From the author of *Omega Watches*, a new book that completes the history of the famous Swiss brand with a series of creations conceived for the world of sport. More than fifty items photographed full page, together with enlargements revealing the details of watchcase, face, clockwork and related calibres. *Omega Sport Watches* tells the story of the Seamaster, Railmaster, Speedmaster, Flightmaster and other successful Omega creations. Among limited editions, anecdotes and rarities the history of these watches is told by the great American collector John Goldberger, with an introduction by Giampiero Negretti. One section of the book retraces, through advertisements kept in the Omega Museum, the history of the famous hands which over the years have consolidated the fame of this brand. Founded in 1848 by Louis Brandt in La-Chaux-de-Fonds, in 1880 the company moved to its current headquarters in Bienne, the name Omega however dates only to the beginning of last century. Prior to that date Louis Brandt production was known for the various names that he put on the watch face, such as Jura, Patria, Helvetia and Labrador.

“Keep away from MR. AURIC GOLDFINGER. He is a most powerful man. If he wished to crush you, he would only have to roll over in his sleep to do so.” OPERATION GRAND SLAM Secret agent James Bond had been warned not to tangle with Goldfinger. But the super-criminal’s latest obsession was too strong, too dangerous. He had to be stopped. Goldfinger was determined to take possession of half the supply of mined gold in the world—to rob Fort Knox! For this incredible venture he had enlisted the aid of the top criminals in the U.S., including a bevy of beautiful thieves from the Bronx. And he had conceived so foolproof a plan that it would take all of Bond’s unique talents to make it fail—as fail it must. JAMES BOND challenges GOLDFINGER, THE MOST EVIL GENIUS HE HAS EVER FACED. He’s a phenomenal criminal who likes his women dressed only in gold paint. He’s a magnificent fiend who carries his cash in gold bars. He’s a powerful villain who plans to pull the biggest and boldest crime in history—the robbery of all the gold in Fort Knox. “It’s all marvellously intricate and polished storytelling, all absurdly impossible, all superlative fun.”—Cleveland News. “We recommend Goldfinger for just what it is: sophisticated, tongue-in-cheek entertainment par excellence.”—Playboy Magazine. “If you like heroes heroic, a woman who proves, finally, that she’s all woman, and a villain who is a dirty dog, then Goldfinger is for you.”—Detroit Sunday Times.

Movements is a collection of poems for the spiritual and the romantic, for within us is both spirit and soul. The essence of our spirituality and sensuality reigns simultaneously on the forefronts of our being. Such a compilation is like none other, as it is separated into two parts entitled: Romantic Quarters, and In His Courts. Together they tell a story of passion, worship, devotion, and peace. Experience the riveting tale of a woman as she endured a long awaited courtship, the joy she experienced as she walked into a glorious marriage, while encountering the joining of human passion and holy praise. Developing within her is both wife and worshipper. Hence, each metaphor and simile is raw and uninhibited, generating true desire and holiness. Read through the byways of spirit and sensuality, as the power of human forces encountering a real God is exemplified. "Oh, the feeling to love and to be loved. Love with passion, or not at all."

Star Wars: Tie Fighter

Fifty years (and five billion dollars in ticket sales) ago, the dashing Scottish actor Sean Connery declared suavely that he was "Bond, James Bond." Thus began a cinematic series unlike any other. In November 2012, Skyfall, the 23rd movie in what is seen as the authorized line of Bond films, will be released, with Daniel Craig (the sixth Bond) again in the lead role. The world will once more stream to the theaters for another dose of Bond. LIFE was on the scene in the swinging '60s when James Bond became a cultural icon (in fact, when we put the gold-painted actress Shirley Eaton on the cover in 1964, we helped him along), and now LIFE tells the whole story in this commemorative book. Ian Fleming, a high-ranking officer in British Naval Intelligence of World War II, dreamt up his MI6 spy, code number 007, in 1953, and a decade later, with Dr. No, From Russia With Love and then the smash Goldfinger, saw his creation take on a life entirely his own. All the fun of Bond is here: The movies; the reminiscences by the stars; the LIFE photo shoots; the knockoffs and spoofs ("The Man from U.N.C.L.E.;" "Get Smart;" "I Spy;" the first Casino Royale); the artifacts (a model of Bond's Aston Martin DB5 was one of the best-selling toy of 1965); the trivia and inside information on M, Q and Moneypenny—anything a Bond fan would want, packed into one book and then shaken, not stirred. James Bond was, back in the day, one of those cultural phenomena tailor-made for LIFE: It was bright and colorful and vibrant. Today, it

still is. Happy birthday, and welcome back, Commander Bond.

"Rolex was established in 1908, a century ago, so one hundred years have passed from that day to the publication of this volume in which the author, John Goldberger, illustrates what he considers to be the 100 most beautiful examples ever produced. One hundred years of life, and one hundred examples, traced back through time thanks to painstaking research, with the collaboration of some of the most renowned collectors in the world, and photographed to show the characteristics of the movement, case and dial of each example in the best possible way. The top one hundred, we could say, also to narrow down the field of research, which would otherwise have been incredibly vast, to grasp the essence of a brand that has probably contributed more than any other to the development of the wristwatch. Giampiero Negretti Over 700 colour illustrations and 400 descriptions provide the collector and watch enthusiast with invaluable information on reference numbers, watchcases, faces, movements, related calibres and the year of production of each watch. The book is divided into seven chapters: Watches with a destiny; Oyster; Chronograph and moon phases; Oyster chronograph and moon phases; Datejust, Day-Date; Sport Models; Cosmograph."--BOOK JACKET.

