OCR GCSE Computer Science (9-1) J277

Latin Beyond GCSE covers all the linguistic requirements for the OCR AS and A Level in Latin. It aims to bring students to a point where they can tackle original Latin texts with confidence. Although designed as a continuation of Latin to GCSE, it is self-contained and can be used independently. This new edition is brought in line with the new OCR specifications and benefits from a completely redesigned layout, with added colour and images. The answer key is available on a companion website. The first part of the book introduces new constructions and the translation of sentences from English to Latin, with reading passages at AS standard. The next sections provide translation and comprehension passages at AS and A-level, including verse unseens, scansion, and a list of 300 common poetic words. Next come longer unadapted extracts from a range of authors. Finally there is a reference section including a summary of all constructions, a comprehensive grammar, and a general vocabulary of about 1200 Latin words.

OCR GCSE (9-1) Religious Studies

The aim of this book is to provide an accessible text for students, covering each of the elements in the OCR GCSE (9-1)

Computer Science specification J276. It will be invaluable both as a course text and in revision for students nearing the end of the course. It is divided into eight sections, each broken down into manageable chapters of roughly one lesson. Sections 5 and 6 of the textbook cover algorithms and programming concepts with a theoretical approach to provide students with experience of writing, tracing and debugging pseudocode solutions without the aid of a computer. These sections would complement practical programming experience. Each of the eight sections cover one of the major topics in this course, and each subtopic contains sample examination questions from past papers, which can be set as homework.

OCR GCSE History Explaining the Modern World: Modern World History Period and Depth Studies

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Foundation tier specification for first teaching from 2015, this Student Book provides full coverage of the new GCSE Mathematics qualification. A Life in Questions

News, views and hilarious stories from the legend of Newsnight and long-standing quiz master of University Challenge.
'Bursting with good things' Daily Telegraph

A Shilling Cookery for the People

A group of teenagers do something bad, really bad, then panic and cover the whole thing up. But when they find that the cover-up unites them and brings harmony to their otherwise fractious lives, where's the incentive to put things right? DNA is a poignant and, sometimes, hilarious tale with a very dark heart. A contemporary play for younger people, DNA opened at the National Theatre in February 2008

Latin to GCSE

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. GCSE Latin Anthology for OCR Teacher's Handbook

“A perfect book”—and basis for the Maggie Smith film—about a teacher who makes a lasting impression on her female students in the years before World War II (Chicago Tribune). “Give me a girl at an impressionable age, and she is mine for life!” So asserts Jean Brodie, a magnetic, dubious, and sometimes comic teacher at the conservative Marcia Blaine School for Girls in Edinburgh. Brodie selects six favorite pupils to mold—and she doesn’t stop with just their intellectual lives. She has a plan for them all, including how they will live, whom they will love, and what sacrifices they will make to uphold her ideals. When the girls reach adulthood and begin to find their own destinies, Jean Brodie’s indelible imprint is a gift to some, and a curse to others. The Prime of Miss Jean Brodie is Spark’s masterpiece, a novel that offers one of twentieth-century English literature’s most iconic and complex characters—a woman at once admirable and sinister, benevolent and conniving. This ebook features an illustrated biography of Muriel Spark including rare photos and never-before-seen documents from the author’s archive at the National Library of Scotland.

OCR Business Studies for GCSE

This book prepares students and teachers for the requirements of the 2015 OCR A Level English Language specification.

Structured and written to develop the skills on which students will be assessed in the exams and coursework, students of all abilities, through the source texts, book features and approach, will be able to make clear progress. The book offers students the opportunity to build on skills acquired at GCSE, extending them into their A Level course, ensuring that they are fully prepared for the assessment requirements of the qualifications and that students become successful, independent all-round learners. This brand new book includes the latest thinking and research thus maintaining relevance and instilling confidence in the resource. Whether students are taking AS or A Level OCR English Language, this resource offers guidance and activities to help all students achieve their potential.

Get It Right: KS3; 11-14: Spelling, Punctuation and Grammar Answer Book 3

First written in response to a JACT survey of over 100 schools, and now endorsed by OCR, this textbook has become a standard resource for students in the UK and for readers across the world who are looking for a clear and thorough introduction to the language of the ancient Greeks. Revised throughout and enhanced by coloured artwork and text features, this edition will support the new OCR specification for Classical Greek (first teaching 2016). Part 1 covers the

basics, whilst Part 2 introduces a wider range of grammatical forms and constructions, with a vocabulary of 435 words and reading material from Socrates and the Sophists to the world of myth, and finally to extended passages of lightly adapted Herodotus. Practice passages, exam papers and revision sentences for GCSE complete Part 2, which has a reference section covering the whole course. Written by a long-time school teacher and examiner, this two-part course is based on experience of what pupils find difficult, concentrating on the essentials and on the understanding of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. It aims to be user-friendly, but also to give pupils a firm foundation for further study.

Playwriting Across The Curriculum

A new series of bespoke, full-coverage resources developed for the 2015 GCSE Mathematics qualifications. Endorsed for the OCR J560 GCSE Mathematics Higher tier specification for first teaching from 2015, this Student Book provides full coverage of the new GCSE Mathematics qualification. With a strong focus on developing problem-solving skills, reasoning and fluency, it helps students understand concepts, apply techniques, solve problems, reason, interpret and communicate mathematically. Written by experienced teachers, it also includes a solid breadth and depth of quality questions set in a variety of contexts. GCSE Mathematics Online - an enhanced digital resource incorporating progression tracking - is also available, as well as Problem-solving Books, Homework Books and a free Teacher's Resource.

