The story of visionary American running coach Bob Larsen's mismatched team of elite California runners who would win championships and Olympic glory in a decades-long pursuit of "the epic run." In the dusty hills above San Diego, Bob Larsen became America's greatest running coach. *Running to the Edge* is a riveting account of Larsen's journey, and his quest to discover the unorthodox training secrets that would lead American runners to breakthroughs never imagined. Fatterman interweaves the dramatic stories of Larsen's runners with a fascinating discourse on the science behind human running, as well as a personal running narrative that follows Fatterman's own checkered love-affair with the sport. The result is a narrative that will speak to every runner, a story of Larsen's triumphs--from high school cross-country meets to the founding of the cult-favorite, 70's running group, the Jamul Toads; from his long tenure as head coach at UCLA to the secret training regimen of world champion athletes like Larsen's protégé, Meb Keflezighi. *Running to the Edge* is a page-turner . . . a relentless crusade to run faster, farther.

"After years of rumors and speculation, Matt Hart sets out to peel back the layers of secrecy that protected the most powerful coach in running. What he finds will leave you indignant—and wondering whether anything in the high-stakes world of Olympic sport has truly changed." —Alex Hutchinson, New York Times bestselling author of *Endure* *Game of Shadows* meets *Shoe Dog* in this explosive behind-the-scenes look that reveals for the first time the unsettling details of Nike's secret running program—the Nike Oregon Project. In May 2017, journalist Matt Hart received a USB drive containing a single file—a 4.7-megabyte PDF named “Tic Toc, Tic Toc. . . .” He quickly realized he was in possession of a stolen report prepared a year earlier by the United States Anti-Doping Agency (USADA) for the Texas Medical Board, part of an investigation into legendary running coach Alberto Salazar, a Houston-based endocrinologist named Dr. Jeffrey Brown, and cheating by Nike-sponsored runners, including some of the world’s best athletes. The information Hart received was part of an unfolding story of deception which began when Steve Magness, an assistant to Salazar, broke the omertà—the Mafia-like code of silence about performance-enhancing drugs among those involved—and alerted USADA. He was soon followed by Olympians Adam and Kara Goucher who risked their careers to become whistleblowers on their former Nike running family in Beaverton, Oregon. Combining sports drama and business exposé, *Win at All Costs* tells the full story of Nike’s running program, uncovering a corporate win-at-all-costs culture.

Insiders' Guide to Florida's Great Northwest

The dramatic expose of how the University of Oregon sold its soul to Nike, and what that means for the future of our public institutions and our society. **A New York Post Best Book of the Year** In the mid-1990s, facing severe cuts to its public funding, the University of Oregon—like so many colleges across the country—was desperate for cash. Luckily, the Oregon

Ducks' 1995 Rose Bowl berth caught the attention of the school's wealthiest alumnus: Nike founder Phil Knight, who was seeking new marketing angles at the collegiate level. And so the University of Nike was born: Knight has so far donated more than half a billion dollars to the school in exchange for high-visibility branding opportunities. But as journalist Joshua Hunt shows in *University of Nike*, Oregon has paid dearly for the veneer of financial prosperity and athletic success that has come with this brand partnering. Hunt uncovers efforts to conceal university records, buried sexual assault allegations against university athletes, and cases of corporate overreach into academics and campus life—all revealing a university being run like a business, with America's favorite "Shoe Dog" calling the shots. Nike money has shaped everything from Pac-10 television deals to the way the game is played, from the landscape of the campus to the type of student the university hopes to attract. More alarming still, Hunt finds other schools taking a page from Oregon's playbook. Never before have our public institutions for research and higher learning been so thoroughly and openly under the sway of private interests, and never before has the blueprint for funding American higher education been more fraught with ethical, legal, and academic dilemmas. Encompassing more than just sports and the academy, *University of Nike* is a riveting story of our times.