A Man & His Watch

Here is a unique book. It describes the theories and processes of repairing and adjusting the modern watch in precise and meticulous detail: a thing which has never been done so completely before in the many books on the same subject. As a text book it is a revelation. Taking nothing for granted, except the ability to read and comprehend a simple description of mechanical processes, de Carle takes his reader through every stage and every operation of watch repairing and to deal with them thoroughly is quite a programme - it takes 300 pages containing 24 chapters, two appendices and 553 illustrations. The fine draughtsmanship and accurate technical detail of the illustrations set a new standard. Practical Watch Repairing can justifiably claim to be the best illustrated book on practical horology yet issued, and one of the best of its kind on any subject. The publication of the book marks the beginning of a new epoch in the study of the mechanics of horology.

Practical Watch Repairing

Just as the Galactic Empire used great fleets of starships to expand Imperial control across the galaxy, the subsequent authoritarian government, the First Order, used even more technologically advanced ships to unify planetary systems and crush all opposition. With both regimes, the most abundant and ubiquitous ships in their respective fleets were the notoriously lethal TIE fighters. The TIE Fighter Owners' Workshop Manual presents a thorough history of Sienar Fleet Systems' twin ion engine space superiority fighter, from early concepts and prototypes to the mass-produced starfighters that fought countless battles against insurgent groups. The history of TIE fighters—including bombers, boarding craft, and shuttles—is fully illustrated with numerous photographs, schematics, exploded diagrams, and computer-generated artwork by Star Wars™ vehicle experts Chris Reiff and Chris Trevas. Text is by Ryder Windham, author and co-author of more than 70 Star Wars books. This Haynes Manual is the most thorough technical guide to TIE fighters available, and is fully authorized and approved by Lucasfilm. Show biz memoir at its name-dropping, bridge-burning, profane best: the music industry's most outspoken, outrageous, and phenomenally successful executive delivers a rollicking memoir of pop music's heyday. During the 1970s and '80s the music business was dominated by a few major labels and artists such as Michael Jackson, Bruce Springsteen, the Rolling Stones, Bob Dylan, Billy Joel, Paul Simon, Barbra Streisand and James Taylor. They were all under contract to CBS Records, making it the most successful label of the era. And, as the company's president, Walter Yetnikoff was the ruling monarch. He was also the most flamboyant, volatile and controversial personality to emerge from an industry and era defined by sex, drugs and debauchery. Having risen from working-class Brooklyn and the legal department of CBS, Yetnikoff, who freely admitted to being tone deaf, was an unlikely label head. But he had an uncanny knack for fostering talent and intimidating rivals with his appalling behavior—usually fueled by an explosive combination of cocaine and alcohol. His tantrums, appetite for mind-altering substances and sexual exploits were legendary. In Japan to meet the Sony executives who acquired CBS during his tenure, Walter was assigned a minder who confined him to a hotel room. True to form, Walter raided the minibar, got blasted

and, seeing no other means of escape, opened a hotel window and vented his rage by literally howling at the moon. In *Howling at the Moon*, Yetnikoff traces his journey as he climbed the corporate mountain, danced on its summit and crashed and burned. We see how Walter became the father-confessor to Michael Jackson as the King of Pop reconstructed his face and agonized over his image while constructing *Thriller* (and how, after it won seven Grammys, Jackson made the preposterous demand that Walter take producer Quincy Jones's name off the album); we see Walter, in maniacal pursuit of a contract, chase the Rolling Stones around the world and nearly come to blows with Mick Jagger in the process; we get the tale of how Walter and Marvin Gaye—fresh from the success of “Sexual Healing”—share the same woman, and of how Walter bonds with Bob Dylan because of their mutual Jewishness. At the same time we witness Yetnikoff's clashes with Barry Diller, David Geffen, Tommy Mottola, Allen Grubman and a host of others. Seemingly, the more Yetnikoff feeds his cravings for power, sex, liquor and cocaine, the more profitable CBS becomes—from \$485 million to well over \$2 billion—until he finally succumbs, ironically, not to substances, but to a corporate coup. Reflecting on the sinister cycle that left his career in tatters and CBS flush with cash, Yetnikoff emerges with a hunger for redemption and a new reverence for his working-class Brooklyn roots. Ruthlessly candid, uproariously hilarious and compulsively readable, *Howling at the Moon* is a blistering *You'll Never Eat Lunch in this Town Again* of the music industry.

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert George Sand, Robyn Davidson, and Sara Wheeler.

The Art of Breguet

The early 2000s were an important period, spanning a time when mechanical watches had quite rightly retaken their place in the world market. We all may have a digital device in our pocket that is more accurate than a mechanical watch, but a timepiece has soul, personality, and history. The collection in this book is a step into the world of vintage watch collecting, with a range of photographs, intricate research, and accessible reference material that will intrigue both the casual and avid enthusiast. The collection showcases some of the most interesting, luxurious, and functional 20th-century (1930-1980) mechanical timepieces ever to be produced, including Heuer's Autavia, Rolex's Submariner, Gallet's MultiChron, Zenith's De Luca, and the Universal Space Compax.

Focusing on such varied sites as British cinema, global celebrity, racialized education policy, and Disney, Sporting Pedagogies illustrates how trans/national sporting cultures, intermediaries, and institutions actively work as pedagogical sites to hegemonically re-inscribe and re-present neo-liberal discourses on sport, culture, nation, and democracy throughout the ascendant global capitalist order. Written in the progressive tradition of Norman K. Denzin, Henry Giroux, Lawrence Grossberg, and Peter McLaren, Michael D. Giardina poignantly - and at times, devastatingly - captures the shifting terrain of social and political contestation and negotiation at play in the modern world. This book is a must-read for students in cultural studies, communications research, sport studies, and globalization.