GCSE Mathematics for Edexcel Higher Student Book

OCR GCSE History SHP: The Norman Conquest 1065-1087

First Published in 2012. Routledge is an imprint of Taylor & Francis, an informa company.

My Revision Notes: OCR GCSE (9-1) Psychology

A companion to Bloomsbury's popular two-volume Greek to GCSE, this is the first course for Latin students that directly reflects the curriculum in a clear, concise and accessible way. Enhanced by colour artwork and text features, the books support the new OCR specification for Latin (first teaching 2016) as well as meeting the needs of later students, both at

university and beyond. Written by two experienced school teachers, one also an examiner, the course is based on a keen understanding of what pupils find difficult, concentrating on the essentials and on the explanation of principles in both accidence and syntax: minor irregularities are postponed and subordinated so that the need for rote learning is reduced. User-friendly, it also gives pupils a firm foundation for further study. Part 1 covers the basics and is self-contained, with its own reference section. It outlines the main declensions, a range of active tenses and a vocabulary of 275 Latin words to be learned. Pupil confidence is built up by constant consolidation of the material covered. After the preliminaries, each chapter concentrates on stories with one source or subject: the Fall of Troy, the journeys of Aeneas, the founding of Rome and the early kings, providing an excellent introduction to Roman culture alongside the language study.

OCR Gcse (9-1) Computer Science

GCSE English Language for OCR is the most comprehensive and accessible endorsed support package for the 2010 OCR GCSE English Language curriculum. This OxBox offers resources and planning materials to support the Student Book and Teacher Guide.

GCSE English Language for OCR OxBox CD-ROM

This book is tailored to the OCR English GCSE specification so you can be sure all aspects are covered.

An Inspector Calls

GCSE Mathematics for AQA Foundation Homework Book

A memoir of the Spanish Civil War with “the plainness of Orwell but the metaphorical soaring of a poem . . . An extraordinary book” (The New York Times Book Review). In December 1937 I crossed the Pyrenees from France—two days on foot through the snow. I don’t know why I chose December; it was just one of a number of idiocies I committed at the time. Such was Laurie Lee’s entry into the Spanish Civil War. Six months after the Nationalist uprising forced him to leave the country he had grown to love, he returned to offer his life for the Republican cause. It seemed as simple as knocking on a farmhouse door in the middle of the night and declaring himself ready to fight. It would not be the last time he was almost executed for being a spy. In that bitter winter in a divided Spain, Lee’s youthful idealism came face to face with the reality of war. The International Brigade he sought to join was not a gallant fighting force, but a collection of misfits without proper leadership or purpose. Boredom and bad food and false alarms were as much a part of the experience of war as actual

battle. And when the decisive moment finally came—the moment of him or the enemy—it left Lee feeling the very opposite of heroic. The final volume in Laurie Lee’s acclaimed autobiographical trilogy—preceded by *Cider with Rosie* and *As I Walked Out One Midsummer Morning*—is a clear-eyed and vital snapshot of a young man, and a proud nation, at a historic crossroads.

Journey to the Ants

An OCR endorsed textbook Let SHP successfully steer you through the new specification with an exciting, enquiry-based series that invigorates teaching and learning; combining best practice principles and worthwhile tasks to develop students' high-level historical knowledge and skills. - Tackle unfamiliar topics from the broadened curriculum with confidence: the engaging, accessible text covers the content you need for teacher-led lessons and independent study - Ease the transition to GCSE: step-by-step enquiries inspired by best practice in KS3 help to simplify lesson planning and ensure continuous progression within and across units - Build the knowledge and understanding students need to succeed: the scaffolded three-part task structure enables students to record, reflect on and review their learning - Boost student performance across the board: suitably challenging tasks encourage high achievers to excel at GCSE while clear explanations make key concepts accessible to all - Rediscover your enthusiasm for source work: a range of purposeful, intriguing visual and written source material is embedded at the heart of each investigation to enhance understanding - Develop students' sense of period: the visually stimulating text design uses memorable case studies, diagrams, infographics and contemporary photos to bring fascinating events and people to life

OCR Gcse English Language Student Book 2

The aim of this book is to provide a comprehensive and accessible text for students, covering Papers 1 and 2 in the latest OCR GCSE J277 Computer Science specification. It will be invaluable as a course text for students throughout the course. It is divided into eight sections, each broken down into manageable chapters of roughly one lesson. Sections 6 and 7 of the textbook cover algorithms and programming fundamentals with a theoretical approach to provide students with experience of writing, tracing and debugging pseudocode solutions without the aid of a computer. These sections would complement practical programming experience. Each of the eight sections cover one of the major topics in this course, and each subtopic contains sample examination questions from past papers, which can be set as homework.

OCR GCSE Poetry Anthology Student Book

Absolute clarity is the aim with a new generation of revision guide for the 2020s. This guide has been expertly compiled and

edited by successful former teachers of Computer Science, highly experienced examiners and a good dollop of scientific research into what makes revision most effective. Past examinations questions are essential to good preparation, improving understanding and confidence. This guide has combined revision with tips and more practice questions than you could shake a stick at. All the essential ingredients for getting a grade you can be really proud of. Each specification topic has been referenced and distilled into the key points to make in an examination for top marks. Questions on all topics assessing knowledge, application and analysis are all specifically and carefully devised throughout this book.

OCR GCSE (9-1) Citizenship Studies

Richly illustrated and delightfully written, Journey to the Ants combines autobiography and scientific lore to convey the excitement and pleasure the study of ants can offer. Bert Hölldobler and E. O. Wilson interweave their personal adventures with the social lives of ants, building, from the first minute observations of childhood, a remarkable account of these abundant insects' evolutionary achievement.
