The deluxe eBook edition of stand-up comedian and WNYC podcaster Phoebe Robinson's *You Can't Touch My Hair* brings Phoebe's hilarious voice off the page, directly into your eyes and ears. This enhanced edition features exclusive video footage with cameos by some of Phoebe's comedy besties, plus more than an hour of audio where Phoebe talks regrettable crushes from the 90s, advice she wishes someone had given her as a teenager, the influence of RuPaul, and much more. Delivered in her signature style, Phoebe serves laughter and levity alongside more serious topics at rapid-fire speeds, topped—as always—with pop culture references for days. A hilarious and timely essay collection about race, gender, and pop culture from upcoming comedy superstar and 2 Dope Queens podcaster Phoebe Robinson *Being a black woman in America* means contending with old prejudices and fresh absurdities every day. Comedian Phoebe Robinson has experienced her fair share over the years: she's been unceremoniously relegated to the role of "the black friend," as if she is somehow the authority on all things racial; she's been questioned about her love of U2 and Billy Joel ("isn't that . . . white people music?"); she's been called "uppity" for having an opinion in the workplace; she's been followed around stores by security guards; and yes, people do ask her whether they can touch her hair all the time. Now, she's ready to take these topics to the page—and she's going to make you laugh as she's doing it. Using her trademark wit alongside pop-culture references galore, Robinson explores

everything from why Lisa Bonet is "Queen. Bae. Jesus," to breaking down the terrible nature of casting calls, to giving her less-than-traditional advice to the future female president, and demanding that the NFL clean up its act, all told in the same conversational voice that launched her podcast, 2 Dope Queens, to the top spot on iTunes. As personal as it is political, *You Can't Touch My Hair* examines our cultural climate and skewers our biases with humor and heart, announcing Robinson as a writer on the rise.

The most powerful tech companies in the world are determined to stop Donald Trump. Journalist Allum Bokhari has spent four years investigating the tech giants that dominate the Internet: Google, Facebook, YouTube, Twitter. He has discovered a dark plot to seize control of the flow of information, and utilize that power to its full extent - to censor, manipulate, and ultimately sway the outcome of democratic elections. His network of whistleblowers inside Google, Facebook and other companies explain how the tech giants now see themselves as "good censors," benevolent commissars controlling the information we receive to "protect" us from

"dangerous" speech. They reveal secret methods to covertly manipulate online information without us ever being aware of it, explaining how tech companies can use big data to target undecided voters. They lift the lid on a plot four years in the making - a plot to use the power of technology to stop Donald Trump's re-election.

Dublin, 1918: three days in a maternity ward at the height of the Great Flu. A small world of work, risk, death and unlooked-for love, by the bestselling author of *The Wonder* and *ROOM*. In an Ireland doubly ravaged by war and disease, Nurse Julia Power works at an understaffed hospital in the city center, where expectant mothers who have come down with the terrible new Flu are quarantined together.

Into Julia's regimented world step two outsiders—Doctor Kathleen Lynn, on the run from the police, and a young volunteer helper, Bridie Sweeney. In the darkness and intensity of this tiny ward, over three days, these women change each other's lives in unexpected ways. They lose patients to this baffling pandemic, but they also shepherd new life into a fearful world. With tireless tenderness and humanity, carers and mothers alike somehow do their impossible work. In *The Pull of the Stars*, Emma Donoghue once again finds the light in the darkness in this new classic of hope and survival against all odds.

I should have died quick. But I didn't. I'm a miracle of modern medicine, only the medicine doesn't get much credit, I notice. People say I'm lucky, or I'm blessed, and then they turn away. I'm not the only miracle. There's Odd too. Polly Furnas had The Plan for the future. Get married to Bridger Morgan, for one. College, career, babies. Etc. All the important choices were made. It was all happily-ever-after as a diamond-ring commercial. But The Plan did not include a lethal drug-resistant infection. It did not include "some more reconstruction and scar revision in the future." And it certainly did not include Odd Estes, a trip to Portland in an ancient Cadillac to "tear Bridger a new one," fly fishing, marshmallows, Crisco, or a loaded gun. But plans change. Stories get revised and new choices must be made. Polly and Odd have choices. Surviving or not. Catch or release.
