A prophetic memoir by the activist who “articulated the intellectual foundations” (The New Yorker) of the civil rights and women’s rights movements. First published posthumously in 1987, Pauli Murray’s *Song in a Weary Throat* was critically lauded, winning the Robert F. Kennedy Book Award and the Lillian Smith Book Award among other distinctions. Yet Murray’s name and extraordinary influence receded from view in the intervening years; now they are once again entering the public discourse. At last, with the republication of this “beautifully crafted” memoir, *Song in a Weary Throat* takes its rightful place among

the great civil rights autobiographies of the twentieth century. In a voice that is energetic, wry, and direct, Murray tells of a childhood dramatically altered by the sudden loss of her spirited, hard-working parents. Orphaned at age four, she was sent from Baltimore to segregated Durham, North Carolina, to live with her unflappable Aunt Pauline, who, while strict, was liberal-minded in accepting the tomboy Pauli as “my little boy-girl.” In fact, throughout her life, Murray would struggle with feelings of sexual “in-betweenness”—she tried unsuccessfully to get her doctors to give her testosterone—that today we would recognize as a transgendered identity. We then follow Murray north at the age of seventeen to New York City’s Hunter College, to her embrace of Gandhi’s Satyagraha—nonviolent resistance—and south again, where she experienced Jim Crow firsthand. An early Freedom Rider, she was arrested in 1940, fifteen years before Rosa Parks’ disobedience, for sitting in the whites-only section of a Virginia bus. Murray’s activism led to relationships with Thurgood Marshall and Eleanor Roosevelt—who respectfully referred to Murray as a “firebrand”—and propelled her to a Howard University law degree and a lifelong fight against “Jane Crow” sexism. We also read Betty Friedan’s enthusiastic response to Murray’s call for an NAACP for Women—the origins of NOW. Murray sets these thrilling high-water marks against the backdrop of uncertain finances, chronic fatigue, and tragic losses both private and public, as Patricia Bell-Scott’s engaging introduction brings to life. Now, more than thirty years after her death in 1985, Murray—poet, memoirist, lawyer, activist, and Episcopal priest—gains long-deserved recognition through a

rediscovered memoir that serves as a “powerful witness” (Brittney Cooper) to a pivotal era in the American twentieth century.

This volume contains the complete proceedings of a NATO Advanced Study Institute on various aspects of the reliability of electronic and other systems. The aim of the Institute was to bring together specialists in this subject. An important outcome of this Conference, as many of the delegates have pointed out to me, was complementing theoretical concepts and practical applications in both software and hardware. The reader will find papers on the mathematical background, on reliability problems in establishments where system failure may be hazardous, on reliability assessment in mechanical systems, and also on life cycle cost models and spares allocation. The proceedings contain the texts of all the lectures delivered and also verbatim accounts of panel discussions on subjects chosen from a wide range of important issues. In this introduction I will give a short account of each contribution, stressing what I feel are the most interesting topics introduced by a lecturer or a panel member. To visualise better the extent and structure of the Institute, I present a tree-like diagram showing the subjects which my co-directors and I would have wished to include in our deliberations (Figures 1 and

PRISON PUZZLE PIECES 3 (the third of a three volume series) is a non-fiction account of a corrections officer working in Stillwater Prison in Minnesota after he stopped traveling the country performing standup comedy and improv. Through examples, explanations and experiences, he explains how the entire system works, piece by piece, by presenting hundreds of events that occurred in that dysfunctional little city contained within those walls and razor ribbon. His unique perspectives earned him the respect of inmates and officers; on the other hand his life was in constant danger from other inmates and officers for him doing his job ethically. presents the more humorous side of what goes on in prisons along with some of the more disgusting things that must be dealt with. How the education department, canteen, gangs, Native Americans, towers, unions, liars, smuggling, tattooing, violations, religion, industry, health care, recreation and more all play a role in this dysfunctional society. As in all of these volumes, infamous criminals in the system are presented, inmate grievances & requests written to the author, good & bad inmates, good and bad officers, and many more puzzle pieces. Nothing is embellished. Nothing need be embellished.

The 650th anniversary of the foundation of Wingfield College was the occasion for a special two-day symposium marking the culmination of a three-year UEA-funded research project into the college and castle. The building projects of the late medieval aristocracy focused on their homes and the monasteries, churches or chantry foundations under their patronage where their family were buried and commemorated. This commemoration allowed a visual celebration of their achievements, status and lineage, the scale and prestige of which reflected on the fortunes of the family as a whole. Wingfield is explored in the context of both the actual building of the castle, chantry chapel and the college, and that of the symbolic function of these as a demonstration ion

of aristocratic status. The contributions to this book examine many topics which have hitherto been neglected, such as the archaeology of the castle, which had never been excavated, the complex history of the college's architecture, and the detailed study of the monuments in the church. The latest techniques are used to reconstruct the college and castle, with a DVD to demonstrate these. And the context of the family and its fortunes are explored in chapters on the place of the de la Poles in fifteenth century history, as soldiers, administrators and potential claimants to the throne.

the claim that multiculturalism has failed. That claim is opened to scrutiny and challenged in this unique collection through a series of explorations of specific issues and controversies - including the question of the veil, crime, political Islam, the role of Muslim women, sexuality and the Danish cartoons affair - and through more general reflections on the nature of multiculturalism. By exploring the nature of cultural differences and sensitivities and examining the way conflicts have played out, this challenging book makes a wide-ranging contribution to debate and a more constructive inter-cultural engagement. The contributors draw upon the disciplines of social science, ethics, theology, philosophy and education to examine the nature of the issues and flashpoints and to draw out implications for theory, policy and practice." --from back cover.

Since its formation in 1932, Saudi Arabia has been ruled by two interdependent families. The Al Sa'uds control politics and the descendants of Ibn Abd al-Wahhab impose Wahhabism—a violent, fanatical perversion of the pluralistic Islam practiced by most Muslims. Stephen Schwartz argues that Wahhabism, vigorously exported with the help of Saudi oil money, is what incites Palestinian suicide bombers, Osama bin Laden, and other Islamic terrorists throughout the world. Schwartz reveals the hypocrisy of the Saudi

regime, whose moderate facade conceals state-sponsored repression and terrorism. He also raises troubling questions about Wahhabi infiltration of America's Islamic community and about U.S. oil companies sanitizing Saudi Arabia's image for the West. This sharp analysis and eye-opening expose illuminates the background to the September 11th terrorist attacks and offers new approaches for U.S. policy toward its closest ally in the Middle East.

Amidst rumors that the Paris opera house is haunted, Christine Daaé, a young Swedish girl, performs at a gala and attracts attention from both her childhood sweetheart, Raoul, and the Phantom, who is living underground. Suddenly, mysterious circumstances abound at the opera house: a stagehand is found dead, managers receive letters demanding that Christine sing the lead role, and a chandelier crashes down into the audience. When Christine reunites with Raoul, the phantom grows dangerously jealous. Will Christine stay on the stage or disappear into the opera house's dark cellars and grim secrets?
