emerged, through Dr Johnson, the growth of the radical press in the early 19th century, the Lord Northcliffe revolution in the early 20th century, the newspapers wars of the 1930s and the rise of the tabloid in the 1970s, right up to Rupert Murdoch and the online revolution, the book explores the impact of the newspapers on our lives and its role in British society. Using lively and entertaining examples, Kevin Williams illustrates the changing form of the newspaper in its social, political, economic and cultural context. As well as telling the story of the newspaper, he explores key topics in detail, making this an ideal text for students of journalism and the British

Against all odds, the seeds of social change found purchase in mid-twentieth century South Carolina. Newspaperman John McCray and his allies at the Lighthouse and Informer challenged readers to "rebel and fight"--to reject the "slavery of thought and action" and become "progressive fighters" for equality. Newspaper Wars traces the role journalism played in the fight for civil rights in South Carolina from the 1930s through the 1960s. Moving the press to the center

of the political action, Sid Bedingfield tells the stories of the long-overlooked men and women on the front lines of a revolution. African American progress sparked a battle to shape South Carolina's civic life, with civil rights activists arrayed against white journalists determined to preserve segregation through massive resistance. As that strategy failed, white newspapers turned to overt political action and crafted the still-prevalent narratives that aligned southern whites with the national conservative movement. A fascinating portrait of a defining time, *Newspaper Wars* analyzes the role journalism played--and still can play--during times of social, cultural, and political change.

### **The Defender**

The first weekly English newsbooks appeared in November 1641, on the eve of the civil war. Though they provoked animosity and fanned the flames of civil war, they have survived almost without interruption to the present day, transformed into the modern newspaper. *The Invention of the Newspaper* is the first detailed account of the origins and early development of the English newspaper, using a wealth of new evidence to show the causes of the first newsbooks, and their many and complex roles in the turbulent society in which they participated. Newsbooks were widely read and exerted considerable influence not only over immediate perceptions of news, but also over subsequent histories of the seventeenth-century, extending even to the present day. Using and synthesizing approaches from literary criticism, history, and the "sociology of texts," *The Invention of the Newspaper* shows how newsbooks transformed print culture, fed the public hunger for news, and in turn created a market for news periodical. Charting the newsbook's development as a

form and a commercial enterprise, its literary qualities, and its relationship to other means of communication, *The Invention of the Newspaper* shows the newsbook's gradual and irresistible dominance of the market for information.

In an age when local daily papers with formerly robust reporting are cutting sections and even closing their doors, the contributors to *The Life of Kings* celebrate the heyday of one such paper, the Baltimore Sun, when it set the agenda for Baltimore, was a force in Washington, and extended its reach around the globe. Contributors like David Simon, creator of HBO's *The Wire*, and renowned political cartoonist Kevin Kallaugher (better known as KAL), tell what it was like to work in

what may have been the last golden age of American newspapers -- when journalism still seemed like “the life of kings” that H.L. Mencken so cheerfully remembered. The writers in this volume recall the standards that made the Sun and other fine independent newspapers a bulwark of civic life for so long. Their contributions affirm that the core principles they followed are no less imperative for the new forms of journalism: a strong sense of the public interest in whose name they were acting, a reverence for accuracy, and an obligation to keep faith with the reader.

### **Newspaper Wars**

The Boston Globe hailed *Privileged Son* as "a well-researched, tough-minded, superbly composed story" by an author "adept at mixing scandal and gossip with art and business." It's the riveting tale of how a second-rate newspaper rose to greatness only to become a casualty of war—a civil war within the family that owned it. The story, never before told in such hard-edged style, spans the American Century, from 1884, when the Chandler family gained control of the just-born daily, through April 2000, when they sold it to the Tribune Company. With a capriciousness that is seldom seen even in the most dysfunctional media dynasties, the Chandlers, who helped make the national careers of Richard Nixon, Ronald Reagan, and other major political figures, controlled Los Angeles and the Times Mirror Corporation—and *Privileged Son* captures it all.

### **The World Almanac and Book of Facts 2016**

The newspaper has a history; but it has, likewise, a natural history. The press, as it exists, is not, as our moralists sometimes seem to assume, the willful product of any little group of living men. On the contrary, it is the outcome of an historic process in which many individuals participated without foreseeing what the

ultimate product of their labors was to be. The newspaper, like the modern city, is not wholly a rational product. No one sought to make it just what it is. In spite of all the efforts of individual men and generations of men to control it and to make it something after their own heart, it has continued to grow and change in its own incalculable ways. The type of newspaper that exists is the type that has survived under the conditions of modern life. The men who may be said to have made the modern newspaper—James Gordon Bennett, Charles A. Dana, Joseph Pulitzer, and William Randolph Hearst—are the men who discovered the kind of paper that men and women would read and had the courage to publish it. The natural history of the press is a history of a surviving species. It is one of the most characteristic fruits of enlightenment, due to the extension of the opportunities of education to the masses of the population. The modern newspaper is a product of city life; it is no longer merely an organ of propaganda and opinion, but a form of popular literature. The journal of opinion was largely a business man's newspaper. The so-called independent press added to its public the so-called artisan class. The yellow press was created mainly to capture immigrants, and women. It was this increase of circulation that made the newspaper—formerly a subsidized organ of the parties an independent business enterprise, an envelope and carrier for advertising.

Dr Munter studies the growth and changing nature of the Irish periodical press

from the time of the Protestant Ascendancy under William III to 1760, when provincial papers began to flourish outside Dublin. This was the period when newspapers were produced very largely in Dublin, mostly for local circulation among the English-speaking Protestant upper class. Dr Munter first sets the production of newspapers within the general history of Irish printing and bookselling, and the organisation of the trade. He then examines particular aspects of Irish newspaper history, presenting evidence about the importation of paper and the growth of local manufacture; the development of advertising and its importance as an element in the financial structure of the newspaper; evidence of the profitability of newspapers; circulation figures; the effect of the communications system on the supply and dissemination of news; the status of journalists and the development of the journalistic ethic; and analysis of the contents of the papers.
